One day when Jesus was teaching, “the power of the Lord was present for Him to heal the sick” (Luke 5:17). His same power is present in every believer today. Drawing from her experience as a worldwide healing ministry, Joan Hunter desires to help equip the church to receive and to minister God’s miraculous healing in the four corners of the world. Many believers want to understand: How can I receive and retain healing? Why would God use me? What’s the best way to approach someone who needs healing? How can I effectively pray for healing? The answers to these and other questions—plus practical guidance and examples—are designed to help believers fulfill the Great Commission: “Go into all the world, and preach the gospel to every creature... lay hands on the sick, and they shall recover....”(Mark 16:15, 18b).

One hundred pages of lifesaving advice for people out of work. When over ten million people have needed help with their job-hunt—or with figuring out what to do with their life—there is one person they have turned to, more than any other. He is Richard N. Bolles, author of the #1 job-hunting book of all time, What Color Is Your Parachute? His name is well-known around the world. Just during the last twelve months, he has appeared in Time (“10 Ideas Changing the World Right Now,” March 2009), U.S. News & World Report (deemed “savior of the nation’s unemployed,” October 2008), NBC’s Today Show (broadcast in April 2009), and many other publications and shows. His book was the #1 best-seller on BusinessWeek’s paperback list as recently as last November. Never has his advice been more sought than during these brutal economic times. He has responded by writing a completely new book: The Job-Hunter’s Survival Guide, designed particularly for people who are hanging on the ropes, who haven’t time to do a lot of reading but need help desperately—and now. Early reviews have called this little Guide “brilliant” and “tremendously helpful.”

“This book reminds us that hunting provides sustenance for both body and soul, and that mindful eating requires both respect and gratitude.”—Tovar Cerulli, author of The Mindful Carnivore Wild meat, hunted in a responsible way, is one of the most healthful, sustainable foods possible. Depending on how it is done, hunting can be as local, intimate and humane as it gets. And aside from this, it demands the hunter enter a world of awareness, wildness, life and death that as a culture we have lost connection to. The Compassionate Hunter’s Guidebook is for those who come to the act of hunting with pure intentions, motivated by a desire for healthy food that comes directly from the land where they live. This practical manual suggests that hunting is not a “sport” and the animals whose lives are taken are not “game.” It combines a deep, philosophical exploration of the ethics of killing with detailed instructions on every step of the process including: Understanding your prey Tools, techniques and preparation The act of the hunt From forest to table—processing, preserving and preparing your kill. A unique and comprehensive, fully-illustrated guide to the complexity, ethics and spirit of the hunt, The Compassionate Hunter is a must-read for beginning and experienced hunters alike. It will appeal to anyone who wishes to delve more deeply into the complex, humbling and ultimately profound reality of our relationship with the food that nourishes us. “Arguably the food that most closely approximates our nutritional needs, wild game assumes a sacred and satiating beauty in The Compassionate Hunter.”—Joel Salatin, farmer and author of Pastured Poultry Profits

A provocative exploration of the tension between our evolutionary history and our modern woes—and what we can do about it. We are living through the most prosperous age in all of human history, yet we are listless, divided, and miserable. Wealth and comfort are unparalleled, but our political landscape is unmoored, and rates of suicide, loneliness, and chronic illness continue to skyrocket. How do we explain the gap between these truths? And how should we respond? For evolutionary biologists Heather Heying and Bret Weinstein, the cause of our troubles is clear: the accelerating rate of change in the modern world has outstripped the capacity of our brains and bodies to adapt. We evolved to live in clans, but today many people don’t even know their neighbors’ names. In our haste to discard outdated gender roles, we increasingly deny the flesh-and-blood realities of sex—and its ancient roots. The cognitive dissonance spawned by trying to live in a society we are not built for is killing us. In this book, Heying and Weinstein draw on decades of their work teaching in college classrooms and exploring Earth’s most biodiverse ecosystems to confront today’s pressing social ills—from widespread sleep deprivation and dangerous diets to damaging parenting styles and backward education practices. Asking the questions many modern people are afraid to ask, A Hunter-Gatherer’s Guide to the 21st Century outlines a science-based worldview that will empower you to live a better, wiser life.

"Investigative Journalism means the unveiling of matters that are concealed either deliberately by someone in a position of power, or accidentally, behind a chaotic mass of facts and circumstances - and the analysis and exposure of all relevant facts to the public. In this way investigative journalism crucially contributes to freedom of expression and freedom of information, which are at the heart of UNESCO's mandate. The role media can play as a watchdog is indispensable for democracy and it is for this reason that UNESCO fully supports initiatives to strengthen investigative journalism throughout the world. I believe this publication makes a significant contribution to promoting investigative journalism and I hope it will be a valuable resource for journalists and media professionals, as well as for journalism trainers and educators." -- Jānis Kārklīnš, Assistant Director-General for Communication and Information, UNESCO, Preface, page 1.

The one-stop-shop for prospective handgun buyers. The market for new handguns is expanding rapidly, and that's good news for consumers. Each year more and more new models break cover and there has never been a better time to be in the market for a new handgun, whether you're a recreational shooter, a concealed carry permit holder, a hunter or a serious competitive shooter. Today's handguns offer superb machining and utilize some of the most technologically-advanced alloys, polymers and finishes to help make the current crop of handguns lightweight, accurate, durable, and affordable. This increase in product offerings stem from new interest in handguns, primarily as a result of nationwide issuance of concealed carry permits. As laws have been enacted that protect the rights of gun owners and defend our personal liberties, more and more new shooters are showing up on the range. But first-time shooters and new concealed carry permit holders are not the only segment of the handgun market that is seeing growth and interest. Pistol competitions have become more popular and more advanced, evolving from slow-fire matches at local gun clubs to modern IPSC, IDPA and 3-gun competitions. Handgun Buyer's Guide will help both the bewildered new shooter find their feet and purchase a handgun, find the best accessories, and locate a place to practice on hone their skills.
