

Thy Fearful Symmetry

Because of its complexity and profundity, the Book of Job has been many things to many people and few texts can have been more written about. I will argue in this study that it is, first and foremost, about creation and the theology of creation. If "beginning" and "ending" are creation terms, "birth" and "death" are their equivalents for the animate parts of creation. What happens between those two events in time, which is well-being and survival to an expected time, seen as order in creation for its animate constituents, or their opposites which is ill-being and untimely death, seen as disorder in creation, must also belong to creation theology as must measures to be taken to secure the former and avoid the latter. The diversity of views on the subject of order and disorder in creation is explored through the medium of argumentative speeches each of which has persuasion as its goal. Two striking features of the arguments are, firstly, the passion with which they are expressed and, secondly, challenges to their credibility. I suggest that the key to the interpretation of Job as a work about order and disorder in creation is a rhetorical criticism based on precepts which hold that persuasion is achieved through argument, emotion and the credibility of the speaker. Aristotle's Rhetoric meets those requirements. Since persuasion is not achieved in a void, I look at the Mesopotamian literary context of Job. I look, first, at texts dealing with order and disorder in creation, second, at texts concerned with human suffering, and thirdly, at a small group of texts comprising a literary genre, the dispute poem. I contend that the Joban poet modelled his work on the dispute poem, the better to set out the different strands of thinking on order and disorder in creation.

Evaluation is central to literary studies and has led to an impressive list of publications on the status and history of the canon. Yet it is remarkable how little attention has been given to the role of textual properties in evaluative processes. Most of the chapters in The Quality of Literature redress this issue by dealing with texts or genres ranging from classical antiquity, via Renaissance to twentieth century. They provide a rich textual and historical panorama of how critical debate over literary quality has influenced our modes of thinking and feeling about literature, and how they continue to shape the current literary landscape. Four theoretical chapters reflect on the general state of literary evaluation while the introduction weaves the different threads together aiming at further conceptual clarification. This book thus contributes to a deeper understanding of the problems that are at the heart of past and present debates over literary quality.

This textbook, based on extensive teaching experience, makes new insights from linguistic and literary scholarship accessible to students in their daily practice of reading, analysing and evaluating literary texts. This textbook provides a thought-provoking introduction to the practice of literary stylistics. It is based on extensive teaching experience, and makes new insights from linguistic and literary scholarship accessible to students in their daily practice of reading, analysing and evaluating literary texts. The twelve chapters, written by experts in the field, provide a firm foundation for the development of language and context-based literary criticism. The book allows students to increase their creative responsiveness to the interplay between text and context, and between language and social situation.

Me □n□ Mine Pullout Worksheets English is a complete practice material for students in the form of worksheets through which they can revise concepts and identify the areas of improvement. Assessment of all the topics can be comprehensively done through these sets. The series also comprises solved and unsolved practice papers as per latest CBSE syllabus and guidelines. Along with the basic exercises the series also comprises various elements of the formative assessment like puzzles, crosswords, projects, etc.

A Reception History of Behemoth and Leviathan

Thy Fearful Symmetry Createspace Independent Pub

"Tyger! Tyger! burning bright In the forests of the night, What immortal hand or eye Could frame thy fearful symmetry?" William Blake

In late 19th century England, Oscar Wilde popularized aestheticism, also known as art-for-art's-sake – the idea that art, that beauty, should not be a vehicle for morality or truth, but an end in-and-of-itself. Rothko and Jackson Pollock enthroned the idea, creating paintings that are barely graded panels of color or wild splashes. Today, pop culture is aestheticism's true heir, from the perfect charismatic emptiness of Ocean's Eleven to the hyper-choreographed essentially balletic movements in the best martial arts movies. But aestheticism has a dark core, one that Social Justice Activists are now gathering to combat, revealing the damaging

ideology reflected in or concealed by our most beloved pop culture icons. Taking Bryan Fuller's television version of Hannibal "The Cannibal" Lecter as its main text – and taking Žižek-style illustrative detours into Malcolm in the Middle, Dark Knight Rises, Harry Potter, Interview with a Vampire, Dexter and more – this book marshals Walter Pater, Camille Paglia, Nietzsche, the Marquis de Sade, Kant and Plato, as well as Dante, Shakespeare, Milton, Blake, Baudelaire, Beckett, Wallace Stevens and David Mamet to argue that Fuller's show is a deceptively brilliant advance of aestheticism, both in form and content – one that investigates how deeply art-for-art's-sake, and those of us who consciously or unconsciously worship at its teat, are necessarily entwined with evil.

In this series, a contemporary poet selects and introduces a poet of the past. By their choice of poems and by the personal and critical reactions they express in their prefaces, the editors offer insights into their own work as well as providing an accessible and passionate introduction to the most important poets in our literature. Tyger Tyger, burning bright, In the forests of the night: What immortal hand or eye, Could frame thy fearful symmetry? -- The Tyger

Order and Disorder in Creation in the Book of Job

Darcy had never known such a woman, one who could rush into an inferno and emerge as bold and brilliant as burnished brass, bright as any mirror. FITZWILLIAM DARCY HAD PLANNED TO LEAVE NETHERFIELD PARK and all thoughts of the enchanting Miss Elizabeth Bennet behind him—until one night when he saw smoke rising from Longbourn and realised she was in peril. ELIZABETH BENNET FOUND MR DARCY ARROGANT AND INSUFFERABLE right up until he became her hero, pulling her and her sister from the fire that devastated their home, and could have claimed both of their lives. Seeing how he put his own life at risk to pull her from the fire, how could she help but change her opinion of him? THROWN TOGETHER AGAIN in the refuge offered at Netherfield, Darcy and Elizabeth's unexpected bond gains strength. But disapproval, debts, and doubts all arise when the costs in time and expense involved in rebuilding Longbourn threaten to widen the gulf in standing between Elizabeth and Darcy in the eyes of society. Amidst these perplexities of destruction and decorum, can love's courage overcome calamity?

A text book on English

This book gathers a set of reflections on the gift of beauty and the passion of being. There is something surprising about beauty that we receive and that moves the passion of being in us. The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity. Beauty seems bland and lacks the more visceral thrill of the ugly, indeed the excremental. We crave what disrupts and provokes us, not what gives delight or even consoles. By contrast, attention is given to how beauty arouses enigmatic joy in us, and we enjoy an elemental rapport with it as other. Surprised by beauty, our breath is taken away, but we are more truly there with the beautiful when we are taken outside of ourselves. We are first receivers of the gift of surprise and only then perceivers and conceivers. My attention to the passion of being stresses a patience, a receptivity to what is other. What happens is not first our construction. There is something given, something awakening, something delighting, something energizing, something of invitation to transcendence. The theme is amplified in diverse reflections: on life and its transient beauty; on soul music and its relation to self; on the shine on things given in creation; on beauty and Schopenhauer's dark origin; on creativity and the dynamis in Paul Weiss's creative ventures; on redemption in Romanticism in the thought of Stanley Cavell; on theater as a between or metaxu; on redeeming laughter and its connection with the passion of being.

CULTURE AND VALUES: A SURVEY OF THE HUMANITIES takes you on a fascinating tour of some of the world's most significant examples of art, music, philosophy, and literature, from the beginnings of civilization to today. New features in this edition are designed to make it easy for you to understand the influence of historical events and values on the works produced by each culture—guided discussions of all of the readings, chapter previews, timelines, Compare and Contrast sections, Big Picture reviews at the end of each chapter, expanded coverage of Asia and Africa, and high-quality images with clear captions. CULTURE AND VALUES: A SURVEY OF THE WESTERN HUMANITIES takes you on a fascinating tour of some of the world's most significant examples of art, music, philosophy, and literature, from the beginnings of civilization to today. New features in the eighth edition are designed to make it easy for you to understand the influence of historical events and values on the works produced by each culture--guided discussions of all of the readings, chapter previews, timelines, Compare and Contrast sections, Big Picture reviews at the end of each chapter, and high-quality images with clear captions. Volume 2 covers the High Renaissance to the 21st Century. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Abstract: It is difficult to deny that we all have a dependence on testimony for coming to know large swaths of basic knowledge. Statements regarding what food we ought to eat, what the weather will be like a few days from now, or who the twelfth president of the United States was are examples of information that we acquire through testimony. Most of us likely do not have qualms with acquiring knowledge in this way. However, we might wonder whether the situation is the same for testimony with moral substance. In this thesis, I argue that moral and nonmoral testimony are not as different as has previously been supposed. I will argue that moral testimony can be justifiably adopted for the same reasons that nonmoral testimony can be justifiably adopted--those reasons being that it is possible to evaluate the sources of moral testimony through indirect means which touch on their reliability.

This brilliant outline of Blake's thought and commentary on his poetry comes on the crest of the current interest in Blake, and carries us further towards an understanding of his work than any previous study. Here is a dear and complete solution to the riddles of the longer poems, the so-called -Prophecies, - and a demonstration of Blake's insight that will amaze the modern reader. The first section of the book shows how Blake arrived at a theory of knowledge that was also, for him, a theory of religion, of human life and of art, and how this rigorously defined system of ideas found expression in the complicated but consistent symbolism of his poetry. The second and third parts, after indicating the relation of Blake to English literature and the intellectual atmosphere of his own time, explain the meaning of Blake's poems and the significance of their characters.

Linguistic Studies in Literary Evaluation

The Poems of William Blake

I was born to the name of Rachel Weatere in the year 1684, more than three hundred years ago. The one who changed me named me Risika, and Risika I became, though I never asked what it meant for myself Risika, even though I was transformed into what I am against my will. By day, Risika sleeps in a shaded room in Concord, Massachusetts. By night, she hunts the streets of New York City. But now someone is following Risika. Someone has left her a black rose, the same sort of rose that sealed her fate three hundred years ago. Three hundred years ago Risika had a family -- a brother and a sister. Three hundred years ago she was human. Now she is a vampire, a powerful one. And her past has come back to torment her. This atmospheric, haunting tale marks the stunning debut of a new novelist. From the Hardcover edition.

'Run, Rosie, run!' I cried, gasping for breath, as my daughter spun around and dashed towards the steps. From the perimeter fence behind us, strong, thin beams of light jerked wildly as black-coated figures and advanced at a steady run, spreading out like spiders on a web.' How can Emma and Matthew escape when the past is only one step behind them and the enemy unknown? When history catches up, where will there be left to hide in the future Fearful Symmetry is the thrilling conclusion to The Secret of the Journal series.

From the author of the #1 bestselling *The Time Traveler's Wife*, a spectacularly compelling novel--set in and near Highgate Cemetery in London, about the love between twins, men and women, ghosts, and Valentina Poole are twenty-year-old sisters with an intense attachment to each other. One morning the mailman delivers a thick envelope to their house in the suburbs of Chicago. Their English teacher's father has died of cancer and left them her London apartment. There are two conditions for this inheritance: that they live in the flat for a year before they sell it and that their parents not enter it. Julia and Valentina become involved with their living neighbors: Martin, a composer of crossword puzzles who suffers from crippling OCD, and Robert, Elspeth's elusive lover, a scholar of the cemetery. So much that much is still alive in Highgate, including--perhaps--their aunt.

"The Torn Book: UnReading William Blake's Marginalia argues for the connection between British poet and painter William Blake's marginalia (the annotations he made in the volumes he owned and the role that often multivalent symbols like pens, writers, readers, and books play throughout his art." "The Torn Book pays particular attention to original Blake items, including the various annotated items in the Huntington Library, Houghton Library, Cambridge's University Library and Wren Library, Dr. Williams's Library, and the British Library, among others."--BOOK JACKET.

Using English from Conversation to Canon
Creative Classroom Practice

Blood will flow. Fire will fall. Days will end. The end of the world started in Glasgow, with a kiss. Two people - two creatures - fated to be eternal enemies downed their blazing spears and loved. To do so they broke rules hardwired into the DNA of the universe. The universe noticed. The universe broke. Now Heaven and Hell are hunting them. Nobody on Earth can help them. Worst of all, the fabric of reality is unravelling around them, the Apocalypse has been brought forward a millennium, and it might all be their fault. On cold streets the last tattered remnants of humanity must draw faith in a world that has no more use for them. As the masses pray and crawl on bloody knees, the few must restore the fearful symmetry between good and evil - for the sake of all. "Imagine a world where fire rains from the sky at the same time as pure white snow. A world where the dead walk the Earth. Faced with that, logic goes out the window. The people in this story are raw and real. Broken and sullied. Terrified." - Jessica Nottingham, *Hopelessly Devoted Bibliophile*

Leviathan, a manifestation of one of the oldest monsters in recorded history (3rd millennium BCE), and its sidekick, Behemoth, have been the object of centuries of suppression throughout the millennia. Originally cosmic, terrifying creatures who represented disorder and chaos, they have been converted into the more palatable crocodile and hippo by biblical scholars today. However, among the earliest Jews (and Muslims) and possibly Christians, these creatures occupied a significant place in creation and redemption history. Before that, they formed part of a backstory that connects the Bible with the wider ancient Near East. When examining the reception history of these fascinating beasts, several questions emerge. Why are Jewish children today familiar with these creatures, while Christian children know next to nothing about them? Why do many modern biblical scholars follow suit and view them as minor players in the grand scheme of things? Conversely, why has popular culture eagerly embraced them, assimilating the words as symbols for the enormous? More unexpectedly, why have fundamentalist Christians touted them as evidence for the cohabitation of dinosaurs and humans?

William Blake's work demonstrates two tendencies that are central to social media: collaboration and participation. Not only does Blake cite and adapt the work of earlier authors and visual artists, but contemporary authors, musicians, and filmmakers feel compelled to use Blake in their own creative acts. This book identifies and examines Blake's work as a social and participatory network, a phenomenon described as zoamorphosis, which encourages - even demands - that others take up Blake's creative mission. The authors reexamine the history of the digital humanities in relation to the study and dissemination of Blake's work: from alternatives to traditional forms of archiving embodied by Blake's citation on Twitter and Blakean remixes on YouTube, smartmobs using Blake's name as an inspiration to protest the 2004 Republican National Convention, and students crowdsourcing reading and instruction in digital classrooms to better understand and participate in Blake's world. The book also includes a consideration of Blakean motifs that have created artistic networks in music, literature, and film in the twentieth and the twenty-first centuries, showing how Blake is an ideal exemplar for understanding creativity in the digital age.

The acclaimed science writer -curates a visually striking, riotously colorful photographic display-of physical patterns in the natural world- (Publishers Weekly, starred review). Though at first glance the natural world may appear overwhelming in its diversity and complexity, there are regularities running through it, from the hexagons of a honeycomb to the spirals of a seashell and the branching veins of a leaf. Revealing the order at the foundation of the seemingly chaotic natural world, *Patterns in Nature* explores not only the math and science but also the beauty and artistry behind nature's awe-inspiring designs. Unlike the patterns we create, natural patterns are formed spontaneously from the forces that act in the physical world. Very often the same types of pattern and form-such as spirals, stripes, branches, and fractals-recur in places that seem to have nothing in common, as when the markings of a zebra mimic the ripples in windblown sand. But many of these patterns can be described using the same mathematical and physical principles, giving a surprising unity to the kaleidoscope of the natural world. Richly illustrated with 250 color photographs and anchored by accessible and insightful chapters by esteemed science writer Philip Ball, *Patterns in Nature* reveals the organization at work in vast and ancient forests, powerful rivers, massing clouds, and coastlines carved out by the sea. By exploring similarities such as the branches of a tree and those of a river network, this spectacular visual tour conveys the wonder, beauty, and richness of natural pattern formation.

Thy Fearful Symmetry

Language, Literature and the Learner is an edited volume evolving from three international seminars devoted to the teaching of literature in a second or foreign language. The seminars explicitly addressed the interface between language and literature teaching to investigate the ways in which literature can be used as a resource for language growth at secondary, intermediate and upper-intermediate level. This book presents the reader with a practical classroom-based guide to how the teaching of language and literature, until recently seen as two distinct subjects within the English curriculum, can be used as mutually supportive resources within the classroom. Through essays and case studies it reports on the most recent developments in classroom

practice and methodology and suggests ways in which the curriculum could be reshaped to take advantage of this integrated approach. The text will be essential reading for students undertaking PGCE, TESOL/MA, UCLES, CTEFLA, RSA and Teachers' Diploma courses worldwide. Students of applied linguistics, those on stylistics courses and undergraduates studying English language will welcome it as accessible supplementary reading. Intended for general readers and for students and scholars of poetry, Poetry as Survival is a complex and lucid analysis of the powerful role poetry can play in confronting, surviving, and transcending pain and suffering. Gregory Orr draws from a generous array of sources. He weaves discussions of work by Keats, Dickinson, and Whitman with quotes from three-thousand-year-old Egyptian poems, Inuit songs, and Japanese love poems to show that writing personal lyric has helped poets throughout history to process emotional and experiential turmoil, from individual stress to collective grief. More specifically, he considers how the acts of writing, reading, and listening to lyric bring ordering powers to the chaos that surrounds us. Moving into more contemporary work, Orr looks at the poetry of Sylvia Plath, Stanley Kunitz, and Theodore Roethke, poets who relied on their own work to get through painful psychological experiences. As a poet who has experienced considerable trauma--especially as a child--Orr refers to the damaging experiences of his past and to the role poetry played in his ability to recover and survive. His personal narrative makes all the more poignant and vivid Orr's claims for lyric poetry's power as a tool for healing. Poetry as Survival is a memorable and inspiring introduction to lyric poetry's capacity to help us find safety and comfort in a threatening world.

A fifty percent revision of a popular Complete Idiot's Guide that now, more than ever, offers readers a thorough, creative writing class in a book, with Dr. Laurie Rozakis as their teacher. The book is refocused to more of an academic approach. Readers can begin to unlock their creativity from the first page, with fabulous exercises that help them explore their talents and experiment with different genres and forms of writing, including:

- Short stories
- Narrative nonfiction
- Memoirs
- Magazine articles
- Poetry
- Drama
- Blogging and freewriting

About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

This compact anthology—the second volume in Margaret L. King's masterful introduction to the Western literary tradition—offers, in whole or in part, eighty key literary works of the eighteenth, nineteenth, and twentieth centuries. The texts provided here represent an unusually broad array of languages and traditions, ranging across a variety of genres such as verse, drama, philosophy, short- and long-form fiction, and non-fiction (including autobiography, speech, journalism, and essay). This second volume shares with the first a focus on works by women; numerous texts by Latin American writers are included here as well. King's clear, engaging introductions and notes support an informed reading of the texts while extending students' knowledge of particular authors and problems of interest. The Western Literary Tradition's modest length and cost allow for the use of full-length works—many of which are available in Hackett Publishing's own well-regarded and inexpensive translations and editions—alongside the anthology without adding undue cost to a student's total textbook fees.

How to Begin Studying English Literature has established itself as one of the most successful and popular introductory student guides in the field. This fourth edition has been fully revised and expanded throughout, and now includes more examples and commentary on texts as well as a third essay-writing chapter, tackling critics and context. This book shows the reader how to approach novels, plays and poems, featuring chapters on themes, characters, structure, style, irony and analysis. In addition, sections on revision, exams and further development of study skills make this book an invaluable companion for anyone beginning to study English literature.

Rethinking Milton's "Paradise Lost", William Blake examines 'innocence' and 'experience' in this beautiful collection. "Poems of William Blake" combines three classic books of his essential poetry. In "The Book of Thel", Blake tells the story of Thel who wanders from her home in the Vales of Har to the underground realm of the dead. In the deceptively simple and lyrical "Songs of Innocence" and its counterpoint "Songs of Experience", Blake further explores this dichotomy, juxtaposing poems such as "The Lamb" and "The Tyger", and "The Blossom" and "The Sick Rose". William Blake (1757-1827) was an English poet, painter and printmaker, largely unrecognized in his own lifetime, but now widely acclaimed as a major figure in the history of the poetry and art of the Romantic Age. His major works include "Songs of Innocence", "Songs of Experience", "The Book of Thel", and "Milton: A Poem"

On the Threshold between the Aesthetic and the Religious

The Complete Idiot's Guide to Creative Writing

In the Forests of the Night

Jonathan Swift to George Orwell

Toward a Hermeneutics of Culture

Aestheticism, Evil, Homosexuality, and Hannibal

"In this unparalleled study of the forms of Hebrew poetry, preeminent authority Benjamin Harshav examines Hebrew verse during three millennia of changing historical and cultural contexts. He takes us around the world of the Jewish diaspora, comparing the changes in Hebrew verse as it came into contact with the Canaanite, Greek, Arabic, Italian, German, Russian, Yiddish, and English poetic forms. Harshav explores the types and constraints of free rhythms, the meanings of sound patterns, the historical and linguistic frameworks that produced the first accentual iambs in English, German, Russian, and Hebrew, and the first discovery of these iambs in a Yiddish romance written in Venice in 1508/09. In each chapter, the author presents an innovative analytical theory on a particular poetic domain, drawing on his close study of thousands of Hebrew poems"--

In this book, writers from a range of academic disciplines examine a wide variety of text and discourse: from everyday conversation to the literary canon.

Another brilliant, original and moving novel from the author of *The Time Traveler's Wife*. Julia and Valentina Poole are normal American teenagers — normal, at least, for identical “mirror” twins who have no interest in college or jobs or possibly anything outside their cozy suburban home. But everything changes when they receive notice that an aunt whom they didn't know existed has died and left them her amazing flat in a building by Highgate Cemetery in London. They feel that at last their own lives can begin ... but they have no idea that they've been summoned into a tangle of fraying lives, from the OCD-suffering crossword setter who lives above them to their aunt's mysterious and elusive lover who lives below them, and even to their aunt herself, who never got over her estrangement from the mother of the girls — her own twin — and who can't even seem to quite leave her flat....

This text, edited with notes by Sir Geoffrey Keynes, was first published in 1957 to mark the bicentenary of Blake's birth. It is now reprinted in an improved form with corrections, and with additions derived from further readings of deleted words and passages introduced without change of line or page numbering. This text contains almost all Blake's substantive variants. A small amount of new material is added in a supplement, including some notes in Blake's hand (c. 1819) recently found in a sketchbook used by John Varley. -- From publisher's description.

Unreading William Blake's Marginalia

A Novel

C. G. Jung has been and continues to be a pervasive yet often unacknowledged presence in twentieth-century art and intellectual life. This timely volume is the first comprehensive attempt to assess this presence and to demonstrate Jung's far-reaching cultural impact. The distinguished contributors represent a number of views, from traditional Jungian to the most contemporary post-Jungian stances, including feminist, non-Jungian, and anti-Jungian positions. Jung, as seen in this volume, addresses a wide range of contemporary issues related to creativity, gender, religion, popular culture, and hermeneutics. The essays reveal dimensions of his work that extend far beyond psychoanalytical theory and that show his hermeneutics to be a much more subtle and sophisticated methodology than previously allowed by his critics. This methodology appears, in fact, to have anticipated significant aspects of contemporary critical principles and practice. The contributors to the volume were among the participants in a major international conference sponsored by Hofstra University and the C. G. Jung Foundation of New York, held in 1986 at Hofstra University. They include Thomas Belmonte, Robert Bly, Joseph Campbell, Edward S. Casey, Stanley Diamond, Jean Erdman, Leslie Fiedler, James Hillman, Paul Kugler, Ibram Lassaw, Neil Levine, David L. Miller, Lucio Pozzi, Gilles Quispel, Robert Richenburg, Carol Schreier Rupprecht, Andrew Samuels, Harold Schechter, and June Singer. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

An engaging exploration of beauty in physics, with a foreword by Nobel Prize-winning physicist Roger Penrose The concept of symmetry has widespread manifestations and many diverse applications—from architecture to mathematics to science. Yet, as twentieth-century physics has revealed, symmetry has a special, central role in nature, one that is occasionally and enigmatically violated. *Fearful Symmetry* brings the incredible discoveries of the juxtaposition of symmetry and asymmetry in contemporary physics within everyone's grasp. A. Zee, a distinguished physicist and skillful expositor, tells the exciting story of how contemporary theoretical physicists are following Einstein in their search for the beauty and simplicity of Nature. Animated by a sense of reverence and whimsy, *Fearful Symmetry* describes the majestic sweep and accomplishments of twentieth-century physics—one of the greatest chapters in the intellectual history of humankind.
