An epic history of the formation of American capitalism, focusing on gender, race and Empire. Includes list of members.

A life-changing guide to achieving your goals, by the 2013 NCAA champion college basketball coach and #1 New York Times bestselling author. Rick Pitino is famous as one of the most dynamic and successful basketball coaches of our time, leading the University of Louisville Cardinals to the NCAA basketball championship in 2013, and is renowned for writing the #1 New York Times bestselling success and leadership book, *Success is a Choice*. In his new book, *The One-Day Contract*, Pitino details his key to success, on the court and in life: to focus on making the most of each day, by creating a contract with yourself. Coach Pitino was able to turn Louisville into NCAA champions by applying this idea to everything he and the team did—every practice, every recruiting visit, every game preparation, every scouting report, every instruction that he gave players and coaches, and everything he did himself. Each day became just as important as reaching the national championship, and so, by honoring the one-day contract, he and Louisville moved through adversity toward their goal. In this inspiring and practical guide, Coach Rick Pitino illustrates how to set your own one-day contract, and follow through to honor it for each day, each goal, and each interaction with another person. Pitino shows how to: - Establish focus as a discipline in everything you do: planning, strategy, priorities, and career advancement. - Discover the true key to success: not ambition, not wealth, not power, but humility. - Use technology wisely—but don't let it replace personal connection with the people you work and live with. - Own up to your problems, tell the truth and they will become part of your past. Lie and they become part of your future. - Make small changes and add value to every minute of your life. *The One-Day Contract* will reshape the way you approach your job, your goals, and your life.

The Journal and Other Writings of Charles Woodmason, Anglican Itinerant

America is at war with itself over the right to vote, or, more precisely, over the question of who gets to exercise that right and under what circumstances. Conservatives speak in ominous tones of voter fraud so widespread that it threatens public trust in elected government.

Progressives counter that fraud is rare and that calls for reforms such as voter ID are part of

a campaign to shrink the electorate and exclude some citizens from the political life of the nation. North Carolina is a battleground for this debate, and its history can help us understand why--a century and a half after ratification of the Fifteenth Amendment--we remain a nation divided over the right to vote. In *Fragile Democracy*, James L. Leloudis and Robert R. Korstad tell the story of race and voting rights, from the end of the Civil War until the present day. They show that battles over the franchise have played out through cycles of emancipatory politics and conservative retrenchment. When race has been used as an instrument of exclusion from political life, the result has been a society in which vast numbers of Americans are denied the elements of meaningful freedom: a good job, a good education, good health, and a good home. That history points to the need for a bold new vision of what democracy looks like. In an effort to save a herd of wild mustangs from horse killers, eighteen-year-old Sandra attempts to lead them several hundred miles across desert and mountains to safety on federal lands.

A multicultural, multinational history of colonial America from the Pulitzer Prize-winning author of *The Internal Enemy* and *American Revolutions* In the first volume in the Penguin History of the United States, edited by Eric Foner, Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America, from the native inhabitants from millennia past, through the decades of Western colonization and conquest, and across the entire continent, all the way to the Pacific coast. Transcending the usual Anglocentric version of our colonial past, he recovers the importance of Native American tribes, African slaves, and the rival empires of France, Spain, the Netherlands, and even Russia in the colonization of North America. Moving beyond the Atlantic seaboard to examine the entire continent, *American Colonies* reveals a pivotal period in the global interaction of peoples, cultures, plants, animals, and microbes. In a vivid narrative, Taylor draws upon cutting-edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery, opportunity and loss. "Formidable . . . provokes us to contemplate the ways in which residents of North America have dealt with diversity." -The New York Times Book Review

What happens to "orphan" diseases that aren't big enough profit centers for the pharmaceutical industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as "Real Heroes" on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: "Your contributions to the fitness industry are well known, and your dedication an inspiration." Lance Armstrong, seven-time "Le Tour de France" champion: "I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest." Arnold Schwarzenegger, governor of California: "Your success has been incredible. But you are so much more than just a successful businessman. You are the greatest husband, a great father, and a terrific friend. So,

Every year, on Valentine's Day, the great Thoroughbred farms open their breeding sheds and begin their primary business. For the next one hundred and fifty days, the cries of stallions and the vigorous encouragement of their handlers echo through breeding country, from the gentle hills of Kentucky to the rich valleys of California. Stud takes us into this strange and seductive world of horse breeding. We meet the world's leading sire, Storm Cat, the Triple Crown winner, Seattle Slew, and a nearly unmanageable colt, Devil Begone, who has found peace and prosperity on the banks of the Rio Grande servicing desert mares like Patty O'Furniture. Cheap stud, top stud, old stud, wild stud, from the Hall of Fame horse to the harem stallion with his feral herd, Stud looks at intimate acts in idyllic settings and the billion-dollar business behind them.

The Antislavery Movement in Kentucky

Two Hundred Twenty-Five Years of Architecture

The Martindale-Hubbell Law Directory

When the Spirit Speaks

Race, Memory & the American Civil War

The Settling of North America (The Penguin History of the United States, Volume 1)

As one of only two states in the nation to still allow slavery by the time of the Thirteenth Amendment in 1865, Kentucky's history of slavery runs deep. Based on extensive research, *The Antislavery Movement in Kentucky* focuses on two main antislavery movements that emerged in Kentucky during the early years of opposition. By 1820, Kentuckians such as Cassius Clay called for the emancipation of slaves—a gradual end to slavery with compensation to owners. Others, such as Delia Webster, who smuggled three fugitive slaves across the Kentucky border to freedom in Ohio, advocated for abolition—an immediate and uncompensated end to the institution. Neither movement was successful, yet the tenacious spirit of those who fought for what they believed contributes a proud chapter to Kentucky history.

*The Filson Club History Quarterly*, first published in 1926, has long enjoyed a reputation as one of the nation's finest regional historical journals. Over the years it has published excellent essays on virtually every aspect of Kentucky history. Gathered together here for the first time are twenty-eight selections, chosen from the first fifty years of the journal's publication. These essays span the range of Kentucky history and culture from frontier criminals to best sellers by Kentucky women writers, and from Indian place names to twentieth century bank failures. Included among the essayists are Thomas D. Clark, J. Winston Coleman, Jr., Robert E. McDowell, Lowell Harrison, Hambleton Tapp, Julia Neal, Allan M. Trout, and many other well-known authorities on Kentucky history. The editors have arranged these essays into five chronological periods, which include the pioneer era, the antebellum years, the Civil War, the late nineteenth century, and the twentieth century. They have carefully chosen essays that provide a topical diversity within each category. Included in this volume are two brief introductory essays sketching the history of *The Filson Club* and *The Filson Club History Quarterly*.

Celebrate the birth, development, and success of The Walt Disney Company year by magical year -- now updated and available in paperback. *Disney: The First 100 Years* explores the Disney story --

the story of a man, a family, and a company. You'll meet the people who helped Walt make his dreams come true, see a museum's worth of classic photos, and participate in the opening day of the most famous tourist attraction on the planet -- Walt Disney World -- plus just about every significant event in between. If you hve ever wished up on a star, whistled while you worked, or believed that elephants could fly, you will undoubtedly consider this magical journey through the past Disney-filled century supercalifragilisticexpialidociously exhilarating!

Colonial Homes In North Carolina

*LARRY MILLER is the tough-as-nails, fun-loving, working class bad boy who in the 1960s saved young North Carolina coach Dean Smith's job by winning his first two ACC titles and a trip to the National Championship game. A two-time All American, Miller was also the first heartthrob of the modern ACC, going on to become the Joe Namath of the ABA while setting the pro league's All-Time Single Game scoring record. And then he simply disappeared. Now, for the first time, North Carolina's foundational player shares priceless stories from his scrappy youth in Lehigh Valley steel country... from the locker rooms, road trips, parties and fights of the teams that established Dean Smith's Tar Heel legacy... and from the raffish early days of modern pro basketball. Larry Miller Time is a candid, immersive narrative for every follower of UNC and classic basketball lore, and a Brigadoon of America's good old days. The photographer documents life in the small rural North Carolina community of Sodom Laurel, capturing images of agricultural life, family gatherings, storytelling, and music making that are fast disappearing in America. (Social Science)*

*In what is probably the fullest and most vivid extant account of the American Colonial frontier, The Carolina Backcountry on the Eve of the Revolution gives shape to the daily life, thoughts, hopes, and fears of the frontier people. It is set forth by one of the most extraordinary men who ever sought out the wilderness--Charles Woodmason, an Anglican minister whose moral earnestness and savage indignation, combined with a vehement style, make him worthy of comparison with Swift. The book consists of his journal, selections from the sermons he preached to his Backcountry congregations, and the letters he wrote to influential people in Charleston and England describing life on the frontier and arguing the cause of the frontier people. Woodmason's pleas are fervent and moving; his narrative and descriptive style is colorful to a degree attained by few writers in Colonial America.*

*This book introduces the reader to 32 self-taught artists in the South-eastern United States. Some have already come to the attention of collectors and scholars. Many others have been unrecognised outside of their immediate neighbourhoods. What they all have in common is an unquenchable desire to make art. Often defying the expectations of family and friends, they have pursued this inspiration. In many cases, these artists began to create in response to a personal crisis. Others harboured an interest in art for many years but only had the time to create following retirement. Most were initially unaware of the academic art world, either because they were unable to afford an art education or because their families considered such an aspiration impractical. These stories of perseverance, struggle and triumph illustrate the strength of the creative impulse, which is a part of us all.*

*Winner of the Sir Walter Raleigh Award: A humorous and unparalleled account of the lives of three young sisters during the Great Depression. It is 1939 and life has changed drastically for the Bishop family. After losing their money and being forced to abandon their lovely seaside home in Connecticut, they move to the all-black Southern town of Ephesus. Patriarch P. Q. (which might stand for Peculiar) is a dreamer whose failed attempts at various schemes have landed the Bishops in a squalid shack that never stays warm and collects soot like a dustbin. And Mrs. Bishop is having an impossible time adjusting to their less than aristocratic conditions. But adolescent daughters Irene, Urie, and the zany Loco Poco—with their eccentric personalities and clothes made from tablecloths—won't let anything stop them from taking on the world. Little Women meets The Grapes of Wrath, Daphne Athas's award-winning novel has been hailed by critics and named one of the best books of the year by Time magazine. Entering Ephesus is a glorious and unforgettable story of life during the Great Depression through the eyes of three young, vivacious women.*

**Colonial Homes In North Carolina** This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: **1. Type-setting & Reformatting:** The complete work has been re-designed via professional layout, formatting and type-setting tools to re-

**create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!**

## **Lore & Legacy, 200 Years**

Bringing together 12 essays and lectures spanning a period of fifteen years, Blight (history and black studies, Amherst College) explores three primary concerns: the meaning of the American Civil War, the nature of African American history and the significance of race in American history generally, and the character and purpose of the study of historical memory. Along the way, he touches upon such topics as the tangled relationship between the memory of the Civil war and the memory of black emancipation, the leadership and relationship of Abraham Lincoln and Frederick Douglass, W.E.B. Du Bois's contribution to historical memory, Ken Burn's treatment of the Civil War, and controversies over battlefield remembrances and memorial constructions. Annotation copyrighted by Book News, Inc., Portland, OR

During the quarter of a century before the thirteen colonies became a nation, the northwest quadrant of North Carolina had just begun to attract permanent settlers. This seemingly primitive area may not appear to be a likely source for attractive pottery and ornate silverware and furniture, much less for an audience to appreciate these refinements. Yet such crafts were not confined to urban centers, and artisans, like other colonists, were striving to create better lives for themselves as well as to practice their trades. As Johanna Miller Lewis shows in this pivotal study of colonial history and material culture, the growing population of Rowan County required not only blacksmiths, saddlers, and tanners but also a great variety of skilled craftsmen to help raise the standard of living. Rowan County's rapid expansion was in part the result of the planned settlements of the Moravian Church. Because the Moravians maintained careful records, historians have previously credited church artisans with greater skill and more economic awareness than non-church craftsmen. Through meticulous attention to court and private records, deeds, wills, and other sources, Lewis reveals the Moravian failure to keep up with the pace of development occurring elsewhere in the county. Challenging the traditional belief that southern backcountry life was primitive, Lewis shows that many artisans held public office and wielded power in the public sphere. She also examines women weavers and spinsters as an integral part of the population. All artisans -- Moravian and non-Moravian, male and female -- helped the local market economy expand to include coastal and trans-Atlantic trade. Lewis's book contributes meaningfully to the debate over self-sufficiency and capitalism in rural America.
