*In the first third of the twentieth century, the publishing industry in the United Kingdom and the United States was marked by well-established and comfortable traditions pursued by family-dominated firms. The British trade was the preserve of self-satisfied men entirely certain of their superiority in the world of letters; their counterparts in North America were blissfully unaware of development and trends outside their borders. In this unique historical analysis, Richard Abel and Gordon Graham show how publishing evolved post-World War II to embrace a different, more culturally inclusive, vision.Unfortunately, even among the learned classes, only a handful clearly understood either the nature or the likely consequences of the mounting geopolitical tensions that gripped pre-war Europe. The world was largely caught up in the ill-informed and unexamined but widely held smug and shallow belief that the huge price paid in “the war to end all wars” had purchased perpetual peace, a peace to be maintained by the numerous, post-war high-minded treaties ceremoniously signed thereafter.The history presented here has as its principals a handful of those who fled to the Anglo-Saxon shores in the pre-World War II era. The remainder made their way to Britain and the United States following that war. They brought an entirely new vision of and energetic pursuit of the cultural role of the book and journal in a society, a vision which was quickly adopted and naturalized by a perspicacious band of post-war native-born book people.*

*Finalist for the National Book Award for Nonfiction \* New York Times Bestseller \* Starred Booklist and Library Journal Editors’ Spring Pick \* A Huffington Post Notable Nonfiction Book of the Year \* One of the Best Books of the Month on Goodreads \* Library Journal Best Sci-Tech Book of the Year \* An American Library Association Notable Book of the Year “Sy Montgomery’s The Soul of an Octopus does for the creature what Helen Macdonald’s H Is for Hawk did for raptors.” —New Statesman, UK “One of the best science books of the year.” —Science Friday, NPR Another New York Times bestseller from the author of The Good Good Pig, this “fascinating...touching...informative...entertaining” (The Daily Beast) book explores the emotional and physical world of the octopus—a surprisingly complex, intelligent, and spirited creature—and the remarkable connections it makes with humans. In pursuit of the wild, solitary, predatory octopus, popular naturalist Sy Montgomery has practiced true immersion journalism. From New England aquarium tanks to the reefs of French Polynesia and the Gulf of Mexico, she has befriended octopuses with strikingly different personalities—gentle Athena, assertive Octavia, curious Kall, and joyful Karma. Each creature shows her cleverness in myriad ways: escaping enclosures like an orangutan; jetting water to bounce balls; and endlessly tricking companions with multiple “sleights of hand” to get food. Scientists have only recently accepted the intelligence of dogs, birds, and chimpanzees but now are watching octopuses solve problems and are trying to decipher the meaning of the animal’s color-changing techniques. With her “joyful passion for these intelligent and fascinating creatures” (Library Journal Editors’ Spring Pick), Montgomery chronicles the growing appreciation of this mollusk as she tells a unique love story. By turns funny, entertaining, touching, and profound, The Soul of an Octopus reveals what octopuses can teach us about the meeting of two very different minds.*

*Smeared by cheap innuendo and false accusations alleging he is responsible for having allowed a bomb aboard Pan Am 103, Micheal T. Hurley, career law enforcement veteran, faces a dilemma as real as his lifetime savings: bet everything that truth would win out in a court of law or just surrender to that which he knows to be wrong. Succumb or fight? Capitulate or resist? I Solemnly Swear captures his answer to that dilemma and presents a diverse group of heroes and traitors, lawmen and outlaws, the innocent and the guilty who bounce between Seattle, Lamaea, London, Washington, DC, Frankfurt, and Fort Lauderdale. In an international game of cat and mouse, Hurley spends his last three years as a DEA Supervisory Special Agent being jerked around by a media that is all too willing to criticize the US Government and to mar Hurley's reputation as a competent international narcotics agent. *Long before sound became an essential part of motion pictures, Westerns were an established genre. The men and women who brought to life cowboys, cowgirls, villains, sidekicks, distressed damsels and outraged townspeople often continued with their film careers, finding success and fame well into the sound era—always knowing that it was in silent Westerns that their careers began. More than a thousand of these once-silent Western players are featured in this fully indexed encyclopedic work. Each entry includes a detailed biography, covering both personal and professional milestones and a complete Western filmography. A foreword is supplied by Diana Serra Cary (formerly the child star "Baby Peggy"), who performed with many of the actors herein.*

*An NPR Best Book of 2018! Some people can do their homework. Some people get to have crushes on boys. Some people have other things they've got to do. Seventh-grader Zoey has her hands full as she takes care of her much younger siblings after school every day while her mom works her shift at the pizza parlor. Not that her mom seems to appreciate it. At least there's Lenny, her mom's boyfriend—they all get to live in his nice, clean trailer. At school, Zoey tries to stay under the radar. Her only friend Fuchsia has her own issues, and since they're in an entirely different world than the rich kids, it's best if no one notices them. Zoey thinks how much easier everything would be if she were an octopus: eight arms to do eight things at once. Incredible camouflage ability and steady, unblinking vision. Powerful protective defenses. Unfortunately, she's not totally invisible, and one of her teachers forces her to join the debate club. Even though Zoey resists participating, debate ultimately leads her to see things in a new way: her mom's relationship with Lenny, Fuchsia's situation, and her own place in this town of people who think they're better than her. Can Zoey find the courage to speak up, even if it means risking the most stable home she's ever had? This moving debut novel explores the cultural divides around class and the gun debate through the eyes of one girl, living on the edges of society, trying to find her way forward.*

*If you're gonna box an octopus, best bring some extra arms At the height of tourist season, an armored car drives off a crowded pier and sinks to the bottom of San Francisco Bay. By the time divers find the wreck, the cash is gone and the driver has vanished. The police are convinced it's an inside job, but local merchant Vera Young, whose boyfriend drove the armored car, claims it was much more than a simple heist. Vera swears the missing driver is innocent and wants him found before the police can throw him in jail. Private investigator Cape Weathers reluctantly takes the case but warns Vera that her boyfriend is likely guilty-or dead. What starts as a manhunt uncovers a criminal conspiracy of money laundering, illegal drug testing, and a network of corporations willing to do anything to protect their stock price. It's a case that Cape can't get his arms around, and his relationship with Vera is getting complicated while the list of people who want him dead is getting longer. Boxing The Octopus is a runaway tour of San Francisco's underworld which reminds us that when things get out of hand, having eight arms is always better than two.*

*Hurley be likened to the Squid Cinema From Hell, while also speculating that digital media might themselves constitute a weird, intelligent alien. If this were not enough to shiver ye timbers, the book engages with contemporary discourses of posthumanism, speculative realism, object-oriented ontology and animal studies to suggest that humans are the products of media rather than media being the products of humans. Including case studies of films by Denis Villeneuve, Park Chan-wook and Celine Sciamma. The Squid Cinema From Hell also provides a daring engagement with various media beyond cinema, including literature, music videos, 4DX, advertising, websites, YouTube, Artificial Intelligence and more. Zounds! This unique and Lovecraftian book will change the way you think about, and with, our contemporary, media-saturated world. *From their heyday in the 1910s to their lingering demise in the 1950s, American film serials delivered excitement in weekly installments for millions of moviegoers, despite minuscule budgets, impossibly tight shooting schedules and the disdain of critics. Early heroines like Pearl White, Helen Holmes and Ruth Roland broke gender barriers and ruled the screen. Through both world wars, such serials as Spy Smasher and Batman were vehicles for propaganda. Smash hits like Flash Gordon and The Lone Ranger demonstrated the enduring mass appeal of the genre. Providing insight into early 20th-century American culture, this book analyzes four decades of productions from Pathe, Universal, Mascot and Columbia, along with all 66 Republic serials, including The Adventures of Superman and Mysterious Doctor Satan.*

*Shark and Octopus is a comic caper telling the story of Griffin Gilmore, whose unique profession is retrieving items of value without anyone realizing they were ever missing. Griffin's been hired to steal a key in a museum exhibit and replace it with a lookalike key. As he grabs the key Griffin fears he has set off the museum alarm, but all he hears is that sweet, sweet sound of silence. A man dressed entirely in white arrives and takes the key. Griffin can't let this go. He learns the key is to the dungeon of an Italian castle, but the dungeon is empty. Who is this man and why does he want that key? Helping Griffin are Kit Covington, his best friend since kindergarten and a top ten lister of everything; Bobby Lowell, aspiring actor with the skill for uncovering information through his roles; and Annie Knack, Grffin's girlfriend, calm where he is sarcastic. Griffin is brilliant but undisciplined; restraint is not in his skill set. He's persistent and above all loyal to his friends. Griffin discovers that a former member of the Nazi's Special Task Force for Music covered one wall in a house in Baltimore with a musical score. The notes are a clue. Griffin realizes, to what the man in white is after. A trap is set, with Griffin as the bait. *"A pleasant, chatty book on a fascinating subject." — Kirkus Reviews Octopuses have been captivating humans for as long as we have been catching them. Yet for all of our ancient fascination and modern research, we still have not been able to get a firm grasp on these enigmatic creatures. Katherine Harmon Courage dives into the mystifying underwater world of the octopus and reports on her research around the world. She reveals, for instance, that the oldest known octopus lived before the first dinosaurs; that two thirds of an octopus's brain capacity is spread throughout its arms, meaning each literally has a mind of its own; and that it can change colors within milliseconds to camouflage itself, yet appears to be colorblind.*
