Building on the achievements of Goethe in his Theory of Colour, Rudolf Steiner shows how colour affects us in many areas of life, including our health, our sense of well-being, and our feelings. Distinguishing between 'image' and 'lustre' colours, he lays the foundation, based on his spiritual-scientific research, for a practical technique of working with colour that leads to a new direction in artistic creativity. His many penetrating remarks on some of the great painters of the past are supplemented by a deep concern to see a cultural, spiritual renewal emerge in the present time. 'If you realize', he states, 'that art always has a relation to the spirit, you will understand that both in creating and appreciating it, art is something through which one enters the spiritual world.' This volume is the most comprehensive compilation of Rudolf Steiner's insights into the nature of colour, painting and artistic creation. It is an invaluable source of reference and study not only for artists and therapists but for anyone interested in gaining an appreciation of art as a revelation of spiritual realities.

Charles Booth's pioneering survey, Life and Labour of the People in London, published in 17 volumes between 1889 and 1903, was a landmark in empirical social investigation. His panorama of London life has dominated all subsequent accounts: its scope, precision and detail make it an unrivalled source for the period. Mr. Charles Booth's Inquiry is the first systematic account of the making of the survey, based upon an intensive examination of the huge Booth archive. This contains far more material than was eventually published, in particular on women, work, religion, education, housing and social relations, as well as on poverty. While the book acknowledges the leading role of Booth himself, it highlights the significance of the contributions of his associates, including Beatrice Potter (Webb), Octavia Hill, Llewellyn Smith and G.H. Duckworth. Life and Labour of the People in London is a founding text of both social history and modern sociology. It has however commonly been misunderstood and frequently misused. Mr Charles Booth's Inquiry sets the survey in perspective and demonstrates the richness of the Booth archive and its

potential for modern scholarship in both history and the social sciences.

(Music Sales America). One of Gabrieli's most famous motets, this is a work of remarkable proportions and sonority. The piece is for soloists, choir, instruments and organ continuo. This vocal score, edited by Denis Stevens, contains all voice parts, with oboe, trumpet, trombone and organ parts.

Why do people go to the movies? What does it mean to watch a movie? To what extent is the perceived fictional nature of movies different from our daily perception of the real world? We live in a time where the power of images has strongly invaded our everyday life, and we need new instruments and methods to better understand our relationship with the virtual worlds we inhabit every day. Taking cinema as the beginning of our relationship with the world of moving images, and cognitive neuroscience as a paradigm to understand how the images engage us, The Empathic Screen develops a new theory of film experience, exploring our brain-body interaction when engaging with and watching a film. In this book, film theory and neuroscience meet to shed new light on cinema masterpieces, such as The Shining, The Silence of the Lambs, and Toy Story, and explore the great directors from the classical period to the present. Taking a radical new approach to understanding the cinema, the book will be fascinating reading for cognitive scientists, neuroscientists, psychologists, philosophers, and film and media scholars.

With an introduction by award-winning author Alberto Manguel, Milongas is Edgardo Cozarinsky's love letter to tango, and the diverse array of people who give it life. From tango's origins in the gritty bars of Buenos Aires, to milongas tucked away in the crypt of a London Church, a café in Kraków, or the quays of the Seine, Cozarinsky guides us through a shape-shifting dance's phantasmagoric past. In neighborhood dance halls vibrant and alive through the early hours of the morning, where young and old, foreign and native, novice and master come together to traverse borders, demographics, and social mores, "it is impossible to distinguish the dance from the dancer." As conspiratorial as he is candid, Cozarinsky shares the secrets and culture of this timeless dance with us through glimmering anecdote, to celebrate its traditions, evolution, and the devotees who give it life.

One of the most studied and popular works of Italian literature, Giuseppe Parini's *The Day* has been unjustly neglected in the English-speaking countries. This edition reissue of Herbert Morris Bower's beautiful verse translation, the only complete English version of the poem, is enriched by facing original text and extra end notes. Parini's satirical description of a lazy young nobleman's fashionable day, from his awakening late in the morning to the fatuous pleasures that noon and evening bring, has been often compared to *The Rape of the Lock*, and displays the same gentle tone, pointed wit, and enduring charm of Pope's masterpiece.

How beauty leads to better jobs, better wages, and better spouses Most of us know there is a payoff to looking good, and in the quest for beauty we spend countless hours and billions of dollars on personal grooming, cosmetics, and plastic surgery. But how much better off are the better looking? Based on the evidence, quite a lot. The first book to seriously measure the advantages of beauty, *Beauty Pays* demonstrates how society favors the beautiful and how better-looking people experience startling but undeniable benefits in all aspects of life. Noted economist Daniel Hamermesh shows that the attractive are more likely to be employed, work more productively and profitably, receive more substantial pay, obtain loan approvals, negotiate loans with better terms, and have more handsome and highly educated spouses. Hamermesh explains why this happens and what it means for the beautiful—and the not-so-beautiful—among us. Exploring whether a universal standard of beauty exists, Hamermesh illustrates how attractive workers make more money, how these amounts differ by gender, and how looks are valued differently based on profession. He considers whether extra pay for good-looking people represents discrimination, and, if so, who is discriminating. Hamermesh investigates the commodification of beauty in dating and how this influences the search for intelligent or high-earning mates, and even examines whether government programs should aid the ugly. He also discusses whether the economic benefits of beauty will persist into the foreseeable future and what the "looks-challenged" can do to overcome their disadvantage. Reflecting on a sensitive issue that touches everyone, *Beauty Pays* proves that beauty's rewards are anything but superficial.

Alfred Kubin (1877-1959) was one of the major graphic artists of the 20th century who was widely known for his illustrations of the fantastic such as Balzac, E. I. A. Hoffmann, Gustav Meyrink and Edgar Allan Poe. In his combination of the darkly decadent fantastic and the grotesque, in his evocations of dream and nightmare, his creation of an atmosphere of mystery and fear he influenced Mervyn Peake. The Other Side tells of a dream kingdom which becomes a nightmare, of a journey to Pearl, a mysterious city deep in Asia, which is also a journey to the depths of the subconscious. Or as Kubin himself called it, 'a sort of Baedeker for travellers which are half known to us'.

'The father of contemporary European detective fiction' Ann Cleeves 'People who've been here a long time have been talking about him. This morning, when I was having my coffee and croissants, it was all they were talking about. The old folks, even the middle-aged people, remember him and can't understand how he could have become a tramp. Apparently he was a good-looking man, tall and strong, who had a good profession and made a very decent living. And yet he vanished overnight without saying a word to anyone. The death of a homeless man in a condemned building in Les Halles leads Maigret on the trail of the vagrant's mysterious past, an event that happened years ago in the close-knit community of Montmartre. "Treasures of a Lost Art presents 144 leaves, cuttings, and illuminated manuscript fragments from the collection of Robert Lehman (1891-1969), one of the largest and most impressive private holdings of Italian manuscripts assembled after the First World War. Discussed here - with many of them handsomely illustrated in full color - are important examples of the major schools of illumination in southern Italy, Umbria, Tuscany, Emilia, Lombardy, and the Veneto. Previously unpublished, and perhaps even unknown to scholars, are works by some of the foremost Italian painters of the Middle Ages and Renaissance, including a leaf here attributed for the first time to the Sienese master Duccio di Buoninsegna and cuttings by Stefano da Verona and Cosimo Tura. Lesser-known artists, such as Neri da Rimini, Belbello da Pavia, and Girolamo da Cremona, once

renowned for their beautifully illuminated volumes, are also discussed in full."--BOOK JACKET.

Few political philosophers have laid such stress upon the organic and dynamic characters of human rights, rooted as they are in natural law, as did the great 20th century philosopher, Jacques Maritain. Few Christian scholars have placed such emphasis upon the influence of evangelical inspiration, or of the Gospel message, upon the temporal order as has Maritain. As this important work reveals, the philosophy of Jacques Maritain on natural law and human rights is complemented by and can only be properly understood in the light of his teaching on Christianity and democracy and their relationship. Maritain takes pains to point out that Christianity cannot be made subservient to any political form or regime, that democracy is linked to Christianity and not the other way around, and that every just regime, such as the classic forms of monarchy, aristocracy and republic, is compatible with Christianity and in it a person is able to achieve some measure of fulfillment even in the temporal order. At the same time he argues his distinctive thesis that personalist or organic democracy provides a fuller measure of freedom and fulfillment and that it emerges or begins to take shape under the inspiration of the Gospel. Even the modern democracies we do in fact have, with all their weaknesses, represent an historic gain for the person and they spring, he urges, from the very Gospel they so wantonly repudiate!

Fuorché la musica, tutto. Il pubblico del teatro di Verdi troverà in questo volume, a parte la musica, le note e la partitura (che

sono logico appannaggio specialistico), tutti i testi dei libretti, integrali, e una ricca serie di rubriche volte a introdurre, a saggiare, a documentare, ad accompagnare l'ascolto, come la storia del libretto e dell'opera, gli intrecci, i giudizi di critici e di grandi scrittori, gli interpreti. Chiude e completa questo splendido volume un'appendice del curatore che comprende una storia del dramma e del melodramma, una bibliografia e una discografia verdiane. Giuseppe Verdi (1813-1901) prelevò il glorioso melodramma italiano dalle mani di Rossini per portarlo a incredibili vertici di grandezza artistica, culturale, morale, nazionale. Di umili origini, abitò soprattutto a Sant'Agata, non lontano da Roncole di Busseto dov'era nato, e morì a Milano. Compose 28 opere teatrali, molte delle quali continuano a trionfare sui palcoscenici di tutto il mondo.

This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and

cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1979. Not so long ago Emilio Brentani was a promising young author. Now he is an insurance agent on the fast track to forty. He gains a new lease on life, though, when he falls for the young and gorgeous Angiolina—except that his angel just happens to be an unapologetic cheat. But what begins as a comedy of infatuated misunderstanding ends in tragedy, as Emilio's jealous persistence in his folly—against his friends' and devoted sister's advice, and even his own best knowledge—leads to the loss of the one person who, too late, he realizes he truly loves. Marked by deep humanity and earthy humor, by psychological insight and an elegant simplicity of style, As a Man Grows Older (Senilità, in Italian; the English title was the suggestion of Svevo's great friend and admirer, James Joyce) is a brilliant study of hopeless love and hapless indecision. It is a masterwork of Italian literature, here beautifully rendered into English in Beryl de Zoete's classic translation.-Print ed. With contributions from experts in the field of sociology of law, this book provides an overview of current perspectives on socio-legal studies. It focuses particularly on the relationship between law and society described in recent social systems theory as 'structural coupling'. The first part of the book presents a reconstruction of theoretical tendencies in the field of socio-legal studies, characterised by the emergence of a transnational model of legal systems no longer connected to territorial borders and culturally specific aspects of single legal orders. In the following parts of the book, the contributions analyse some concrete cases of interrelation between law and society from an empirical and theoretical perspective.
