

## **Trumpisms 2018 Day To Day Calendar The Boasts Barbs And Bizarre Musings Of The 45th President**

*How Democracies Die* Crown

*A Smithsonian Magazine Best History Book of 2018 The unknown history of two ideas crucial to the struggle over what America stands for In Behold, America, Sarah Churchwell offers a surprising account of twentieth-century Americans' fierce battle for the nation's soul. It follows the stories of two phrases--the "American dream" and "America First"--that once embodied opposing visions for America. Starting as a Republican motto before becoming a hugely influential isolationist slogan during World War I, America First was always closely linked with authoritarianism and white supremacy. The American dream, meanwhile, initially represented a broad vision of democratic and economic equality. Churchwell traces these notions through the 1920s boom, the Depression, and the rise of fascism at home and abroad, laying bare the persistent appeal of demagoguery in America and showing us how it was resisted. At a time when many ask what America's future holds, Behold, America is a revelatory, unvarnished portrait of where we have been.*

*Martin Luther King Jr. said and wrote as much or more about the meaning, nature, and power of truth as any other prominent figure in the 1950s and '60s. King was not only vastly influential as an advocate for and defender of truth; he also did more than anyone in his time to organize truth into a movement for the liberation, uplift, and empowerment of humanity, efforts that ultimately resulted in the loss of his life. Drawing on King's published and unpublished sermons, speeches, and writings, The Arc of Truth explores King's lifelong pilgrimage in pursuit of truth. Lewis Baldwin explores King's quest for truth from his inquisitive childhood to the influence of family and church, to Morehouse College, Crozer Theological Seminary, Boston University, and other academic institutions in the Northeast. Continuing on, the book follows King's sense that he was involved in experiments of truth within the context of the struggle to liberate and empower humanity, to his understanding of the civil rights movement as unfolding truth, to his persistent challenge to America around its need to engage in a serious reckoning with truth regarding its history and heritage. Baldwin investigates King's determination to speak truth to power, and his untiring efforts to actualize what he envisioned as the truthful ends of the beloved community through the truthful means of nonviolent direct action. King believed, taught, and demonstrated by example that truth derives from a revolution in the heart, mind, and soul before it can be translated into institutions and structures that guarantee freedom, justice, human dignity, equality of opportunity, and peace. Ultimately, King's significance for humanity cannot be considered only his contributions as a preacher, pastor, civil rights leader, and world figure--he was and remains equally impactful as a theologian, philosopher, and ethicist whose life and thought evince an enduring search for and commitment to truth.*

*Although Trump supporters depict him as a champion of the working class and a friend of minorities, this text demonstrates that the preponderance of evidence indicates that Trump promoted a right-wing public policy agenda that exacerbated inequality, benefited the economic elite, and hurt low-income white workers and minorities.*

Much of what the world knows about the United States of America is constructed and spread through global media. One can hardly find a country where news events involving the U.S.A. do not attract media attention, controversy, or at least invoke some level of critical thought. *Popular Representations of America in Non-American Media* provides emerging research exploring how non-American media covers and represents the U.S.A. through a critical review that demonstrates how foreign media representations of the country have varied according to periods in history, political leadership, and current ideological and socio-cultural affinities. The publication also conversely examines Americans' perceptions of foreign media representations of their country. Featuring coverage on a broad range of topics such as neocolonialism, political science, and popular culture, this book is ideally designed for students, scholars, media specialists, policymakers, international relation experts, politicians, and other professionals seeking current research on different perspectives on non-American media's representation of the U.S.A. and Americans.

**NEW YORK TIMES BESTSELLER • “Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste** Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for

the rest of the year, read *How Democracies Die*. . . .This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden’s presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. “We have much to do in this winter of peril,” Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. *Peril* is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward’s news-making trilogy on the Trump presidency, along with *Fear and Rage*. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward’s coverage, with Carl Bernstein, of President Richard M. Nixon’s final days.

This book examines and establishes the sociological relevance of the concept of populism and illuminates the ideological use of sport, leisure, and popular culture in socio-political populist strategies and dynamics. The first part of the book — Themes, Concepts, Theories — sets the scene by reviewing and evaluating populist themes, concepts, and theories and exploring their cultural-historical roots in and application to cultural forms such as mega-sports events, reality television programmes, and the popular music festival. The second part — National Contexts and Settings — examines populist elements of events and regimes in selected cases in South America and Europe: Argentina, Brazil, Greece, Italy, and England. In the third part — Trump Times — the place of sport in the populist ideology and practices of US president Donald Trump is critically examined in analyses of Trump’s authoritarian populism, his Twitter discourse, Lady Gaga at the Super Bowl, and populist strategy on the international stage. The book concludes with a discussion of the strong case for a fuller sociological engagement with the populist dimensions of sport, leisure, and popular cultural forms. Written in a clear and accessible

style, this volume will be of interest to sociologists and social scientists beyond those specialising in popular culture and cultural politics of sport and leisure, as the topic of populism and its connection to popular cultural forms and practices has come increasingly into prominence in the contemporary world.

Strangers in Their Own Land

Trumpism, Mexican America, and the Struggle for Latinx Citizenship

Race, Class, Populism, and Public Policy

***The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book."***

***—Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the New Republic, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.***

***We live in a period of great uncertainty about the fate of America's global leadership. Many believe that Donald Trump's presidency marks the end of liberal international order—the very system of global institutions, rules, and values that shaped the American international system since the end of World War II. Trump's repeated rejection of liberal order, criticisms of long-term allies of the US, and affinity for authoritarian leaders certainly undermines the American international system, but the truth is that liberal international order has been quietly eroding for at least 15 years. In Exit from Hegemony,***

***Alexander Cooley and Daniel Nexon develop a new, integrated approach to understanding the rise and decline of hegemonic orders. Their approach identifies three distinct ways in which the liberal international order is undergoing fundamental transformation. First, Russia and China have targeted the order, positioning themselves as revisionist powers by establishing alternative regional institutions and pushing counter-norms. Second, weaker states are hollowing out the order by seeking patronage and security partnership from nations outside of the order, such as Saudi Arabia and China. Even though they do not always seek to disrupt American hegemony, these new patron-client relationships lack the same liberal political and economic conditions as those involving the United States and its democratic allies. Third, a new series of transnational networks emphasizing illiberalism, nationalism, and right-wing values increasing challenges the anti-authoritarian, progressive transnational networks of the 1990s. These three pathways erode the primacy of the liberal international order from above, laterally, and from below. The Trump administration, with its "America First" doctrine, accelerates all three processes, critically lessening America's position as a world power.***

***The Presidential Elections of Trump and Bolsonaro, Whiteness, and the Nation is a sociological analysis of the similarities between the elections of Donald Trump and Jair Bolsonaro, based on biographies, academic sources, newspaper, television, and Internet reports published in the United States and Brazil between 2014 and 2021. A National Review Best Book of the Year Americans today are anxious--about the economy, about politics, about our government. The institutions that once dominated our culture have become smaller, more diverse, and personalized. Individualism has come at the cost of dwindling solidarity. No wonder, then, that voters and politicians alike are nostalgic for a time of social cohesion and economic success. But the policies of the past are inadequate to the America of today. Both parties are stuck presenting old solutions to new problems. In The Fractured Republic, Yuval Levin details his innovative answers to the dysfunctions of our fragmented national life. By embracing subsidiarity and diversity and rejecting extremism and nostalgia, he believes we can revive the middle layers of society and enable an American revival. Updated with a new epilogue, Levin helps us navigate our fraught political waters.***

**NEW YORK TIMES BESTSELLER • From an award-winning journalist at The Atlantic, these searing essays make a powerful case that “real hope lies not in a sunny nostalgia for American greatness but in seeing this history plain—in all of its brutality, unadorned by euphemism” (The New York Times). NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • “No writer better demonstrates how American dreams are so often sabotaged by American history. Adam Serwer is essential.”—Ta-Nehisi Coates** To many, our most shocking political crises appear unprecedented—un-American, even. But they are not, writes The Atlantic’s Adam Serwer in this prescient essay collection, which dissects the most devastating moments in recent memory to reveal deeply entrenched dynamics, patterns as old as the country itself. The January 6 insurrection, anti-immigrant sentiment, and American authoritarianism all have historic roots that explain their continued power with or without President Donald Trump—a fact borne out by what has happened since his departure from the White House. Serwer argues that Trump is not the cause, he is a symptom. Serwer’s phrase “the cruelty is the point” became among the most-used descriptions of Trump’s era, but as this book demonstrates, it resonates across centuries. The essays here combine revelatory reporting, searing analysis, and a clarity that’s bracing. In this new, expanded version of his bestselling debut, Serwer elegantly dissects white supremacy’s profound influence on our political system, looking at the persistence of the Lost Cause, the past and present of police unions, the mythology of migration, and the many faces of anti-Semitism. In so doing, he offers abundant proof that our past is present and demonstrates the devastating costs of continuing to pretend it’s not. *The Cruelty Is the Point* dares us, the reader, to not look away.

This edited collection offers an exploration of American literature in the age of Trumpism—understood as an ongoing sociopolitical and affective reality—by bringing together analyses of some of the ways in which American writers have responded to the derealization of political culture in the United States and the experience of a ‘new’ American reality after 2016. The volume’s premise is that the disruptions and dislocations that were so exacerbated by the political ascendancy of Trump and his spectacle-laden presidency have unsettled core assumptions about American reality and the possibilities of representation. The blurring of the relationship between fact and fiction, bolstered by the discourses of ‘fake news’ and ‘alternative facts,’ has not only drawn attention to the shattering of any notion of ‘shared’ reality, but has also forced a reexamination of the purpose and value of literature, especially when considering its troubled relation to the representation of ‘America.’ The authors in this collection respond to the invitation to reassess the workings of fiction and critique in an age of Trumpism by considering some of the most recent literary responses to the (new) American realit(ies)—including works by Colson Whitehead, Ben Winters, Claudia Rankine, Gary Shteyngart, Jennifer Egan, and Steve Erickson, to name but

***a few—, some of which were composed in the run-up to the 2016 election but were able to accurately and incisively imagine the world to come. The American church is in crisis. The crisis is not caused by the politics of Trumpism, though that is the occasion for it. The crisis is evoked by the great challenge which every generation faces: to follow Jesus Christ in the way of discipleship. The word of God's promise sets before American Christians a simple but dramatic choice in the face of the toxic politics of Trumpism. Does the gospel of Jesus Christ embrace the politics of Trumpism? Yes, or no? Each must choose, and the gospel itself is at stake. Early in his campaign, Donald Trump boasted that 'I know words. I have the best words', yet despite these assurances his speech style has sown conflict even as it has powered his meteoric rise. If the Trump era feels like a political crisis to many, it is also a linguistic one. Trump has repeatedly alarmed people around the world, while exciting his fan-base with his unprecedented rhetorical style, shock-tweeting, and weaponized words. Using many detailed examples, this fascinating and highly topical book reveals how Trump's rallying cries, boasts, accusations, and mockery enlist many of his supporters into his alternate reality. From Trump's relationship to the truth, to his use of gesture, to the anti-immigrant tenor of his language, it illuminates the less obvious mechanisms by which language in the Trump era has widened divisions along lines of class, gender, race, international relations, and even the sense of truth itself.***

In October 2018 Brazilians elected Jair Bolsonaro as their new president. A former army officer who served under the military dictatorship, Bolsonaro has spent his political career campaigning against democracy and human rights. His notoriety comes from his repeated racist, sexist and homophobic statements and his defense of torture, extra-judicial executions and impunity for Brazil's security forces. Bolsonaro is sometimes described as a "Tropical Trump." But this wording greatly underestimates the threat that he poses to Brazil's still young and fragile democratic institutions. *In Spite of You* brings together voices of the new Brazilian resistance. It includes chapters by Dilma Rousseff, former president of Brazil, political prisoner and torture survivor; Fernando Haddad, former minister for education and mayor of São Paulo, who was defeated by Bolsonaro in the 2018 election; and Eugenio Aragão, former minister for justice in President Dilma's last government. It also gives a voice to feminists, environmentalists, land rights activists and human rights defenders, explaining the background to Bolsonaro's election and setting out a manifesto for reviving democracy in Brazil. Contributors: Eugenio Aragão, Rubens Casara, Sérgio Costa, Vanessa Maria de Castro, Fabio de Sá e Silva, Michelle Morais de Sá e Silva, Paulo Esteves, Conor Foley, Gláucia Foley, Fernando Haddad,

Monica Herz, Fiona Macaulay, Renata Motta, Dilma Rousseff and Márcia Tiburi. ?Conor Foley is a Visiting Professor at the Pontifical Catholic University of Rio de Janeiro and has worked on legal reform, human rights and protection issues in over thirty conflict zones. His previous books include, *Protecting Brazilians Against Torture*, *Another System Is Possible* and *The Thin Blue Line*.

In the #1 New York Times bestseller, the former Assistant to the President and Director of Communications for the Office of Public Liaison in the Trump White House provides an eye-opening and “explosive” (The Boston Globe) look into the corruption and controversy of the current administration. Few were a member of Donald Trump’s inner orbit longer than Omarosa Manigault Newman. Their relationship spanned fifteen years—through four television shows, a presidential campaign, and a year by his side in the most chaotic, outrageous White House in history. But that relationship came to a decisive and definitive end, and Omarosa finally shares her side of the story in this “deftly executed” (The Guardian), jaw-dropping account. A stunning tell-all and takedown from a strong, intelligent woman who took every name and number, *Unhinged* is a must-read for any concerned citizen.

This edited volume sheds light on why, even though he lost the 2020 election, more than 74 million people—nearly half of the American population—voted for Donald Trump. In his four years, President Trump was a divisive figure. Authored by scholars and activists from an array of disciplinary areas and backgrounds, this book addresses why certain groups of voters found Trump appealing, how the Trump campaign utilized fear and conspiracy theories to woo voters, lessons Democrats should learn from the 2020 election, and the role activism had in the election and in the continuation or amelioration of Trumpism.

#1 New York Times bestseller! A respected, long-time Republican strategist, ad-maker, and contributor for The Daily Beast skewers the disease that is destroying the conservative movement and burning down the GOP: Trumpism. Includes an all-new chapter analyzing Trump’s impact on the 2018 elections. In the #1 New York Times bestselling *Everything Trump Touches Dies*, political campaign strategist and commentator Rick Wilson delivers “a searingly honest, biting funny, comprehensive answer to the question we find ourselves asking most mornings: ‘What the hell is going on?’ (Chicago Tribune). The Guardian hails *Everything Trump Touches Dies*, saying it gives, “more unvarnished truths about Donald Trump than anyone else in the American political establishment has offered. Wilson never holds back.” Rick mercilessly exposes the damage Trump has done to the country, to the Republican Party, and to the conservative movement that has abandoned its principles for the worst President in American history. Wilson unblinkingly dismantles Trump’s deceptions and the illusions to which his supporters cling, shedding light on the guilty parties who empower and enable Trump in Washington and in the media. He calls out the race-war dead-enders who hitched a ride with Trump, the alt-right basement dwellers who worship him, and the social conservatives who looked the other way. Publishers Weekly calls it, “a scathing, profane, unflinching, and laugh-out-loud funny rebuke of Donald Trump and his presidency.” No left-winger, Wilson is a lifelong conservative who delivers his withering

critique of Trump from the right. A leader of the Never Trump movement, he warned from the start that Trump would destroy the lives and reputations of everyone in his orbit, and *Everything Trump Touches Dies* is a deft chronicle the tragicomic political story of our time. From the early campaign days through the shock of election night, to the inconceivable train-wreck of Trump's first year. Rick Wilson provides not only an insightful analysis of the Trump administration, but also an optimistic path forward for the GOP, the conservative movement, and the country. "Hilarious, smartly written, and usually spot-on" (Kirkus Reviews), *Everything Trump Touches Dies* is perfect for those on either side of the aisle who need a dose of unvarnished reality, a good laugh, a strong cocktail, and a return to sanity in American politics.

DAYS of TRUMP: The Definitive Chronology of the 45th President of the United States

*This is a thought-provoking book on the black-white academic achievement gap in Chicago's predominantly black communities of color and what highly effective school boards can do to change it. In this book, the reader will be powerfully enlightened by a civil and human rights debate that calls for effective leadership in our schools, beginning with effective school boards. The primary agenda of effective school boards is raising student achievement performance levels and engaging the school district community to attain that goal. These instructive analyses of effective school board leadership builds on the research and wisdom of great leaders. Simultaneously, it develops a breath of fresh air for school reformers who seek to implement a new model and escape the insanity and pathology inherent in school board dysfunctions and violations of our civil and human rights which prevents progress in Chicago's south suburban communities of color. In both highs and lows of awesome moments, as educational reform leaders and school board members, we are in a strategic leadership position to help school boards carry out their essential responsibilities for creating equity and excellence in public education. In doing so, highly effective school leaders can team with our school board leaders to lead our school district communities in preparing all students to succeed in a rapidly changing global society. School board members doing the same things over and over again and then expecting different results in academic outcomes is the definition for insanity. Education is freedom. In an era of mass educational apartheid with its consequent mass incarceration of blacks that has surpassed the enforced chattel bondage of slavery's peak numbers in 1860, this book addresses a subject that is critically essential, timely, and in need of immediate attention for the security, success, and ultimate survival of black America. As the problems of the academic under-achievement gap is addressed in this book, it is also essential that school boards, educators, and community and national leaders accept reality, to view the problem in its true perspective, to contemplate it as it is, in providing essential solutions toward removing limiting and limited school boards' dysfunctions, obstructions, and other barriers to academic achievement in effective school board leadership. Supporting educational excellence will thereby produce more African American scholars in mathematics, science, and in many other disciplines. This book will provide information and focus on some key action areas that successful school boards in America and around the world have focused their attention on: Vision, Standards, Assessment, Resource Alignment, Climate, Collaboration, and Continuous Academic Improvement.*

**THE INSTANT NEW YORK TIMES AND WASHINGTON POST BESTSELLER** A call to action

*from three of Washington's premier political scholar-journalists, One Nation After Trump offers the definitive work on the threat posed by the Trump presidency and how to counter it. American democracy was never supposed to give the nation a president like Donald Trump. We have never had a president who gave rise to such widespread alarm about his lack of commitment to the institutions of self-government, to the norms democracy requires, and to the need for basic knowledge about how government works. We have never had a president who raises profound questions about his basic competence and his psychological capacity to take on the most challenging political office in the world. Yet if Trump is both a threat to our democracy and a product of its weaknesses, the citizen activism he has inspired is the antidote. The reaction to the crisis created by Trump's presidency can provide the foundation for an era of democratic renewal and vindicate our long experiment in self-rule. The award-winning authors of One Nation After Trump explain Trump's rise and the danger his administration poses to our free institutions. They also offer encouragement to the millions of Americans now experiencing a new sense of citizenship and engagement and argue that our nation needs a unifying alternative to Trump's dark and divisive brand of politics—an alternative rooted in a New Economy, a New Patriotism, a New Civil Society, and a New Democracy. One Nation After Trump is the essential book for our era, an unsparing assessment of the perils facing the United States and an inspiring roadmap for how we can reclaim the future.*

*Antidote to Trumpism is a wide-ranging collection of essays meant to help Americans embrace intellectual honesty, improve their critical thinking skills, and avoid being deceived by propaganda. The most important chapters explore: how to improve our understanding of the way our government functions; how the Trump administration has attacked the rule of law and our Constitution; the importance of protecting our democracy and our environment; and interesting political, religious, and scientific concepts. Other essays discuss how to deal with anxiety disorders, food allergies, and rosacea. Most of the chapters end with a list of recommended texts that will help those interested in learning more about the subjects discussed.*

*This work attempts a comparative description and analysis, focusing on the US, the UK, and Australia on the topic of the Right, educational policy, and schooling. It adopts as its underlying theme the burning fuse in tracing the topic back to Joseph de Maistre a Rightist who fled revolutionary France to seek safety in the company of Tsar Alexander I's Russian Empire. Here, he had much to say about school education, not for all, but rather the "deserving" social elite. During the past three or four decades in the US, the UK, and Australia, the Right has been remarkably successful in amassing political power. And in doing so, the right of politics in these countries has reshaped school educational policy and practice, a necessary step in securing the future of the Right as a political force. Moreover, even during the years the Right has been on the opposition benches in these countries, such has been the strength of their political force that governments of the Left have acquiesced to much of their school educational policy. A pioneering effort, this book asserts that to understand school educational policy in the third decade of the 21st century, we need to comprehend the politics of the Right. This book will be of interest to researchers and postgraduate students interested in Education Studies, Theory and Policy, and International and Comparative Education.*

The Republican Workers Party is the future of American presidential politics, says F.H. Buckley. It's a socially conservative but economically middle-of-the-road party, offering a way back to the land of opportunity where our children will have it better than we did. That is the American Dream, and Donald Trump's promise to restore it

is what brought him to the White House. As a Trump speechwriter and key transition advisor, Buckley has an inside view on what "Make America Great Again" really means—how it represents a program to restore the American Dream as well as a defense of nationalism rooted in a sense of fraternity with all fellow Americans. The call to greatness was a repudiation of the cruel hypocrisy of America's New Class, the dominant 10 percent who deploy the language of egalitarianism while jealously guarding their own privileges. The New Class talks like Jacobins but behaves like Bourbons. Its members claim to support equality and social mobility, but resist the very policies that promote mobility and equality: a choice of good schools for everyone's children, not just the well-to-do; a sensible immigration policy that doesn't benefit elites at the expense of average Americans; and regulatory reform to trim back the impediments that frustrate competitive enterprise. It isn't complicated. What's been lacking is political will. This book pulls no punches in describing how liberals and conservatives had become indifferent to those left behind. On the left, identity politics offered an excuse to hate an ideological enemy. On the right, a tired conservatism defined itself through policies that callously ignored the welfare of the bottom 90 percent. Trump told us that both Left and Right had betrayed the American people, and his Republican Workers Party promises to renew the American Dream. Buckley shows how it will do so.

An unprecedented behind-the-scenes portrait of the Trump presidency from the anonymous senior official whose first words of warning about the president rocked the nation's capital. On September 5, 2018, the New York Times published a bombshell essay and took the rare step of granting its writer anonymity. Described only as "a senior official in the Trump administration," the author provided eyewitness insight into White House chaos, administration instability, and the people working to keep Donald Trump's reckless impulses in check. With the 2020 election on the horizon, Anonymous is speaking out once again. In this book, the original author pulls back the curtain even further, offering a first-of-its-kind look at the president and his record -- a must-read before Election Day. It will surprise and challenge both Democrats and Republicans, motivate them to consider how we judge our nation's leaders, and illuminate the consequences of re-electing a commander in chief unfit for the role. This book is a sobering assessment of the man in the Oval Office and a warning about something even more important -- who we are as a people.

Timely and important, this collection focuses on the meaning of the 2016 presidential campaign and the election of Donald J. Trump as it relates to gender. Authored by scholars in political science, international studies, sociology, peace and conflict studies, psychiatry, and social work, as well as feminist activists from various backgrounds, chapters focus on campaigning for Hillary Clinton; how Trump won the election over a highly qualified female candidate; Trump's hyper-masculine posturing; the meaning of the election for marginalized populations; the effect of the election on survivors of sexual assault; proposed policies related to women; and how to teach and parent in the era of Trump. Further, the book offers an appendix of recommended resources for persons seeking to better understand the election and its effect on gender relations in 2016 and beyond.

This vibrant, full-color 2018 wall calendar features twelve of acclaimed artist Tom F.

O'Leary's illustrations of the POTUS alongside some of the President's most memorable Trumpisms. Monthly grid calendars indicate US national holidays. Ample space is provided each day for noting birthdays, anniversaries, and other occasions and appointments. Makes a great novelty gift.

Antidote to Trumpism

Unhinged

One Nation After Trump

For Latinx people living in the United States, Trumpism represented a new phase in the long-standing struggle to achieve a sense of belonging and full citizenship. Throughout their history in the United States, people of Mexican descent have been made to face the question of how they do or do not belong to the American social fabric and polity. Structural inequality, dispossession, and marginalized citizenship are a foundational story for Mexican Americans, one that entered a new phase under Trumpism. This volume situates this new phase in relation to what went before, and it asks what new political possibilities emerged from this dramatic chapter in our history. What role did anti-Mexicanism and attacks on Latinx people and their communities play in Trump's political rise and presidential practices? Driven by the overwhelming political urgency of the moment, the contributors to this volume seek to frame Trumpism's origins and political effects. Published in Association with School for Advanced Research Press.

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal "Trump makes one believe for a moment in the American dream again."—The New York Times "Donald Trump is a

deal maker. He is a deal maker the way lions are carnivores and water is wet.”—Chicago Tribune “Fascinating . . . wholly absorbing . . . conveys Trump’s larger-than-life demeanor so vibrantly that the reader’s attention is instantly and fully claimed.”—Boston Herald “A chatty, generous, chutzpa-filled autobiography.”—New York Post We are currently witnessing in Western Europe a “populist moment” that signals the crisis of neoliberal hegemony. The central axis of the political conflict will be between right- and left-wing populism. By establishing a frontier between “the people” and “the oligarchy,” a leftpopulist strategy could bring together the manifold struggles against subordination, oppression and discrimination. This strategy acknowledges that democratic discourse plays a crucial role in the political imaginary of our societies. And through the construction of a collective will, mobilizing common affects in defence of equality and social justice, it will be possible to combat the xenophobic policies promoted by right-wing populism.

THE INSTANT NEW YORK TIMES BESTSELLER! Michael C. Bender, senior White House reporter for the Wall Street Journal, presents a deeply reported account of the 2020 presidential campaign that details how Donald J. Trump became the first incumbent in three decades to lose reelection--and the only one whose defeat culminated in a violent insurrection. Beginning with President Trump's first impeachment and ending with his second, **FRANKLY, WE DID WIN THIS ELECTION** chronicles the inside-the-room deliberations between Trump and his campaign team as they opened 2020 with a sleek political operation built to harness a surge of momentum from a bullish economy, a unified Republican Party, and a string of domestic and foreign policy successes--only to watch everything unravel when fortunes suddenly turned. With first-rate sourcing cultivated from five years of covering Trump in the White House and both of his campaigns, Bender brings readers inside the Oval Office, aboard Air Force One, and into the front row of the movement's signature mega-rallies for the story of an epic election-year convergence of COVID, economic collapse, and civil rights upheaval--and an unorthodox president's attempt to battle it all. Fresh interviews with Trump, key campaign advisers, and senior administration officials are paired with an exclusive collection of internal campaign memos, emails, and text messages for scores of never-before-reported details about the campaign. **FRANKLY, WE DID WIN THIS ELECTION** is the inside story of how Trump lost, and the definitive account of his final year in office that draws a straight line from the president's repeated insistence that he would never lose to the deadly storming of the U.S. Capitol that imperiled one of his most loyal lieutenants--his own vice president.

The Presidential Elections of Trump and Bolsonaro, Whiteness, and the Nation

American Literature in the Era of Trumpism

Donald Trump's election has called into question many fundamental assumptions about politics and society. Should the forty-fifth president of the United States make us reconsider the nature and future of the global order? Collecting a wide range of perspectives from leading political scientists, historians, and international-relations scholars, *Chaos in the Liberal Order* explores the global trends that led to Trump's stunning victory and the impact his presidency will have on the international political landscape. Contributors situate Trump among past foreign policy upheavals and enduring models for global governance, seeking to understand how and why he departs from precedents and norms. The book considers key issues, such as what Trump means for America's role in the world; the relationship between domestic and international politics; and Trump's place in the rise of the far right worldwide. It poses challenging questions, including: Does Trump's election signal the downfall of the liberal order or unveil its resilience? What is the importance of individual leaders for the international system, and to what extent is Trump an outlier? Is there a Trump doctrine, or is America's president fundamentally impulsive and scattershot? The book considers the effects of Trump's presidency on trends in human rights, international alliances, and regional conflicts. With provocative contributions from prominent figures such as Stephen M. Walt, Andrew J. Bacevich, and Samuel Moyn, this timely collection brings much-needed expert perspectives on our tumultuous era.

The instant #1 bestseller, now updated with new reporting. "This taut and terrifying book is among the most closely observed accounts of Donald J. Trump's shambolic tenure in office to date." - Dwight Garner, *The New York Times*  
Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's presidency "I alone can fix it." So proclaimed Donald J. Trump on July 21, 2016, accepting the Republican presidential nomination and promising to restore what he described as a fallen nation. Yet as he undertook the actual work of the commander in chief, it became nearly impossible to see beyond the daily chaos of scandal, investigation, and constant bluster. In fact, there were patterns to his behavior and that of his associates. The universal value of the Trump administration was loyalty—not to the country, but to the president himself—and Trump's North Star was always the

perpetuation of his own power. With deep and unmatched sources throughout Washington, D.C., Carol Leonnig and Philip Rucker reveal the forty-fifth president up close. Here, for the first time, certain officials who felt honor-bound not to divulge what they witnessed in positions of trust tell the truth for the benefit of history. A peerless and gripping narrative, *A Very Stable Genius* not only reveals President Trump at his most unvarnished but shows how he tested the strength of America's democracy and its common heart as a nation.

Blending critical theory, conjunctural cultural studies, and assemblage theory, *Making Sport Great Again* introduces and develops the concept of uber-sport: the sporting expression of late capitalism's conjoined corporatizing, commercializing, spectacularizing, and celebritizing forces. On different scales and in varying spaces, the uber-sport assemblage is revealed both to surreptitiously reinscribe the neoliberal preoccupation with consumption and to nurture the individualized consumer subject. Andrews further probes how uber-sport normalizes the ideological orientations and associate affective investments of the Trump assemblage's authoritarian populism. Even as it articulates the regressive politicization of sport, *Making Sport Great Again* serves also as a call to action: how might progressives rearticulate uber-sport in emancipatory and actualizing political formations?

Prepare to be shocked. From the man *The Wall Street Journal* hailed as a "Swiftean satirist" comes the most shocking book ever written! *The Borowitz Report: The Big Book of Shockers*, by award-winning fake journalist Andy Borowitz, contains page after page of "news stories" too hot, too controversial, too -- yes, shocking -- for the mainstream press to handle. Sample the groundbreaking reporting from the news organization whose motto is "Give us thirty minutes -- we'll waste it."

Inside the Populist Coalition Reshaping American Politics

NEW YORK TIMES BESTSELLER • From the Pulitzer Prize – winning critic comes an impassioned critique of America's retreat from reason We live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House. Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens. The wisdom of the crowd has usurped research and expertise, and we are each left clinging to the beliefs that best confirm our biases. How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a penetrating look at the cultural forces that contributed to this gathering storm. In social media and literature, television, academia, and politics, Kakutani identifies the trends—originating on both the right and the left—that have combined to elevate subjectivity over factuality, science, and common values. And

she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current condition and points toward a new path for our truth-challenged times.

The history of the American electorate is not a litany of flukes; instead it is a pattern of tectonic plate-grinding, punctuated by a landscape-altering earthquake every generation or so. Donald Trump's electoral coalition is smashing both American political parties and its previously impenetrable political news media. The political experts called the 2016 election wrong and in the wake of the 2016 election surprise, the experts have continued to blow it - looking to predict the coming demise of the President without pausing to consider the durability of the trends and winds that swept him into office. *The Great Revolt* delves deep into the minds and hearts of the voters the make up this coalition. What emerges is a group of citizens who cannot be described by terms like "angry," "male," "rural," or the often-used "racist." They span job descriptions, income brackets, education levels, and party allegiances. What unites them is their desire to be part of a movement larger than themselves that puts pragmatism before ideology, localism before globalism, and demands the respect it deserve from Washington. Zito and Todd have traveled on over 27,000 miles of country roads to interview more than 300 Trump voters in 10 swing counties. What they have discovered is that these voters were hiding in plain sight--ignored by both parties, the media, and the political experts all at once, ready to unite into the movement that spawned the greatest upset in recent electoral history. Deeply rooted in the culture of these Midwestern swing states, Zito and Brad Todd reframe the discussion of the "Trump voter" to answer the question- What next?

With over 400 photos, documents and interactive links, *DAYS of TRUMP: The Definitive Chronology of the 45th President of the United States* may be the most comprehensive resource for political historians and lay people alike digging even deeper into the whirlwind days of the Trump presidency than any book released to date. *Days of Trump* is a chronological, collected look back at all the significant (and even secondary) events and headlines of the Trump era that for the first time puts it all together in one place, giving the reader and historians the chance to better see how these myriad events all fit into place and where we are left as a nation.
