Lorraine Miller weaves a multi-coloured tapestry of her quest to true self, an inward and outward journey both heartbreaking and inspiring with startling revelations and quantum-consciousness experiences. Part One recounts childhood tragedies and unexplained past-life memories while growing up on Long Island, New York. A past-life encounter while travelling in Greece continues the process of accepting new realities. Moving across country to Arizona, a near-death accident shortly after her move and later the near-loss of her only child followed by his miraculous recovery leads to greater awareness of higher spiritual forces. Part Two tells of her quest for self-empowerment and healing through metaphysical studies and alternative therapies as she breaks away from the past and an unhappy marriage. Her life-long affinity with the animal kingdom through insightful stories shows how animals play an important role in our evolution and how we help them to evolve as well. Annotated with insights from astrology by renowned astrologer, Philip Comi, he gives validation to the energies of life events as she experienced them. Lorraine Miller has over twenty-five years of study of religion, metaphysics and healing methodologies. She was licensed by the State of Arizona as a Certified Clinical Hypnotherapist in 1992.

Everybody loves a good mystery and sometimes the questions can be more interesting than the answers. Will Pearson investigates twenty unique mysteries with their broad spectrum of strangeness. Some, like the sudden disappearance of the sailing ship Mary Celeste's passengers and crew have gained universal currency. Was the Wow! Signal a radio transmission from deep space, or was it the ambient resonating frequency of a passing comet? Cryptids like Bigfoot and the Loch Ness Monster teeter on the boundaries of probable and improbable, hoax and reality, fact and fiction. Whether it be the intrigue of lost civilisations, like Göbekli Tepe in Turkey, sensationalist interest in The Zodiac Killer, or the elusive Shugborough Code that neither Dickens nor Darwin could crack, each unsolved mystery presents a challenge in its own way. Occasionally, it can feel as if there's a conspiracy at work - one in which scientists, journalists and 'professional explainers' want to put an end to anything and everything mysterious in life. Thankfully, not everything can be nailed down, sucked dry of its secrets and turned into a factoid. Mysteries do still exist - and continue to tease us. Sceptic or believer, the fun lies in probing them.

For the first time, psychological strategies for surviving the astrological fallout of turning the big 3-0! Many young women approach their 30th birthdays with anxiety. They suddenly notice every tiny wrinkle, question the speed of their corporate ladder climb, or suffer from a biological clock that rivals Big Ben. Is it vanity, fear of aging, early midlife crisis, or insanity? It's actually the result of what astrologers call the "Saturn Return," a phenomenon occurring every 28 years, when Saturn completes its cycle through an individual's birth chart. At this crucial juncture, women often experience a crisis of self, unexplained chaotic feelings, or the uncertainty of personal and professional crossroads. In Surviving Saturn's Return, the first book to explore the subject, the authors combine their psychological and astrological expertise to demystify this cosmic source of strife and offer self-help strategies for surviving, even thriving, during this "quarterlife" crisis. In a fun, friendly, and reassuring tone, they explain how to deal with everything from the father complex to money to marriage to maturing confidently into adulthood.

A BREAKTHROUGH IN THE SCIENTIFIC STUDY OF ASTROLOGY: ASTROLOGY OFF THE BEATEN TRACK bridges the deep divide between astrology and modern science. It represents a major breakthrough and an exceptional achievement, as this book is a synthesis of the only rigorous scientific study of astrology conducted by a high profile scientist who spent 40 years of her life investigating astrology. After finding fault with today's scientists, who with contempt and prejudice have refused to put astrology to the test, Dr. Suzel Fuzeau-Braesch decided to conduct her own investigation to either confirm or discredit astrology. After studying the work of ancient astrologers and contemporary researchers, as well as modern statisticians and biologists, she undertook an original research program that has extended the boundaries of our understanding of astrology and science. Most intriguingly, Fuzeau-Braesch examined the characteristics of purebred dogs and cloned cows - and, to the dismay of skeptics, found that some astrological tools and concepts can be confirmed by hard science. She discovered that beyond the longstanding errors, blind spots, and confused thinking inherent in most astrological techniques lies a real and still unexplained interaction between personality and planets. Throughout her personal and professional journeys, Fuzeau-Braesch has charted a path for those who find value in interdisciplinary studies that are based on true science, rather than personal or professional biases or magical thinking. Her wide ranging work is a thoughtful step toward creating a new kind of scientific thinking, one that will appeal to readers with a profound curiosity about the mysteries of our universe.

Can we see into the future to tell if we are going to be happy or rich? What does fate have in store for us? These are the kinds of questions that come up when most people think about the future. It seems like mere fortune-telling or, worse, just plain superstition. Rather than predicting the future, however, divination provides insight and guidance to help a person create the future. This book is an overview of contacting part of the human mind that resides in the unconscious, providing greater perspective and access to psychic abilities. Astrology and Divination is an overview of the many divination methods that have existed in human culture around the world since prehistoric times. Delving into the reasoning and psychology of divination, it looks at divination methods including astrology, palmistry, and other body readings, the I Ching, and other oracular methods. Chapters include: Confronting the Divine, Omens, Astrology, Divination Games and The Tarot.

The Zodiac Killer was a serial killer who operated in the northern California and San Francisco Bay areas in the late 1960's and 70's. He sent a number of codes, letters, and a map to taunt the police and frighten the public. Only one of his codes was ever solved and may yet hold untold secrets. If you are the kind of person who likes crossword puzzles and brain teasers but you are bored of the same old things that in the end don't mean anything after you solve them, and want to try out your talent on something real; then this is the book for you. My name is Randall Clemons and I have been researching the Zodiac and his codes for the last ten years. In this book, I will show you how his codes are not what they seem. I will show you how they work with his map in a series of overlays and how they may connect to an unsolved murder of a girl named Susan Nason. He sent two bomb drawings, one of which is also a map overlay and one shows signs it is to be folded. The one that matches the map in an overlay is a threat against a school, and the place it marks is a school. It also marks a section of highway with a string of bombs. In this book I tell you the basic story, introduce you to the kinds of codes and puzzles I think Zodiac copied as well as where he got the idea from. Then you will be familiarized with the codes and what I have found which will amaze you. The puzzle still isn't finished and I need your help to solve the Zodiac Killer Enigma. I will show you how his codes are all connected to one another and how they are not just limited to his known codes but how they are hidden all throughout his letters for people to discover. In this Part 1 of a two-part series, you will read and learn all of that while being fascinated at the same time. In part two of this two-part series, you will see all of his letters in their entirety for you to read and study so you can do your own code-breaking and puzzle solving. Zodiac meant for all of these letters to be published in the papers so the people in the general public could find his riddles and solve his puzzle and maybe even catch him. The majority of his letter was kept from the public for years, so the codes were never solved like he intended. They couldn't be because the people trying to solve them did not have all of the puzzle pieces. I will show you a whole new take on the Zodiac codes and that anyone, even you are capable of figuring them out and solving the rest of the puzzle. Part two of this series also exhibits all of the crime scene and victim photos, and they have been colorized. It also has a Department Of Justice Special Report, handwriting comparisons and more for the reader to study and investigate. You can become an amateur sleuth and code breaker after you see what I have to show you. So if you like mystery, puzzles, codes, true crime, then you need to read this book and maybe you can even solve the rest of the puzzle, and remember, Zodiac was never captured. He could still be out there today. He could be your next-door neighbor, he could be the man standing behind you at the grocery store, he could be your one of your friends or family. So take a look at what I have to show you and try the codes for your self, who knows what you will find?

May you even find him?

Then there's the Eye of Know, the possibly powerful crystal amulet Monty bought online. Will it help her predict the future or fight back against the ignorant jerks who make fun of Thomas for being gay or Monty for having lesbian moms? Maybe the Eye is here just in time, because the newest resident of their small town is scarier than mothmen, poltergeists, or, you know, gym. An Unexplained Death is an obsessive investigation into a mysterious death at the Belvedere—a once-grand hotel—and a poignant, gripping meditation on suicide and voyeurism “The poster is new. I notice it right away, taped to a utility pole. Beneath the word ‘Missing,’ printed in a bold, high-impact font, are two sepia-toned photographs of a man dressed in a bow tie and tux.” Most people would keep walking. Maybe they’d pay a bit closer attention to the local news that evening. Mikita Brottman spent ten years sifting through the details of the missing man’s life and disappearance, and his purported suicide by jumping from the roof of her own apartment building, the Belvedere. As Brottman delves into the murky circumstances surrounding Rey Rivera’s death—which begins to look more and more like a murder—she contemplates the nature of and motives behind suicide, and uncovers a haunting pattern of guests at the Belvedere, when it was still a historic hotel, taking their own lives on the premises. Finally, she fearlessly takes us to the edge of her own morbid curiosity and asks us to consider our own darker impulses and obsessions.
