Study Guide for Black Ships Before Troy - Complete Edition

**Why have some working women been successful at organizing in spite of obstacles to labor activity? Under what circumstances were they able to form alliances with male workers? Carole Turbin explores these questions by examining the case of Troy, New York, which in the 1860s produced nearly all the nation's popular detachable shirt collars and cuffs. Troy's collar**

*laundresses were largely Irish immigrants who labored under harsh conditions, washing, starching, and ironing newly manufactured detachable collars for sale to retailers. The laundresses' union was officially the nation's first women's labor organization, and one of the best organized. In a period when many men were hostile to working women, they nevertheless formed close alliances with male labor activists. Turbin's study of the collar workers develops new perspectives on gender. She demonstrates that women's family ties are not necessarily a conservative influence but may encourage women's and men's collective action. Her analysis of variations in collar women's employment patterns, family structure, and activism reveals new ways of conceptualizing differences in women's and men's work and family lives. Turbin's discussion of major labor struggles in 1864, 1869, and 1886, which were integral to nineteenth-century working-class movements, reveals variations in the gender ideologies of women of different ethnic and religious groups. This analysis reveals the subtlety and complexity of gender differences between women and men.*

For Greek myth fans, those who can't get enough of the D'Aulaires' Book of Greek Myths, and readers who have aged out of Rick Riordan, this classroom staple and mythology classic is perfect for learning about the ancient myths! As the gods and goddesses of Olympus scheme, the ancient world is thrown into turmoil when Helen, the most beautiful woman in all of Greece, is stolen away by her Trojan love. Inflamed by jealousy, the Greek king seeks lethal vengeance and sends his black war ships to descend on the city of Troy. In the siege that follows, history's greatest heroes, from Ajax to Achilles to Odysseus, are forged in combat, and the brutal costs of passion, pride, and revenge must be paid. In the end, the whims of the gods, the cunning of the warriors, and a great wooden horse will decide who emerges victorious. Homer's epic poem, The Iliad, is one of the greatest adventure stories of all time and Rosemary Sutcliff's retelling of the classic saga embodies all of the astonishing drama, romance, and intrigue of ancient Greece. Don't miss The Wanderings of Odysseus, the companion to Black Ships Before Troy, and follow Odysseus on his adventure home. This book has been selected as a Common Core State Standards Text Exemplar (Grades 6-8, Stories) in Appendix B.
