

Tony Buzan The Speed Reading Book

#1 Speed Reading Book on Amazon for 2 Straight Years This book has quickly become the go to standard for rapidly improving reading speed. It offers simple tips to not only accelerate your reading, but comprehension and memory. Unlike other books that merely teach you to skim & scan, this book taps into your brain and eyes' amazing power to naturally read more words in a shorter time. Please Note There are a growing number of trolls and copycats on Amazon. They copy hard work of legitimate authors and post malicious reviews on their book to boost their own ranking. They don't take the time to understand a topic, only copy what others have written to make money. In fact, much of their content is taken directly from here as I've spent the last 15 years understanding how to optimize performance of the mind to enhance these areas & more. You will see that in the types of tips this book offers and how they are offered. In fact, it is the only speed reading book that presents practice drills at the end of every chapter, so by the time you get to the last page, you will have double or tripled your reading, learning, and memory of written information.

Learn how to read more quickly--and absorb more of the information you are reading--with Remember Everything You Read. For the first time the secrets that have made the completely revised Evelyn Wood learning program so effective and popular are revealed. Remember Everything You Read not only teaches you how to increase your reading speed--all the while improving your comprehension--it also features tips and tricks to improve your study habits, more effectively take notes, and write papers, among others. It will become an invaluable resource for students, parents, teachers, and anyone looking to read--and comprehend--in a faster, more efficient manner.

The potential of the human memory is phenomenal. But do you know how to make the most of yours? In this edition of the BBC classic Use Your Memory, the secrets of how to improve your memory are fascinatingly revealed by Tony Buzan. He teaches you how to improve your memory for names, numbers, dates and lists and also for speeches, articles, poetry and whole books. There are sections for card players, for people learning new languages and for those studying for exams, as well as an intriguing chapter on how to recall your dreams. Use Your Memory will: *Be particularly useful for school and university students throughout their studies, and especially during review and exam times *Be useful for business people and for those wishing to improve their brainpower as they advance in years. *Allow anyone to join the rapidly growing number of mental athletes who are preparing themselves for memory competitions and championships. All the classic memory systems are explained, plus, of course, Tony Buzan's own world-famous Mind Mapping technique. The former National Director of Education for Evelyn Wood Reading Dynamics. presents his do-it-yourself program for increasing reading speed and boosting comprehension. This program distills fundamental principles and skills that can be learned at home with the help of the drills and exercises provided. And because it lets readers choose their own materials and set their own pace, it's the ideal method for busy people juggling a full schedule.
