Known as the "Jug" because of its fuselage shape, the Republic P-47 Thunderbolt flew in every theatre of WWII except Alaska. Nearly 13,000 were built by war's end. The large aircraft carrier eight Browning machine guns and up to 2,000 lbs. of bombs or rockets, and proved an effective fighter and bomber. The radial Pratt and Whitney powerplant put out over 2500 h.p. and propelled the P-47 at a maximum speed of 426 mph at 30,000 feet. Originally published by the U.S. Army Air Force, this handbook taught pilots everything they needed to know before entering the cockpit. This affordable facsimile of a real WWII manual has been reformatted. Care has been taken to preserve the integrity of the text.

After pulling a magical thunderbolt from a stone, ten-year-old Zeus goes on the adventure of a lifetime in this thrilling start to a brand-new series! The terrible Titans—merciless giants who enjoy snacking on humans—have dominated the earth and put the world into chaos. But their rule is about to be put to the test as a group of young Olympians discover their powers and prepare to righteously rule the universe.... Ten-year-old Zeus is mystified (and super-annoyed) by the fact that he keeps getting hit by lightning. Every. Single. Year. He also longs for adventure, as he has never been far

from the cave where he grew up. Zeus gets his wish—and a lot more than he bargained for—when he is kidnapped by dangerous, giant Titans! In self-defense, Zeus grabs the first thing he sees—an actual thunderbolt he pulls from a stone that is covered in mysterious markings. Zeus is the only one who can decipher the markings, and sets off on a quest to rescue his fellow Olympians from the evil Cronus. Armed with his trusty thunderbolt (named Bolt, of course), Zeus is on an adventure of a lifetime—and a journey to fulfill his destiny as King of the Gods.
