contributors
investigate the

The book integrates power electronics and electrical drives with artificial neural networks (ANN).

Organized into four parts, it first deals with voltage source inverters and their control. It then covers AC electrical drive control,

The book is about a village boy, who got rearing under the patronage of God-fearing mother and disciplinarian father, who was running a grocery shop in the nearby town.

Struggling with the least facilities in the village and later in the

nearby town, the boy could become lecturer in a degree college.

Though he lost his job, the young boy was determined not to give up and succeeded in getting job in

NCERT- The National level body. The book has many interesting innovations in education that are
