at the vegetarian movement. Thanks to her beloved cookbooks and groundbreaking work as the chef at Greens Restaurant in San Francisco, Deborah Madison, though not a vegetarian herself, has long been revered as this country's leading authority on vegetables. She profoundly changed the way generations of Americans think about cooking with vegetables, helping to transform "vegetarian" from a dirty word into a mainstream way of eating. But before she became a household name, Madison spent almost twenty years as an ordained Buddhist priest, coming of age in the midst of counterculture

San Francisco. In this charmingly intimate and refreshingly frank memoir, she tells her story--and with it the story of the vegetarian movement--for the very first time. From her childhood in Big Ag Northern California to working in the kitchen of the then-new Chez Panisse, and from the birth of food TV to the age of green markets everywhere, An Onion in My Pocket is as much the story of the evolution of American foodways as it is the memoir of the woman at the forefront. It is a deeply personal look at the rise of vegetable-forward cooking, and a manifesto for how to eat well"--

The Works of Herman Melville: White jacket, or, The world in a man-of-war

This is the job they have all been waiting for. The job that will set them up for life. A million dollars split five ways, who wouldn't be interested? The only catch is that it's the very definition of impossible...or is it? Armed with a brilliant plan, the four men and one woman think they can crack it. But as tensions in the group begin to mount and things start to go wrong, the million dollars feels more out of reach than ever. Even though it is right with them... Rockabilly had its roots in country, blues, folk, hillbilly, R&B, boogie-woogie and most other indigenous Deep South forms of popular song that you could strum three chords along to or howl down a cheap microphone. It was young people's music, made almost entirely by the first wave of teenagers, despised by adults in general and the country music establishment in particular. Its pioneer exponent, Elvis,

eventually become respectable in the eyes of straight society but he was the exception. 1950s rockabilly was a spontaneous outburst of spirited three-chord songs, tiny record labels, primitive studios, fiercely partisan audiences and wild-eyed, driven performers who weren't even sure that their musical careers would last the week. The book charts the rise (and fall) of the original 50s wave of rockabillies. It will also follow the progress of the music, in clubs, on radio, TV and film, pinpointing the key record labels and important regional centres, showing how fashions eventually changed and left rockabilly high and dry, far too wild and primitive in an era of smoother sounds. Dcharn traces the music to its Memphis roots.

This book was written as: (1) the perfect short read while waiting in airports; (2) the ideal bedside companion; and (3) a delightful gift book. Why? (1) The pithy tales are short, humorous, and insightful; (2) each chapter is all-inclusive - you can start and stop anywhere; and (3) there is nothing nasty, embarrassing, or sexy in it. Thus, Dr. Rawson, a psychology professor extraordinaire, introduces us to this charming collection of travel tales. Covering a time span of 35 years, the author takes us on a fascinating

Usually traveling with his sardonic but delightful wife, his beguiling, but intolerant, brother, his curious sons, or with groups of bumbling college professors, the author consistently manages to capture not only the unique character of the country visited, but the charm and wisdom of its people. Most importantly, the author consistently makes clear that traveling is a lot of fun and humor is a worldwide commodity easily exchanged. Whether its a green-eyed half-breed Greenlander

Originally written in 1609, this work is considered to be one of the earliest examples of science fiction. Domingo Gonsales is a citizen of Spain who flees to the East Indies after killing a man in a duel. On an uncharted island, he discovers a species of giant swan. By attaching several of them to an "Engine," he is able to eventually travel to the moon, a journey that takes 11 days. He soon finds the inhabitants of the moon, who live a happy and carefree life in a kind of pastoral paradise.
