

## Uncovering You 11 The Lost Chapter

*What if there was a way to peel back the broken and tattered pieces of ourselves, and uncover a new life of freedom, adventure, and transformation? For many of us, our misconceptions about the nature and character of the triune God have kept us from the freedom and joy found in our true identity in Christ. Damaging cycles of shame and the endless effort to look the part keep us trapped in drama and fear. Unable to grasp the paradox of a God who is both Lion and Lamb, we end up feeling alone, stuck on the banks of the river while a life of passion and adventure beckons. Using stories of transformation, Paradox Lost presents a framework for understanding our patterns of "stuckness" and provides specific tools for getting off the riverbanks and into the current. With life-giving insight into God's nature, readers will find the courage to uncover their own wounded places, as well as invite others to experience the wholeness of abundant life in Christ.*

*Everyone experiences grief, but few books offer real help with the debilitating emotions of bereavement.*

*Written mostly in prose, "Uncovering and Discovering the KEY to Spiritual Growth" is sprinkled with some beautiful and transforming original poetry. It is a fascinating story of one man's attempt to make sense out of a world turned upside down. In the midst of personal disaster, Rich Kae asked, "How do you find meaning in a world where all the givens are gone?" He started looking for the key or answer to this question by addressing the only thing he knew for certain -HIS PAIN! One chapter in the book entitled, "Pain is your Friend" reveals how being honest with and accepting his pain helped him to discover a new foundation upon which he could start to rebuild his life "one day at a time." The Book reflects the Author's broad experience and education in the fields of psychology, religion, philosophy and the sciences. Many readers responded positively after having read the pre-publication manuscript. One such response by Rev. Donald Tastad reads, "One cannot read it without asking the most basic and important questions in life. One finds ample answers to those questions and of more importance, a way of life that leads to fulfillment and meaning."*

*Hello! My name is AJ Rice. At least, it was... before I lost 250 pounds after undergoing gastric bypass weight loss surgery at the young age of 18 years old. The procedure completely changed my life. It made me a whole new person. I changed my name to Sean Kurtis DeMarco because I wanted a new identity. I wanted to be a new person. Trust me, you'll read all about it: my reasons behind the name change as well as other episodes of my craziness. Really, I am just a normal guy from a small town in California who lost a lot of weight in only 11 months. I also lost a lot of other things along the way, including some friends who thought I "changed". However, I began to discover and create this new guy, "Sean Kurtis", because I never wanted to be fat again. I never wanted to be "AJ" -- that fat guy who everyone made fun of, the one who couldn't fit on the rides at the fair. In my memoir, you'll read about my struggle with weight as a child, the loss of my grandparents who raised me, my health, anxiety, depression, addiction, suicide attempts, my dramatic weight loss, and how it messed with my head and changed me for life. You'll witness the transformation to the new me, how I managed to deal with it, and how you too can get through any struggles you yourself are dealing with. I want to inspire someone with my story. It took me a while to realize that you can't find happiness losing weight or changing your appearance. It's the things that you carry inside that you must heal first. I lost 250 pounds and wouldn't say I am any happier. I may be more confident, but I'm not happier. In reality, I'm sadder and more self-conscious about myself and the way I look now. However, I wouldn't change a single thing. It's what makes me the person I am today. Here's my story. This is what it feels like to go from 422 pounds to 179 pounds in 11 months!*

Lovely!"—Garth Stein, *New York Times* bestselling author of *The Art of Racing In The Rain* In this thought-provoking, wise and emotionally rich novel, *New York Times* bestselling author Susan Wiggs explores the meaning of happiness, trust, and faith in oneself as she asks the question, "If you had to start over, what would you do and who would you be?" There is a book for everything . . . Somewhere in the vast *Library of the Universe*, as Natalie thought of it, there was a book that embodied exactly the things she was worrying about. In the wake of a shocking tragedy, Natalie Harper inherits her mother's charming but financially strapped bookshop in San Francisco. She also becomes caretaker for her ailing grandfather Andrew, her only living relative—not counting her scoundrel father. But the gruff, deeply kind Andrew has begun displaying signs of decline. Natalie thinks it's best to move him to an assisted living facility to ensure the care he needs. To pay for it, she plans to close the bookstore and sell the derelict but valuable building on historic Perdita Street, which is in need of constant fixing. There's only one problem—Grandpa Andrew owns the building and refuses to sell.

Natalie adores her grandfather; she'll do whatever it takes to make his final years happy. Besides, she loves the store and its books provide welcome solace for her overwhelming grief. After she moves into the small studio apartment above the shop, Natalie

carries out her grandfather's request and hires contractor Peach Gallagher to do the necessary and ongoing repairs. His young daughter, Dorothy, also becomes a regular at the store, and she and Natalie begin reading together while Peach works. To Natalie's surprise, her sorrow begins to dissipate as her life becomes an unexpected journey of new connections, discoveries and revelations, from unearthing artifacts hidden in the bookshop's walls, to discovering the truth about her family, her future, and her own heart.

A Publishers Weekly Best Book of 2018 "An important contribution to our understanding of how ordinary people found the strength to fight for equality for schoolchildren and their teachers." —Wall Street Journal In the epic tradition of *Eyes on the Prize* and with the cultural significance of John Lewis's *March* trilogy, an ambitious and harrowing account of the devoted black educators who battled southern school segregation and inequality For two years an aging Dr. Horace Tate—a former teacher, principal, and state senator—told Emory University professor Vanessa Siddle Walker about his clandestine travels on unpaved roads under the cover of night, meeting with other educators and with Dr. King, Georgia politicians, and even U.S. presidents. Sometimes he and Walker spoke by phone, sometimes in his office, sometimes in his home; always Tate shared fascinating stories of the times leading up to and following *Brown v. Board of Education*. Dramatically, on his deathbed, he asked Walker to return to his office in Atlanta, in a building that was once the headquarters of another kind of southern strategy, one driven by integrity and equality. Just days after Dr. Tate's passing in 2002, Walker honored his wish. Up a dusty, rickety staircase, locked in a concealed attic, she found the collection: a massive archive documenting the underground actors and covert strategies behind the most significant era of the fight for educational justice. Thus began Walker's sixteen-year project to uncover the network of educators behind countless battles—in courtrooms, schools, and communities—for the education of black children. Until now, the courageous story of how black Americans in the South won so much and subsequently fell so far has been incomplete. *The Lost Education of Horace Tate* is a monumental work that offers fresh insight into the southern struggle for human rights, revealing little-known accounts of leaders such as W.E.B. Du Bois and James Weldon Johnson, as well as hidden provocateurs like Horace Tate.

How far would you walk for happiness? After living in Japan for over half a decade Todd Wassel finds himself at a crossroads in life and caught between worlds. Out of work, out of love, and drowning in debt, Todd is convinced that there should be a purpose to life, but nothing has worked out up to now. Desperate, he launches a last-ditch effort to understanding what a meaningful life really is by walking the grueling 750-mile, 88-temple Buddhist pilgrimage on Japan's remote island of Shikoku, again. In search of himself and a Japan he thought was lost, *Walking in Circles*, lovingly retells Todd's sometimes outrageous, painful, and suspense filled journey. Todd is joined on the path by an eccentric group of characters, naked Yakuza trying to shake him down, a wandering ascetic searching for enlightenment while hiding from the Freemasons, and a Buddhist Monk who hates America but loves beef jerky. *Walking in Circles* is more than a humorous travel memoir of personal transformation. Todd crafts an intimate portrait of a changing Japan and a nation in search of meaning. What he finds changes his life forever. Are you prepared to find enlightenment on the backroads of Japan?

Losing weight and successfully maintaining it over the long term is not as much about what you put in your stomach; it's more about what's happening in the brain. In *Brain-Powered Weight Loss*, psychotherapist and weight management expert Eliza Kingsford shows that more than 90 percent of people who go on diet programs (even healthy ones) fail or eventually regain because they have a dysfunctional relationship with food. Changing this relationship by changing the way you think about and behave around food is what it takes to permanently achieve weight-loss success. Kingsford's 11-step first-of-its-kind program enlists dozens of mind-altering and behavior-changing exercises and techniques and shows you how to:

- Identify and reverse the conscious and unconscious thinking errors and food triggers that lead to the behaviors that drive our food decisions.
- Let go of the mindset of going on or off a diet in favor of a conscious quest to pursue a lifestyle of healthy eating and everyday activity—one that can last forever.
- Successfully use what Kingsford calls "dealing skills" to outsmart high-risk situations, tame stressful times, and prevent an eating "slip" from leading to a setback or all-out binge.
- Find out if you have what emerging research shows is an addiction to certain high-fat and sugar-added, processed foods that can be as powerful as addiction to cigarettes and narcotics.
- Design a personal healthy eating program built on Kingsford's 10 Principles of Healthy Eating.

In 'Finding the Lost Battalion' author Robert J. Laplander meticulously chronicles what would become one of the most famous events of American participation in World War One, discovering the truths behind the legend. Drawing on hundreds of sources - many never before seen - and spanning eight years of research, including four trips to the sight of the action in France, Mr. Laplander leads the reader through the events in the Charlevaux Ravine during early October 1918, and the circumstances leading up to it, virtually hour by hour. In this way the book does not merely tell the story itself, but explains why it all came about in the first place. The end result is the single most factual accounting of the Lost Battalion and their leader, Charles W. Whittlesey, to date, told in an entertaining, fast moving style. Never dry or boring, as some military tomes can be, this one is sure to quickly become a favorite on your shelf and the benchmark against which all further work on the Lost Battalion will be measured.

A gateway to healing and calling

The brokenness of this world inevitably invades our lives. But how do you maintain faith when overwhelmed by grief? When prayer goes unanswered? When all you have are questions, not answers? What do you say to God when you know he is in control but the suffering continues unabated? Is there any alternative to remaining speechless in the midst of pain and heartbreak? This book is about finding words to use when life is hard. These words are not new. They are modes of expression that the church has drawn on in times of grief throughout most of its history. Yet, the church in the West has largely abandoned these words--the psalms of lament. The result is that believers often struggle to know what to do or say when faced with distress, anxiety, and loss. Whether you are in Christian leadership, training for ministry, or simply struggling to reconcile experience with biblical convictions, Finding Lost Words will help you consider how these ancient words can become your own.

From Dickensian London to today 's megacities—what urban walking tells us about modern life There is no such thing as a false step. Every time we walk we are going somewhere. Especially if we are going nowhere. Moving around the modern city is not a way of getting from A to B, but of understanding who and where we are. In a series of riveting intellectual rambles, Matthew Beaumont retraces episodes in the history of the walker since the mid-nineteenth century. From Dickens 's insomniac night rambles to restless excursions through the faceless monuments of today 's neoliberal city, the act of walking is one of self-discovery and self-escape, of disappearances and secret subversions. Pacing stride for stride alongside literary amblers and thinkers such as Edgar Allan Poe, Andr é Breton, H. G. Wells, Virginia Woolf, Jean Rhys and Ray Bradbury, Beaumont explores the relationship between the metropolis and its pedestrian life. Through these writings, Beaumont asks: Can you get lost in a crowd? What are the consequences of using your smartphone in the street? What differentiates the nocturnal metropolis from the city of daylight? What connects walking, philosophy and the big toe? And can we save the city—or ourselves—by taking to the pavement?

I am mentally exhausted. I am at my wit's end. I am in the dark, again, with no end in sight. But just when all hope seems lost, a light appears at the end of the tunnel. A confession... that breaks me from the stranglehold of hopelessness and despair. An admission... that brings new dimensions to the man who is shrouded in secrecy. Stonehart's revelation can never change what he's done to me. But can it be enough to make a difference in how I see him? As old questions are answered, new ones arise: Is it possible for a man to change? Is it possible for him to repent for all his sins? And, perhaps most important of all: Is it possible for me to forgive?

I'm so busy and tired, how can I find time for sex? How can I go from mommy one minute to passionate lover the next? What medicines or natural herbs can I take to improve my libido? At some point in their lives, most women experience a decline in their sexual desire. Yet despite the vast number of books devoted to sex, surprisingly few focus on the problem of low libido. Fewer still offer any practical advice to the woman who has lost her sex drive and longs to find it again. Reclaiming Desire presents the holistic approach that gynecologist Andrew Goldstein and clinical psychologist Marianne Brandon—co-founders of the Sexual Wellness Center in Annapolis, Maryland—use to successfully treat women with low libido. Capitalizing on their combined medical and psychological expertise, they reveal how a complex set of physical, emotional, intellectual, and spiritual factors—as well as specific life-changing events such as marriage, pregnancy, childbirth, divorce, and menopause—can affect female sex drive. Reading this book, women will come to understand that low libido isn't "all in their heads"—or all in their bodies, for that matter. The problem is real and it's diverse—but it's curable.

The 11-Step Behavior-Based Plan That Ends Overeating and Leads to Dropping Unwanted Pounds for Good

The New York Times bestseller from the author of *Chasing the Scream*, offering a radical new way of thinking about depression and anxiety. What really causes depression and anxiety--and how can we really solve them? Award-winning journalist Johann Hari suffered from depression since he was a child and started taking antidepressants when he was a teenager. He was told that his problems were caused by a chemical imbalance in his brain. As an adult, trained in the social sciences, he began to investigate whether this was true--and he learned that almost everything we have been told about depression and anxiety is wrong. Across the world, Hari found social scientists who were uncovering evidence that depression and anxiety are not caused by a chemical imbalance in our brains. In fact, they are largely caused by key problems with the way we live today. Hari's journey took him from a mind-blowing series of experiments in Baltimore, to an Amish community in Indiana, to an uprising in Berlin. Once he had uncovered nine real causes of depression and anxiety, they led him to scientists who are discovering seven very different solutions--ones that work. It is an epic journey that will change how we think about one of the biggest crises in our culture today. His TED talk, "Everything You Think You Know About Addiction Is Wrong," has been viewed more than eight million times and revolutionized the global debate. This book will do the same.

*Finding Lost Words*The Church's Right to LamentWipf and Stock Publishers

An enduring account of love and loss from one of the great writers of our time, *The New Yorker's* Kathryn Schultz, winner of the Pulitzer Prize "An extraordinary gift of a book, a tender, searching meditation on love and loss and what it means to be human. I wept at it, laughed with it, was entirely fascinated by it. I emerged feeling a little as if the world around me had been made anew."—Helen Macdonald, author of *H Is for Hawk* and *Vesper Flights* Eighteen months before Kathryn Schulz's beloved father died, she met the woman she would marry. In *Lost & Found*, she weaves the stories of those relationships into a brilliant exploration of how all our lives are shaped by loss and discovery—from the maddening disappearance of everyday objects to the sweeping devastations of war, pandemic, and natural disaster; from finding new planets to falling in love. Three very different American families form the heart of *Lost & Found*: the one that made Schulz's father, a charming, brilliant, absentminded Jewish refugee; the one that made her partner, an equally brilliant farmer's daughter and devout Christian; and the one she herself makes through marriage. But Schulz is also attentive to other, more universal kinds of conjunction: how private happiness can coexist with global catastrophe, how we get irritated with those we adore, how love and loss are themselves unavoidably inseparable. The resulting book is part memoir, part guidebook to living in a world that is simultaneously full of wonder and joy and wretchedness and suffering—a world that always demands both our gratitude and our grief. A staff writer at *The New Yorker* and winner of the Pulitzer Prize, Kathryn Schulz writes with curiosity, tenderness, erudition, and wit about our finite yet infinitely complicated lives. Crafted with the emotional clarity of C. S. Lewis and the intellectual force of Susan Sontag, *Lost & Found* is an uncommon book about common experiences.

At the end of a turbulent decade came the end of their tender innocence. The backdrop of Woodstock and peace and love in the late Sixties, and Vietnam and war and destruction in the early Seventies sets the metaphoric stage for two families struggling to survive amongst themselves and in a changing, volatile world. The first book in the *Lost in the Flood* trilogy begins with a tragic murder but ends with the hope of justice and a dying family's journey toward healing and rebirth.

This approachable Lent course invites us to view sin as something to be understood, rather than condemned. It argues that our darker traits must be coaxed into the light in order to manage them and work towards healing and renewal. An intriguing choice for both personal and group reflection.

Welcome to *The Lost Apothecary*... Hidden in the depths of eighteenth-century London, a secret apothecary shop caters to an unusual kind of clientele.

Women across the city whisper of a mysterious figure named Nella who sells well-disguised poisons to use against the oppressive men in their lives. But the apothecary's fate is jeopardized when her newest patron, a precocious twelve-year-old, makes a fatal mistake, sparking a string of consequences that echo through the centuries. Meanwhile in present-day London, aspiring historian Caroline Parcewell spends her tenth wedding anniversary alone, running from her own demons. When she stumbles upon a clue to the unsolved apothecary murders that haunted London two hundred years ago, her life collides with the apothecary's in a stunning twist of fate—and not everyone will survive. With crackling suspense, unforgettable characters and searing insight, *The Lost Apothecary* is a subversive and intoxicating debut novel of secrets, vengeance and the remarkable ways women can save each other despite the barrier of time.

The acclaimed editor of *The New York Times Book Review* takes readers on a nostalgic tour of the pre-Internet age, offering powerful insights into both the profound and the seemingly trivial things we've lost. "A deft blend of nostalgia, humor and devastating insights."--People Remember all those ingrained habits, cherished ideas, beloved objects, and stubborn preferences from the pre-Internet age? They're gone. To some of those things we can say good riddance. But many we miss terribly. Whatever our emotional response to this departed realm, we are faced with the fact that nearly every aspect of modern life now takes place in filtered, isolated corners of cyberspace--a space that has slowly subsumed our physical habitats, replacing or transforming the office, our local library, a favorite bar, the movie theater, and the coffee shop where people met one another's gaze from across the room. Even as we've gained the ability to gather without leaving our house, many of the fundamentally human experiences that have sustained us have disappeared. In one hundred glimpses of that pre-Internet world, Pamela Paul, editor of *The New York Times Book Review*, presents a captivating record, enlivened with illustrations, of the world before cyberspace--from voicemails to blind dates to punctuation to civility. There are the small losses: postcards, the blessings of an adolescence largely spared of documentation, the Rolodex, and the genuine surprises at high school reunions. But there are larger repercussions, too: weaker memories, the inability to entertain oneself, and the utter demolition of privacy. *100 Things We've Lost to the Internet* is at once an evocative swan song for a disappearing era and, perhaps, a guide to reclaiming just a little bit more of the world IRL.

***Inspired by an astonishing true story from World War II, a young woman with a talent for forgery helps hundreds of Jewish children flee the Nazis in this unforgettable historical novel from the international bestselling author of the "epic and heart-wrenching World War II tale" (Alyson Noel, #1 New York Times bestselling author) The Winemaker's Wife. Eva Traube Abrams, a semi-retired librarian in Florida, is shelving books one morning when her eyes lock on a photograph in a magazine lying open nearby. She freezes; it's an image of a book she hasn't seen in sixty-five years—a book she recognizes as The Book of Lost Names. The accompanying article discusses the looting of libraries by the Nazis across Europe during World War II—an experience Eva remembers well—and the search to reunite people with the texts taken from them so long ago. The book in the photograph, an eighteenth-century religious text thought to have been taken from France in the waning days of the war, is one of the most fascinating cases. Now housed in Berlin's Zentral- und Landesbibliothek library, it appears to contain some sort of code, but researchers don't know where it came from—or what the code means. Only Eva holds the answer—but will she have the strength to revisit old memories and help reunite those lost during the war? As a graduate student in 1942, Eva was forced to flee Paris after the arrest of her father, a Polish Jew. Finding refuge in a small mountain town in the Free Zone, she begins forging identity documents for Jewish children fleeing to neutral Switzerland. But erasing people comes with a price, and along with a mysterious, handsome forger named Rémy, Eva decides she must find a way to preserve the real names of the children who are too young to remember who they really are. The records they keep in The Book of Lost Names will become even more vital when the resistance***

*“If you enjoyed Sarah’s Key and Kristin Hannah’s *The Nightingale*, then this wonderful book by Ann Mah is for you.” -- Tatiana de Rosnay *Sweetbitter* meets *The Nightingale* in this page-turning novel about a woman who returns to her family’s ancestral vineyard in Burgundy and unexpectedly uncovers a lost diary, an unknown relative, and a secret her family has been keeping since World War II. To become one of only a few hundred certified wine experts in the world, Kate must pass the notoriously difficult Master of Wine examination. She’s failed twice before; her third attempt will be her last chance. Suddenly finding herself without a job and with the test a few months away, she travels to Burgundy to spend the fall at the vineyard estate that has belonged to her family for generations. There she can bolster her shaky knowledge of Burgundian vintages and reconnect with her cousin Nico and his wife, Heather, who now oversee day-to-day management of the grapes. The one person Kate hopes to avoid is Jean-Luc, a talented young winemaker and her first love. At the vineyard house, Kate is eager to help her cousin clean out the enormous basement that is filled with generations of discarded and forgotten belongings. Deep inside the cellar, behind a large armoire, she discovers a hidden room containing a cot, some Resistance pamphlets, and an enormous cache of valuable wine. Piqued by the secret space, Kate begins to dig into her family’s history—a search that takes her back to the dark days of World War II and introduces her to a relative she never knew existed, a great-half aunt who was a teenager during the Nazi occupation. As she learns more about her family, the line between resistance and collaboration blurs, driving Kate to find the answers to two crucial questions: Who, exactly, did her family aid during the difficult years of the war? And what happened to six valuable bottles of wine that seem to be missing from the cellar’s collection?*
