*The last thing I expected to get for Christmas was kidnapped... Ari: I also didn't expect to escape, get amnesia, and wash up on a reclusive millionaire's private beach. I didn't expect that millionaire to turn out to be insanely-hot, ex-actor Holden Amundsen, who fled Hollywood years ago after a scandal. And I definitely didn't expect famously straight Holden Amundsen to not be quite so straight after all-at least not when he's in bed with me. Talk about holy nights... But when pictures of us kissing end up online, more than Holden's reputation is at stake. Holden promises he'll protect me when my kidnappers come calling, but I'm more worried about my heart. Holden says what we have can't last, but I know love when I feel it. So how do I convince him that we're a Christmas miracle worth fighting for? Sea Kissed is part of the MM Fairy Tale Romance series. All books are completely standalone and are modern retellings of classic fairy tales with a gay romance twist.*

*A Chance Encounter Forever Changed Their Lives--and Destinies. Crafted by two masters of inspirational fiction--Janette Oke and T. Davis Bunn--and combining the engaging historical settings, rich characterization, and heartwarming messages quintessential to both authors, The Meeting Place is another timeless story for you to cherish. Set along the rugged coastline of 18th century Canada in what was then called Acadia (now Nova Scotia and New Brunswick), The Meeting Place re-creates a world that was home to native Indians, French settlers, and English garrisons. Such diverse populations did not live in accord, however. Instead, they were isolated within their own groups by a brewing political tension under the difficult English rule. Amid such chaotic times two women, both about to become brides and both trying to live lives of quiet peace, meet in a lush field of wildflowers. Louisa, a Frenchwoman, and Catherine, who is English, continue to meet secretly through the seasons, sharing both friendship and growing faith. The outside world does not mirror their own tranquil happiness, and the dreaded crackdown by the English throne threatens far more than their growing bond. In the face of a heart-wrenching dilemma, Louisa and Catherine strive to maintain their faith and cling to their dreams of family and home. Winner of the Christy Award, presented by the Christian Bookseller Association to honor the best in Christian fiction.*

*Conventional theories of capitalism are mired in a deep crisis: after centuries of debate, they are still unable to tell us what capital is. Liberals and Marxists both think of capital as an ‘economic’ entity that they count in universal units of ‘utils’ or ‘abstract labour’, respectively. But these units are totally fictitious. Nobody has ever been able to observe or measure them, and for a good reason: they don’t exist. Since liberalism and Marxism depend on these non-existing units, their theories hang in suspension. They cannot explain the process that matters most – the accumulation of capital. This book offers a radical alternative. According to the authors, capital is not a narrow economic entity, but a symbolic quantification of power. It has little to do with utility or abstract labour, and it extends far beyond machines and production lines. Capital, the authors claim, represents the organized power of dominant capital groups to reshape – or creorder – their society. Written in simple language, accessible to lay readers and experts alike, the book develops a novel political economy. It takes the reader through the history, assumptions and limitations of mainstream economics and its associated theories of politics. It examines the evolution of Marxist thinking on accumulation and the state. And it articulates an innovative theory of ‘capital as power’ and a new history of the ‘capitalist mode of power’.*

It was my friend, Howard Roby, who first talked me into starting my memoirs. It is largely his fault, as well, that I have dwelled upon myself for not just one, but two books that make up this tome that is my life. Because I pledged to myself that I would always keep my eye on the facts and would not be carried away with any "bull", whatsoever. I have kept the famous saying by the tennis player, John McEnroe, in mind throughout: "The older I get, the better I was," Today, in spite of all the ill winds that circulate among businesses, I am in my seventieth year with no financial worries and am relatively healthy to boot. This results from my lifetime habit of hardwork, long hours, and continual challenges as I have made sure that I am providing well for my family. Has it been worth it? What do I have to show for it besides the material comforts? Was my life a success? So finally, I would like to see us play on the same side together, family, friends and world. After all, everyone's a mate!

*Narrating Narcos presents a probing examination of the prominent role of narcotics trafficking in contemporary Latin American cultural production. In her study, Gabriela Polit Dueñas juxtaposes two infamous narco regions, Culiacán, Mexico, and Medellín, Colombia, to demonstrate the powerful forces of violence, corruption, and avarice and their influence over locally based cultural texts. Polit Dueñas provides a theoretical basis for her methods, citing the work of Walter Benjamin, Pierre Bourdieu, and other cultural analysts. She supplements this with extensive ethnographic fieldwork, interviewing artists and writers, their confidants, relatives, and others, and documents their resposnes to the portrayal of narco culture. Polit Dueñas offers close readings of the characters, language, and milieu of popular works of literature and the visual arts and relates their ethical and thematic undercurrents to real life experiences. In both regions, there are few individuals who have not been personally affected by the narcotics trade. Each region has witnessed corrupt state, police, and paramilitary actors in league with drug capos. Both have a legacy of murder. Polit Dueñas documents how narco culture developed at different times historically in the two regions. In Mexico, drugs have been cultivated and trafficked for over a century, while in Colombia the cocaine trade is a relatively recent development. In Culiacán, characters in narco narratives are often modeled after the serrano (highlander), a romanticized historic figure and sometime thief who nobly defied a corrupt state and its laws. In Medellín, the oft-portrayed sicario (assassin) is a recent creation, an individual recruited by drug lords from poverty stricken shantytowns who would have little economic opportunity otherwise. As Polit Dueñas shows, each character occupies a different place in the psyche of the local populace. Narrating Narcos offers a unique melding of archival and ground-level research combined with textual analysis. Here, the relationship of writer, subject, and audience becomes clearly evident, and our understanding of the cultural bonds of Latin American drug trafficking is greatly enhanced. As such, this book will be an important resource for students and scholars of Latin American literature, history, culture, and contemporary issues.*

*This edited volume offers the first critical engagement with one of the most provocative and controversial theories in political economy: the thesis that capital can be theorized as power and that capital is finance and only finance. The book also includes a detailed introduction to this novel thesis first put forward by Nitzan and Bichler in their Capital as Power. Although endorsing the capital as power argument to varying extents, contributors to this volume agree that a new understanding of capital that radically departs from Marxist and Neoclassical theories cannot be ignored. Offering the first application and appraisal of Nitzan and Bichler's theory, chapters examine the thesis in the context of energy and global capitalization, US Investment Banks, trade and investment agreements between Canada, the US and Mexico, and multinational corporations in Apartheid South Africa. Balancing theory, methodology and empirical analysis throughout, this book is accessible to new readers, whilst contextualising and advancing the original theoretical debate. The Capitalist Mode of Power will be of interest to students and scholars of International Relations, Political Economy, Globalization and Critical Theory.*

*Nell Winston accepts a position as companion to Allegra Selkirk, a young woman who was paralyzed in an accident, but when Nell enters the woman's mansion, Hope's End, she senses a mysterious danger that will threaten both their lives*

*A gender-bending, patriarchy-smashing, hilarious new take on the classic tale. Robin Hood is (and has always been) Maid Marian in disguise, and leads a motley group of Merry Men (few of whom are actually men) against the greedy Prince John. As the poor get poorer and the rich get richer, who will stand for the vulnerable if not Robin? What is the cost of revealing your true self in a time of trouble? Modern concerns and romantic entanglements clash on the battlefield and on the ramparts of Nottingham Castle. A play about selfishness and selflessness and love deferred and the fight. Always the fight. The fight must go on.*

A penetrating indictment of how today’s largest tech companies are hijacking our data, our livelihoods, our social fabric, and our minds—from an acclaimed Financial Times columnist and CNN analyst WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FOREIGN AFFAIRS AND EVENING STANDARD "Don't be evil" was enshrined as Google's original corporate mantra back in its early days, when the company's cheerful logo still conveyed the utopian vision for a future in which technology would inevitably make the world better, safer, and more prosperous. Unfortunately, it's been quite a while since Google, or the majority of the Big Tech companies, lived up to this founding philosophy. Today, the utopia they sought to create is looking more dystopian than ever: from digital surveillance and the loss of privacy to the spreading of misinformation and hate speech to predatory algorithms targeting the weak and vulnerable to products that have been engineered to manipulate our desires. How did we get here? How did these once-scrappy and idealistic enterprises become rapacious monopolies with the power to corrupt our elections, co-opt all our data, and control the largest single chunk of corporate wealth—while evading all semblance of regulation and taxes? In Don't Be Evil, Financial Times global business columnist Rana Foroohar tells the story of how Big Tech lost its soul—and ate our lunch. Through her skilled reporting and unparalleled access—won through nearly thirty years covering business and technology—she shows the true extent to which behemoths like Google, Facebook, Apple, and Amazon are monetizing both our data and our attention, without us seeing a penny of those exorbitant profits. Finally, Foroohar lays out a plan for how we can resist, by creating a framework that fosters innovation while also protecting us from the dark side of digital technology. Praise for Don't Be Evil "At first sight, Don't Be Evil looks like it's doing for Google what muckraking journalist Ida Tarbell did for Standard Oil over a century ago. But this whip-smart, highly readable book's scope turns out to be much broader. Worried about the monopolistic tendencies of big tech? The addictive apps on your iPhone? The role Facebook played in Donald Trump's election? Foroohar will leave you even more worried, but a lot better informed."—Niall Ferguson, Milbank Family Senior Fellow at the Hoover Institution, Stanford, and author of The Square and the Tower

A woman desperately seeking employment accepts a position from a shipboard acquaintance with a highly unorthodox proposal. She soon begins to wonder if this perilous bargain was the worst mistake she ever made.
