The ebook to the awesome XL paperback exercise book. Of course, this digital version can not replace the paperback. The numerous white pages are zhe paper pages in the original book, on which you can make your own drawings in the book. With the underlying contour template. We recommend purchasing the original as a pocketbook and using this ebook for the color information when coloring or to print additional contour sheets. However, you can also fix a normal paper sheet over the display of your mobile device and use the outline of the desired motif on the display as a pause template. Freehand drawing - made easy! Even in a digital world, freehand sketching is still a recipe for success for impressive works of art. It is your own hand that makes your art unique. Many people don't know their ability to draw. But even unpracticed line drawings can make for impressive images. It is actually the imperfection that turns your images into works of art. This exercise book makes you an artist! Tracing is a simple and proven method to learn freehand drawing. After your exercises in this book, you will also succeed without templates because you will have developed a sense of proportion and contours. The result: impressive drawings that you have made yourself, even on the first attempt. These are originals that you should even sign with your own name. It is your hand that has created this remarkable work of art. The beautiful motifs are what make each stroke of the pen or pencil pure joy. 132 pages. 20 unprinted pages for your originals. www.practice-drawing.com

This book constitutes the refereed post-conference proceedings of the Second EAI International Conference on Wearables in Healthcare, HealthWear 2020. Due to COVID-19 pandemic the conference was held virtually. The 16 revised full papers were carefully reviewed and selected from 40 submissions. They focus on wearable devices and systems for healthcare and wellbeing. The papers are organized in topical sections as follows: PPG and algorithms focusing on photoplethysmography, PPG monitoring and cardiorespiratory measurement. The next section focus on IoT and smart sensors on the use of wearable devices and systems for Internet of Medical Things application. The third section is a new session introducing wearable applications. This track focuses on the intrinsic multidisciplinary of wearable devices, and includes works on methodology and design aspect of wearable research.

Tough Love

This original study examines a vital but neglected aspect of the 1952 National Revolution in Bolivia; the activism of urban inhabitants. Many of these activists were Aymara-speaking people of indigenous origin who transformed the urban environment, politics and place of “indigenas” and “neighbors” within the city of La Paz. Luis Sierra traces how these urban residents faced racial discrimination and marginalization despite their political support for the Movimiento Nacionalista Revolucionario (MNR). La Paz's Colonial Specters reassesses the contingent, relational nature of Bolivia's racial categories and the artificial division between urban and rural activists. Building on rich established historiography on the indigenous people of Bolivia, Luis Sierra breaks new ground in showing the role of the neighborhoods in the process of urbanization, and builds upon analysis of the ways in which race, gender and class discourse shaped migrants interactions with other urban residents. Questioning how and why this multiclass and multi-ethnic group continued to be labelled by elites and the state as “un-modern” indigena, the author uses La Paz to demonstrate the ways in which race, class, and gender intertwine in urbanization and in conceptions of the city and nation. Of interest to scholars, researchers and advanced students of Latin American history, urban history, the history of activism and the history of ethnic conflict, this unique study covers the previously neglected first half of the 20th century to shed light on the urban development of La Paz and its racial and political divides.

Tough Love is hope. It is help. It is a way of recovery for drug abusers, and a positive, supportive program for their families. Tough Love is a gift of love and a gift of life for those who practice its plan. It is a book for all parents, especially those whose children are now on drugs or are exposed to those who use drugs. Pauline Neff has gathered enthralling, real-life accounts of young drug users who needed help and of their parents' role in seeing that they received it. Eight families describe, in very graphic, heartrending terms, how their children successfully beat the drug habit through The Palmer Drug Abuse Program. PDAP is a privately financed twelve-step program, similar to the steps of AA. Ms. Neff explains each step to show how families can interpret and work through these steps in their own lives. Thousands of young people have found help through this method. Families have been reunited, and parents' own lives have been changed drastically in the process. If you are a parent of a young person in America today, Tough Love may be the most important book you will ever read. It may save your life.

Large Print Crosswords

Puzzles so good that they've earned the seal of approval from the NAVH (National Association for Visually Handicapped). Now, crossword lovers with less than perfect sight can enjoy their favorite pastime without the frustration of trying to read small-size clues and fill in tiny boxes. Each of these puzzles--125 in each book--take up two full pages, and have large word type and generously sized grids with easy-to-see numbering. It's a challenge for the brain, not the eyes, allowing solvers to focus on doing the puzzle, not trying to discern the words. And, of course, the well-constructed crosswords cover a diverse range of topics, avoid "crosswordese," and provide hours of fun. ABOUT THE NAVH: The National Association for Visually Handicapped is the only national health agency solely devoted to the "hard of seeing."

It's dedicated to the ideal that visual impairment need not lessen one's quality of life. The organization pioneered the development of an accepted standard for large print, and offers education, equipment, and 24-hour assistance to those with limited vision.
