As a successful young urbanite, Bridget Fox experiences the typical joys and struggles of youthful New Yorkers, and she has happy expectations for her new family. But when her daughter Maeve is diagnosed with autism, Bridget’s life as a young professional and mother of two images of the perfect family are shattered. She tries to lean on her husband, her father, her best friend, but none can help her reconstruct her world as other tragic challenges begin to surface. But as she tries to choose between insanity and sanity, she realizes that matters are not nearly so simple-or so hopeless-as she once believed. Elizabeth Burns weaves the beauty and imagery of her poetic voice into a story of pain, humor, struggle and ultimate redemption. Bravely intimate, astonishing in its scope, this is a novel that most "normal" novels fear to tread as it follows the journey of a woman desperate enough to fall-and strong enough to survive.

Offers a richly illustrated portait of sisters Claribel and Etta Cone, who used the fortune of their German-Jewish immigrant family to amass one of America's finest collections of twentieth-century art, describing their experiences in early 20th-century New York and the avant-garde art movement of the era.

Finalist for the National Jewish Book Award (History) Named one of the Best Books of the Year by the Economist and the East Hampton Star Shortlisted for the Mark Lynton History Prize Separating historical fact from fantasy, an acclaimed novel about the 1903 Kishinev story of Kishinev, a riot that transformed the course of twentieth-century Jewish history. So shattering were the aftereffects of Kishinev, the rampage that broke out in late-Tsarist Russia in April 1903, that one historian remarked that it was "the prototype for the Holocaust itself." In three days of violence, 49 Jews were killed and 600 raped or wounded, while more than 1,000 Jewish-owned houses and stores were ransacked and destroyed. Recounted in lurid detail by newspaper and magazine, the story was popularized by the world, and covered sensationally by America's Hearst press, the pre-Easter attacks seized the imagination of an international public, quickly becoming the prototype for what would become known as a "pogrom," and providing the impetus for the Protocols of the Elders of Zion and the NAACP. Using new evidence culled from Russia, Israel, and Europe, distinguished historian Steven J. Zipperstein's wide-ranging book brings historical insight and clarity to a much-misunderstood event and offers a new way to transform twentieth-century Jewish life and beyond.

Blurbs Tilt & Jonah TILT Two men on a journey of basic survival. A world shattered by a tsunami that literally tipped the continental shelf of the United States, drowning one coast and shattering the other. In a world devastated by natural disaster, two men survive, two men contemplate the reasons behind the disaster, the barbarism of formerly civilized people, and the existence of God. When they find a safe haven, it could shatter their friendship and destroy a partnership that has been built on trust. Who can be trusted, when nothing is what it used to be, or what it seems? JONAH In Russia, two U.S. citizens, stranded by the devastation of their homeland, struggle to survive. Among the increasing hostility of the police state and the pressure of the KGB, they forge a friendship, then a partnership, and perhaps something more. When a simple mistake in record-keeping reveals secret information, their lives are turned upside down by the suspicion and paranoia of those around them. A move from the city into a flight to the coast. When those who help them are threatened, the only solution is the one offered by Jonah -- and they are cast into the icy waters of the sea.

An in-depth, full-color, step-by-step guide to the new golf swing that has taken the PGA Tour by storm The traditional golf swing requires a level of coordination that few golfers have. So it's no surprise that, despite huge advances in club and ball technology, the average golf handicap in America has dropped by only one stroke since 1990. Maverick golf instructors Michael Bennett and Andy Plummer spent a decade researching the swing, eventually combining physiology and physics to create a method they dubbed the "Stack and Tilt." The result? Big-name pros like Mike Weir, Tommy Armour III, and Aaron Baddeley are already converts, and Bennett and Plummer are now two of the most soughtafter swing coaches in the game. Making these breakthroughs available to everyone, The Stack and Tilt Swing is a handsome, fully illustrated, complete course, packed with more than two hundred full-color photographs that make it easy for golfers at all levels to adopt this radical yet simple approach. Analyzing why the traditional swing won't work for most golfers, the authors explain the importance of keeping the upper body stacked over the lower body, while the spine tilts toward the target during the backswing, greatly reducing the inconsistencies created by the old-fashioned approach. Enhanced with practice routines, a troubleshooting list, test cases, and point-by-point assistance, this is the breakthrough guide to golf's hot new secret weapon.

Shift your strategy downstream. Why do your customers buy from you rather than from your competitors? If you think the answer is your superior products, think again. Products are important, of course. For decades, businesses sought competitive advantage almost exclusively in activities related to new product creation. They won by building bigger factories, by finding cheaper raw materials or labor, or by coming up with more efficient ways to move and store inventory--and by inventing exciting new products that competitors could not replicate. But these sources of competitive advantage are being irreversibly leveled by globalization and technology. Today, competitors can rapidly decipher and deploy the recipe for your product’s secret sauce and use it against you. “Upstream,” product-related advantages are rapidly eroding. This does not mean that competitive advantage is a thing of the past. Rather, its center has shifted. As marketing professor Niraj Dawar compellingly argues, advantage is now found “downstream,” where companies interact with customers in the marketplace. Tilt will help you grasp the global nature of this downstream shift and its profound implications for your strategy and your organization. With vivid examples from around the world, ranging across industries and sectors, Dawar shows how companies are reorienting their strategies around customer interactions to create and capture unique value. And he demonstrates how, unlike product-related advantage, this value is cumulative, continuously building over time. In an increasingly customer-centered world marketplace, let Tilt serve as your guide to shifting your strategy downstream--and achieving enduring competitive advantage.

Raising an Exceptional Child in a Conventional World

Every Family Spins on Its Own Axis ; a Novel

The History of Pinball in Portland

Today millions of kids are stuck in a world that doesn't respect, support, or embrace who they really are--these are what Deborah Reber is calling the "differently wired" kids, the one in five children with ADHD, dyslexia, Asperger's, giftedness, anxiety, sensory processing disorder, and other neurodifferences. Their challenges are many. But for the parents who love them, the challenges are just as hard--struggling to find the right school, the right therapist, the right parenting group while feeling isolated and harboring endless internal doubts about what's normal, what's not, and how to handle it all. But now there's hope. Written by Deborah Reber, a bestselling author and mother in the midst of an eye-opening journey with her son who is twice exceptional (he has ADHD, Asperger's, and is highly gifted), Differently Wired is a how-to, a manifesto, a book of wise advice, and the best kind of been-there, done-that companion. On the one hand it's a book of saying NO, and how it's time to say no to trying to fit your round-peg kid into society's square holes, no to educational and social systems that don't respect your child, no to the anxiety and fear that keep parents stuck. And then it's a book of YES. By offering 18 paradigm shifts--what she calls "tilts"-- Reber shows how to change everything. How to "Get Out of Isolation and Connect." "Stop Fighting Who Your Child Is and Lean In." "Let Go of What Others Think." "Create a World Where Your Child Can Feel Secure." "Find Your People (and Ditch the Rest)." "Help Your Kids Embrace Self-Discovery." And through these alternative ways of being, discover how to stay open, pay attention, and become an exceptional parent to your exceptional child.

Love--good and bad--forces three teens' worlds to tilt in a riveting standalone novel from #1 New York Times bestselling author Ellen Hopkins. Three teens, three stories--all interconnected through their parents' family relationships. As the adults pull away, caught up in their own dilemmas, the worlds of the teens begin to tilt. Mikayla, almost eighteen, is over-the-top in love with Dylan, who loves her back jealously. But what happens to that love when Mikayla gets pregnant the summer before their senior year and decides to keep the baby? Shane turns sixteen that same summer and falls hard in love with his first boyfriend, Alex, who happens to be HIV positive. Shane has lived for four years with his little sister's impending death. Can he accept Alex's love, knowing his life, too, will be shortened? Harley is fourteen--a good girl searching for new experiences, especially love from an older boy. She never expects to hurdle toward self-destructive extremes in order to define who she is and who she wants to be. Love, in all its forms, has crucial consequences in this wrenching story from Ellen Hopkins.

Full of roller-coaster twists and turns, Neal Shusterman's page-turner is an Orpheus-like adventure into one boy's psyche. Sixteen-year-old Blake and his younger brother, Quinn, are exact opposites. Blake is the responsible member of the family. He constantly has to keep an eye on the fearless Quinn, whose thrill-seeking sometimes goes too far. But the stakes get higher when Blake has to chase Quinn into a bizarre phantom carnival that traps its customers forever. In order to escape, Blake must survive seven deadly rides by dawn, each of which represents a deep, personal fear--from a carousel of stampeding animals to a hall of mirrors that changes people into their deformed reflections. Blake ultimately has to face up to a horrible secret from his own past to save himself and his brother--that is, if the carnival doesn't claim their souls first!

Three female friends face midlife crises in a no-holds-barred exploration of sex, marriage, and the fragility of life.

In Tilt: Finding Christ in Culture, Brian Nixon takes the reader on a voyage of discovery, traveling the currents of God’s presence in culture, summed up in four streams that define a noun: people, places, things, and ideas. In his journey, Nixon touches upon people as diverse as Andy Warhol, Cormac McCarthy, Robert Redford, and Georgia O’Keeffe; places such as Canterbury, England, and Las Vegas, Nevada; things as unique as typewriters, trains, and abstract art; and ideas as fascinating as mathematics and beauty. In these short impressionistic pieces, Nixon, with the curiosity of a journalist, elicits intelligent discussion and poetic articulations, prompting a head tilt from those who join him on a theo-cultural expedition.

Pogrom: Kishinev and the Tilt of History

"I would love you forever, if I only had the chance..." Kacey Dawson has always lived life on the edge--impulsively, sometimes recklessly. And now, as lead guitarist for a hot up-and-coming band, she is poised at the brink of fame and fortune. But she is torn between wanting to be a serious musician, and the demons that lure her down the glittering, but alcohol-soaked path of rock stardom. A wrecked concert in Las Vegas threatens to ruin her career entirely. She wakes up with the hangover from hell and no memory of the night before, or how she ended up on her limo driver's couch... Jonah Fletcher is running out of time. He knows his situation is hopeless, and he's vowed to make the most of the handful of months he has left to him. His plans include seeing the opening of his glass installation at a prestigious art gallery...they do not include falling in love with a wild, tempestuous rock musician who wound up passed out on his couch. Jonah sees that Kacey is on a path to self-destruction. He lets her crash with him for a few days to dry out and get her head on straight. But neither of them expected the deep connection they felt, or how that connection could grow so fast from friendship into something more. Something deep and pure and life-changing...something as fragile as glass, that they both know will shatter in the end no matter how hard they try to hold on to it. Full Tilt is a story about what it means to love with your whole heart, to sacrifice, to experience terrible grief and soaring joy. To live life with all its beauty, and all its pain, and in the end to be able to smile through tears and know you wouldn't have changed a thing. ***FIRST BOOK IN A TWO PART DUET*** All In (Full Tilt #2) forthcoming...

The Tilt Torn Away from the Seasons imagines a human mission to Mars, a consequence of Earth's devastation from climate change and natural disaster. As humans begin to colonize the planet, history inevitably repeats itself. Dystopian and ecopoetic, this collection of poetry examines the impulse and danger of the colonial mindset, and the ways that gendered violence and ecological destruction, body and land, are linked. "This time we'll form more carefully," one voice hopes in "Ecopoiesis: The Terraforming." "We've started on empty / plains. We'll vaccinate. We'll make the new deal fair." But the new planet becomes a canvas on which the trespasses of the American Frontier are rehearsed and remade. Featuring a multiplicity of narratives and voices, this book presents the reader with sonnet crowns, application forms, and large-scale landscape poems that seem to float across the field of the page. With these unusual forms, Rogers also reminds us of previous exploitations on our own planet: industrial pollution in rural China, Marco Polo's racist accounts of the Batak people in Indonesia, and natural disasters that result in displaced refugees. Striking, thought-provoking, and necessary, The Tilt Torn Away from the Seasons offers a new parable for our modern times.

Drawing on his experiences touring the Western states for two years, in which he provoked conversations with Westerners of all stripes, a journalist examines the results of the westward migration across America in the decades after World War II, profiling the lifestyles and culture of eleven states.

There isn't much sun in the fun when a billionaire real estate tycoon is found murdered on the Tilt-A-Whirl at a seedy seaside amusement park in the otherwise quiet summer tourist town of Sea Haven. John Ceepak, a former MP just back from Iraq, has just joined the Sea Haven police department. The job offer came from an old army buddy who hoped to give Ceepak at least a summer's worth of rest and relaxation to help him forget the horrors of war. Instead, Ceepak will head up the murder investigation. He is partnered with Danny Boyle, a 24-year-old part-time summer cop who doesn't carry a gun and only works with the police by day so he has enough pocket money left over to play with his beach buddies at night. In the first novel in a new series written in the spirit of Carl Hiaasen's work, the Tilt-A-Whirl murder pushes Ceepak's deep sense of honor and integrity to the limits, as unexpected twists and turns keep the truth spinning wildly in every direction.

An alternative to existing bipolar choices, this book looks at individuals and their distances from the self (individuation-deindividuation) and from others (attachment-detachment). Simultaneously theoretical, empirical, and applied, this book can be reasonably applied to all types of individuals involved in interpersonal situations regardless of culture, age, gender, or sexual orientations. Broken into four parts, In the first part, Definitions and Measurements, the author includes an introduction to the Individuation-Attachment Questionnaire. Implications of TILT for Individuals is the basis for part two and includes a view of TILT across the life span. The next section extends the analysis to TILT for Couples and Families. The clinician, counselors, and individuals attempting to help himself/herself are addressed in the final part: TILT for the Clinician and includes application of TILT to everyday life. The text brings to life, through extensive description, the questions and situations consistently raised in couples therapy: space-too much or not enough. TILT: Teaching Individuals To Live Together presents a unique model of individuation and attachment and was developed to facilitate the understanding of the complex relationship between these two developmental processes across the life span. The model shows how we gradually develop our boundaries and hence reduce the need for defensive interpersonal walls. The TILT Model has applications in the fields of therapy, education, and organizational development. Thus, it will be of interest to mental health professionals including psychotherapists, psychologists,

counselors, social workers, and marriage and family therapists. Practitioners of transactional analysis will find this book of supreme interest and usefulness.

One of the indisputable Wonders of the World, its listing silhouette is instantly recognizable the world over. Now Nicholas Shrady tells the story of the Leaning Tower of Pisa, from its curse-ridden beginnings - construction was halted for a century after the erection of the first four stories in 1173 - through earthquakes, world wars, the onslaught of modern tourism, and a \$30 million stabilization and restoration. This singular monument stands (five degrees askew) in defiance of logic, gravity, and soaring odds - a mute witness to almost a millennium of history.

Praised by Jack Gantos, author of *Dead End in Norvelt*, as "a quick read with a kick at the finish," this debut novel sensitively and memorably captures a teen runner's relationship with his autistic older brother. Like most siblings, Leo and Caleb have a complicated relationship. But Caleb's violent outbursts literally send Leo running. When the family is forced to relocate due to Caleb's uncontrollable behavior, Leo tries to settle into a new school, joining the cross-country team and discovering his talent for racing and endurance for distance. Things even begin to look up for Leo when he befriends Curtis, a potential state champion who teaches Leo strategy and introduces him to would-be girlfriend, Mary. But Leo's stability is short-lived as Caleb escalates his attacks on his brother, resentful of his sport successes and new friendships. Leo can't keep running away from his problems. But, with a little help from Curtis and Mary, he can appreciate his worth as a brother and his own capacity for growth, both on and off the field. Praise from Jack Gantos, author of *Dead End in Norvelt*, *Hole in My Life* and *The Trouble With Me*: "Currinder's novel, *Running Full Tilt*, is a fast-paced convincing drama of a young runner whose legs circle him back to the many conflicts he is trying to escape--but he can't outrun himself. A quick read with a kick at the finish." Praise from Paul Volponi, author of *The Final Four*, *Black and White*, and *Rikers High*: "We feel the inner strength it takes to compete on every page of this splendid narrative, until, as readers, we are running as well--engrossed, and loving every step of the journey."
