This revision of Gerald Corey's bestselling text introduces students to the major theories of counseling (psychoanalytic, Adlerian, existential, person-centered, Gestalt, reality, behavior, cognitive-behavior, family systems, feminist, and postmodern approaches) and demonstrates how each theory can be applied to a single case (Stan). Corey's eighth edition covers the major concepts of counseling theories, shows students how to apply those theories in practice, and helps them learn to integrate the theories into an individualized counseling style. Incorporating the thinking, feeling, and behaving dimensions of human experience, Corey offers an easy-to-understand text that helps students compare and contrast the therapeutic models. This book is the center of a suite of products that include a revised student manual, a revised casebook, a new DVD titled Theory in Practice: The Case of Stan, The Art of Integrative Counseling, and CD-ROM. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Student's manual for economics

Available to complement Corey's textbook, the Student Manual helps students experience group process techniques and gain maximum benefit from the textbook. The Student Manual includes suggested activities for the whole class and for small groups, ideas for supervised training groups, summary charts, self-inventories, study guides, comprehension checks and quizzes, group techniques, and examples of cases with open-ended alternatives for group counseling practice. New to the 9th Edition are mini-interviews with experts for each of the theories, who address these questions: (1) What attracted you to this particular theoretical

orientation? How does the theory fit for the person you are? (2) What are some key concepts (and techniques) of this theory that are most applicable to the practice of group counseling? (3) How does this theory have particular relevance for addressing diversity and social justice issues in group work?

"Practicum and internship courses are the most challenging and exciting components of a counselor's academic preparation. This hands-on text is the ideal resource for such students as they begin the process of translating counseling theory into effective clinical practice. The authors' clear, conversational approach not only orients students to the challenges of clinical training but also enhances their ability to learn from these experiences." "Translating Theory into Practice covers all aspects of counselor training, from the core relationships that are essential to professional development to workable suggestions on selecting

a field site, managing cases, terminating with clients, and networking with other mental health professionals. Vignettes and sample dialogues highlight real-world ethical issues and counseling concerns. The text also includes relevant information on state licensing requirements and national standards as well as several major codes of ethics. With insights gleaned from years of both teaching and professional counseling practice, the authors equip students with the skills they need to reap the full benefits that practicum and internship afford" --Book Jacket.

Theory and Practice of Counseling and Psychotherapy

Incorporating the thinking, feeling, and behaving dimensions of human experience, the tenth edition of Corey's best-selling book helps students compare and contrast the therapeutic models expressed in counseling theories. Corey introduces students to the major theories (psychoanalytic, Adlerian, existential, person-centered, Gestalt, reality, behavior, cognitive-behavior, family systems, feminist, postmodern, and integrative approaches) and demonstrates how each theory can be applied to two cases (Stan and Gwen). With his trademark style, he shows students how to apply those theories in practice, and helps them learn to integrate the theories into an individualized counseling style.
