(1550 Stephanus-2019 Mickelson), but interlined only with the English and Hebrew, and presented with Strong's numbers and the further use of the Mickelson Context Numbers, with enhanced punctuation and simple morphology. This "reconciliation" Hebrew Scripture translation is unveiling the expressions of biblical Hebraic-Koine Greek using a special dialect of Hebrew, alongside an extremely precise English translation of the Hebraic-Koine Greek with enhanced grammar and punctuation. The MCT Brit Chadashah is being hand-translated into a more precise and readable Hebrew dialect that preserves the distinct concepts and contextual meanings used in the New Testament. This translation is carefully interweaving biblical patterns of speech and communication. The companion Hebrew and Greek dictionaries also help the student move beyond the traditional limitations of New Testament (NT) translation. These dictionaries reconcile biblical Hebrew (and English) vocabulary with the original biblical Hebraic-Koine Greek vocabulary of the NT in order to assure the highest degree of conceptual integrity, while increasing Hebrew word consistency with the Greek text itself. The benefit is a more accurate presentation and correlation of biblical thoughts, concepts, and instructions. The Literary Reading Order arranges the books of the New Testament for optimal reading and correlation according to the literary patterns discerned in the Old and New Testament Scriptures. The Book of

John is placed first in this order. It immediately identifies the True Author of life, creation and the Scriptures. It begins with the signature of God as presented in the book of Genesis. A Prelude from the Old Testament, the first three chapters of Genesis, is included. The Promise contained herein is Redemption unto Eternal Life for the ones trusting upon the Good News and specifically upon the Name of the Anointed-One, first to the Jew, and also to the Gentile.

The mechanical method of translating the Bible is a new and unique style of translating that translates each Hebrew word, prefix and suffix exactly the same way every time it occurs and in the same order as they appear in the Hebrew text. This translation will allow a reader, who has no background in Hebrew, to see the text from a Hebraic perspective, without the interjection of a translator's theological opinions and bias. As this style of translation also identifies the morphology of each Hebrew word using the English language, it is a useful tool for those who are learning to read Biblical Hebrew.

Ancient tradition suggests that this world-weary lament is the work of Solomon in old age. Casting its eye over the transient nature of life, the book questions the striving for wisdom and the truth, choosing instead to espouse the value of living for the moment. A landmark event: the complete Hebrew Bible in the award-winning translation that delivers the stunning literary power of the original. A masterpiece of deep learning and fine sensibility, Robert Alter's translation of the Hebrew Bible, now complete, reanimates one of the formative works of our culture. Capturing its brilliantly compact poetry and finely wrought, purposeful prose, Alter renews the Old Testament as a source of literary power and spiritual inspiration. From the family frictions of Genesis and King David's flawed humanity to the serene wisdom of Psalms and Job's incendiary questioning of God's ways, these magnificent works of world literature resonate with a startling immediacy. Featuring Alter's generous commentary, which quietly alerts readers to the literary and historical dimensions of the text, this is the definitive edition of the Hebrew Bible.

**This is a "Special Edition" Hebrew Translation. Hebrew uses the Hebrew alphabet with optional vowel diacritics. The romanization of Hebrew is the use of the Latin alphabet to transliterate Hebrew words. For example, the Hebrew name spelled יִשְׂרָאֵל ("Israel") in the Hebrew alphabet can be romanized as Yisrael or Yiśrā'ēl in the Latin alphabet. Romanization includes any use of the Latin alphabet to transliterate Hebrew words. Usually, it is to identify a Hebrew word in a non-Hebrew language that uses the Latin alphabet, such as German, Spanish, Turkish, and so on. Transliteration uses an alphabet to represent the letters and sounds of a word spelled in another alphabet, whereas transcription uses an alphabet to represent the sounds only. Romanization can do both. To go the other way, that is from English to Hebrew, see Hebraization of English. Both Hebraization of English and Romanization of Hebrew are forms of transliteration. Where these are formalized these are known as "transliteration systems", and, where only some words, not all, are transliterated, this is known as "transliteration policy". The Septuagint (the ancient Greek translation of Jewish sacred writings) is of great importance in the history of both Judaism and Christianity. The first translation of the books of the Hebrew Bible (plus additions) into the common language of the ancient Mediterranean world made the Jewish scriptures

accessible to many outside Judaism. Not only did the Septuagint become Holy Writ to Greek speaking Jews but it was also the Bible of the early Christian communities: the scripture they cited and the textual foundation of the early Christian movement. Translated from Hebrew (and Aramaic) originals in the two centuries before Jesus, the Septuagint provides important information about the history of the text of the Bible. For centuries, scholars have looked to the Septuagint for information about the nature of the text and of how passages and specific words were understood. For students of the Bible, the New Testament in particular, the study of the Septuagint's influence is a vital part of the history of interpretation. But until now, the Septuagint has not been available to English readers in a modern and accurate translation. The New English Translation of the Septuagint fills this gap.

*Daniel Merrick at the age of 7 said the sinner's prayer and began reading his Bible every day. By the age of 8 Dan discovered many verses which said to call on and praise "His Holy Name", Dan questioned, "What is his Holy Name". Dan went to his pastor and asked that question "What is God's Name". The pastor's response was that the name was lost over time, to which Dan replied: "If God lost His name, I will help him find it". The YAHUaH Bible is the result of Dan's search of Paleo Hebrew phonetic that show the Hebrew roots of the Christian faith are embedded in many old testament prophesies. Designed for the Hebrew Roots of the Faith of the people of Israel with the Messianic restoration of the name of Elohim transliterated as YAHUaH from the tetragrammaton and God as YAH. A great addition to any sacred scriptures collection translated and transliterated by Daniel W Merrick, PhD*
