This slyly funny, moving novel about a blue-collar town in upstate New York—and in the life of Sully, of one of its unluckiest citizens, who has been doing the wrong thing triumphantly for fifty years—is a classic American story. Divorced from his own wife and carrying on halfheartedly with another man’s, saddled with a bum knee and friends who make enemies redundant, Sully now has one new problem to cope with: a long-estranged son who is in imminent danger of following in his father’s footsteps. With its uproarious humor and a heart that embraces humanity’s follies as well as its triumphs, Nobody’s Fool, from Pulitzer Prize-winning author, Richard Russo, is storytelling at its most generous. Nobody’s Fool was made into a movie starring Paul Newman, Bruce Willis, Jessica Tandy, and Melody Griffith.

The car struggles to shake the relentless zombies while Takashi and Rei cling perilously to the roof. The group has been lucky so far, but will their determination and makeshift arsenal be enough to make it to safety alive?

Changing My Mind

Straight Man

Immoral

Hilarious and true-to-life, witty, compassionate, and impossible to put down, Straight Man follows Hank Devereaux through one very bad week in this novel from Pulitzer Prize-winning author Richard Russo. William Henry Devereaux, Jr., is the reluctant chairman of the English department of a badly underfunded college in the Pennsylvania rust belt. Devereaux’s reluctance is partly rooted in his character--he is a born anarchist--and partly in the fact that his department is more savagely divided than the Balkans. In the course of a single week, Devereaux will have his nose mangled by an angry colleague, imagine his wife is having an affair with his dean, wonder if a curvaceous adjunct is trying to seduce him with peach pits, and threaten to execute a goose on local television. All this while coming to terms with his philandering father, the dereliction of his youthful promise, and the ominous failure of certain vital body functions. In short, Straight Man is classic Russo—side-splitting, poignant, compassionate, and unforgettable.

“[These essays] reflect a lively, unselfconscious, rigorous, erudite, and earnestly open mind that’s busy refining its view of life, literature, and a great deal in between.” —Los Angeles Times Split into five sections--Reading, Being, Seeing, Feeling, and Remembering--Changing My Mind finds Zadie Smith casting an acute eye over material both personal and cultural. This engaging collection of essays, some published here for the first time, reveals Smith as a passionate and precise essayist, equally at home in the world of great books and bad movies, family and philosophy, British comedians and Italian divas.

Whether writing on Katherine Hepburn, Kafka, Anna Magnani, or Zora Neale Hurston, she brings deft care to the art of criticism with a style both sympathetic and insightful. Changing My Mind is journalism at its most expansive, intelligent, and funny--a gift to readers and writers both.

The #1 New York Times bestseller answers: What if one simple change could save you from heart disease, diabetes, and cancer? For decades, that question has fascinated a small circle of impassioned doctors and researchers—and now, their life-changing research is making headlines in the hit documentary Forks Over Knives. Their answer? Eat a whole-foods, plant-based diet—it could save your life. It may overturn most of the diet advice you’ve heard—but the experts behind Forks Over Knives aren’t afraid to make waves. In his book Prevent and Reverse Heart Disease, Dr. Caldwell Esselstyn explained that eating meat, dairy, and oils injures the lining of our blood vessels, causing heart disease, heart attack, or stroke. In The China Study, Dr. Colin Campbell revealed how cancer and other diseases skyrocket when eating meat and dairy is the norm—and plummet when a traditional plant-based diet persists. And more and more experts are adding their voices to the cause: There is nothing else you can do for your health that can match the benefits of a plant-based diet. Now, as Forks Over Knives is introducing more people than ever before to the plant-based way to health, this accessible guide provides the information you need to adopt and maintain a plant-based diet. Features include: Insights from the luminaries behind the film—Dr. Neal Barnard, Dr. John McDougall, The Engine 2 Diet author Rip Esselstyn, and many others Success stories from converts to plant-based eating—like San’Dera Prude, who no longer needs to medicate her diabetes, has lost weight, and feels great! A National Poetry Series winner, selected and with a foreword by Kwame Dawes. A 5-part series of interwoven poems from a dying parent to her daughter, examining the human capacity for grief, culpability, and love, asking: do we as a species deserve to survive? Dear Specimen opens with both its speaker and her planet in peril. In “Speak to Me,” she puzzles over a millipede, as if the blue rune of its body could help her understand her impending death and the crisis her species has created. Throughout the collection, poems addressed to specimens echo the speaker’s concern and amplify her wonderment. A catalog of our climate transgressions, Dear Specimen’s final poem foretells a future in which climate refugees overrun one of our planet’s last habitable places. The collection’s lifeblood is a series of poems in which the speaker and her daughter express their concern for, and devotion to, one another. The daughter’s questions mirror the ones her mother asks of specimens: what are we meant to do with so much hazard and wonder? When the speaker hints at the climate crisis in a bedtime story she tells her grandson, we, too, feel the peril he may face. Juxtaposing a profound sense of intimacy with the vastness of geological time, the collection offers a climate-conscious critique of the human species—our search for meaning and intimacy, our capacity for greed and destruction. Dear Specimen is an extended love letter and dire warning, not only to the daughter its speaker leaves behind but to all of us.
