redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Unfinished Agenda chronicles the turbulent times during the Civil Rights Movement and Williams's participation every step of the way including his experiences on the front lines of racial riots in Newark and the historic riot in Montgomery, Alabama with Dr. Martin Luther King Jr. Williams speaks of his many opportunities and experiences--beginning with his education at Amherst College and Yale Law School, his travel to Uganda and Kenya, and working in Harlem. His passion for fighting racism ultimately led him to many years of service in politics in Newark, New Jersey as a community organizer and leader. Williams advocates for renewed community organizing and voting for a progressive party to carry out the "Unfinished Agenda" the Black Power Movement outlined in America during the 60s and early 70s for empowerment of the people.

"Hollywood films are perhaps the most powerful storytellers in American history, and their depiction of race and culture has helped to shape the way people around the world respond to race and prejudice. Over the past one hundred years, films have moved from the radically-prejudiced views of people of color to the depiction of people of color by writers and filmmakers from within those cultures. In the process, we begin to see how films have depicted negative versions of people outside the white mainstream, and how film might become a vehicle for racial reconciliation. Religious traditions offer powerful correctives to our cultural narratives, and this work incorporates both narrative truth-telling and religious truth-telling as we consider race and film and work toward reconciliation. By exploring the hundred-year period from *The Birth of a Nation* to *Get Out*, this work acknowledges the racist history of America, and offers

In the 21st century, the world is faced with threats of global scale that cannot be confronted without collective action. Although global government as such does not exist, formal and informal institutions, practices, and initiatives—together forming "global governance"—bring a greater measure of predictability, stability, and order to trans-border issues than might be expected. Yet, there are significant gaps between many current global problems and available solutions. Thomas G. Weiss and Ramesh Thakur analyze the UN's role in addressing such knowledge, normative, policy, institutional, and compliance lapses. The UN's relationship to these five global governance gaps is explored through case studies of some of the most burning problems of our age, including terrorism, nuclear proliferation, humanitarian crises, development aid, climate change, human rights, and HIV/AIDS.

When Christie Purifoy arrived at Maplehurst that September, she was heavily pregnant with both her fourth child and her dreams of creating a sanctuary that would be a fixed point in her busily spinning world. The sprawling Victorian farmhouse sitting atop a Pennsylvania hill held within its walls the possibility of a place where her family could grow, where friends could gather, and where Christie could finally grasp and hold the thing we all long for--home. In lyrical, contemplative prose, Christie slowly unveils the small trials and triumphs of that first year at Maplehurst--from summer's intense heat and autumn's glorious canopy through winter's still whispers and spring's gentle mercies. Through stories of planting and preserving, of opening the gates wide to neighbors, and of learning to speak the language of a place, Christie invites readers into the joy of small beginnings and the knowledge that the kingdom of God is with us here and now. Anyone who has felt the longing for home, who yearns to reconnect with the beauty of nature, and who values the special blessing of deep relationships with family and friends will love finding themselves in this story of earthly beauty and soaring hope.

“Beautifully written and refreshingly original . . . makes us see [Paris] in a different light.”—San Francisco Chronicle Book Review Swapping his native San Francisco for the City of Light, travel writer David Downie arrived in Paris in 1986 on a one-way ticket, his head full of romantic notions. Curiosity and the legs of a cross-country runner propelled him daily from an unheated, seventh-floor walk-up garret near the Champs-Élysées to the old Montmartre haunts of the doomed painter Modigliani, the tombs of Père-Lachaise cemetery, the luxuriant alleys of the Luxembourg Gardens and the aristocratic Île Saint-Louis midstream in the Seine. Downie wound up living in the chic Marais district, married to the Paris-born American photographer Alison Harris, an equally incurable walker and chronicler. Ten books and a quarter-century later, he still spends several hours every day rambling through Paris, and writing about the city he loves. An irreverent, witty romp featuring thirty-one short prose sketches of people, places and daily life, *Paris, Paris: Journey into the City of Light* ranges from the glamorous to the least-known corners and characters of the world's favorite city. coaster journey through the decades since World War II. Considering both the paradoxes and the possibilities of post-war America, Chafe portrays the significant cultural and political themes that have colored our country's past and present, including issues of race, class, gender, foreign policy, and economic and social reform. He examines such subjects as the Vietnam War, the Civil Rights movement, the origins and the end of the Cold War, the culture of the 1970s, the Reagan years, the Clinton presidency, and the events of September 11th and their aftermath. In this edition, Chafe provides an insightful assessment of Clinton's legacy as president, particularly in light of his impeachment, and an entirely new chapter that examines the impact of two of America's most pivotal events of the twenty-first century: the 2000 presidential election turmoil and the September 11th terrorist attacks. A New York Times Book Review Editors' Choice. One of Library Journal's Best Books of 2020. One of our most beloved writers reassess the electrifying works of literature

that have shaped her life I sometimes think I was born reading . . . I can't remember the time when I didn't have a book in my hands, my head lost to the world around me. Unfinished Business: Notes of a Chronic Re-reader is Vivian Gornick's celebration of passionate reading, of returning again and again to the books that have shaped her at crucial points in her life. In nine essays that traverse literary criticism, memoir, and biography, one of our most celebrated critics writes about the importance of reading—and re-reading—as life progresses. Gornick finds herself in contradictory characters within D. H. Lawrence's Sons and Lovers, assesses womanhood in Colette's The Vagabond and The Shackle, and considers the veracity of memory in Marguerite Duras's The Lover. She revisits Great War novels by J. L. Carr and Pat Barker, uncovers the psychological complexity of Elizabeth Bowen's prose, and soaks in Natalia Ginzburg, "a writer whose work has often made me love life more." After adopting two cats, whose erratic behavior she finds vexing, she discovers Doris Lessing's Particularly Cats. Guided by Gornick's trademark verve and insight, Unfinished Business is a masterful appreciation of literature's power to illuminate our lives from a peerless writer and thinker who "still read[s] to feel the power of Life with a capital L."

Yehudi Menuhin was a legend in his own time. Born in April 1916 in New York of Russian-Jewish parents, he made his extraordinary debut at the age of seven, playing

Lalo's notoriously difficult Symphonie espagnole with the San Francisco Symphony Orchestra. By the time he was eleven he had made historic debuts in Paris and New York, at twelve in Berlin and at thirteen in London, thus launching himself on a career that was to take him all over the world in the ensuing decades, playing with leading conductors and orchestras. Alongside his renown as a great musician, he is equally remembered for his committed humanitarianism, exemplified by his championship of young musicians and his work for international understanding and the many causes close to his synoptic mind and generous spirit. Yehudi Menuhin was made a life peer in 1993 after having received the Order of Merit from H.M. the Queen. Other honours include the Grand Cross of Merit from both Germany and Spain, the Grand Officier de la Legion d'Honneur from France and the Ordre de la Couronne from Belgium. He was an Honorary Doctor of thirty universities in different countries, including Oxford, Cambridge, St Andrews and the Sorbonne. First published in 1976, Lord Menuhin's autobiography was updated by him and reissued in 1996. This is the first paperback publication of that edition, now supplemented by a preface by Christopher Hope and a concluding chapter by Michael Binyon. Unfinished Journey tells the full story and reflects the many and varied interests of one of the most gifted musicians and original intellects of the twentieth century.

Library Alberta Readers' Choice Award Fans of Kim Edwards' *The Memory Keeper's Daughter* will love this unforgettable and inspiring tale about the complex bonds of family, friendship, and motherhood. When Marie MacPherson, a mother of two, finds herself unexpectedly pregnant at thirty-nine, she feels guilty. Her best friend, Eli, has never been able to conceive, despite years of fertility treatments. Marie's dilemma is further complicated when she becomes convinced something is wrong with her fetus, then enters the world of genetic testing and is entirely unprepared for the decisions that lie ahead. Intertwined throughout the novel is the story of Margaret, who gave birth to a daughter with Down syndrome in 1947, when such infants were defined as "unfit" children. As the novel shifts back and forth through the decades, the lives of the two women converge, and the story speeds to an unexpected conclusion. With skill and grace, debut novelist Theresa Shea dramatically explores society's changing views of Down syndrome over the past sixty years. The story offers an unflinching and compassionate history of the treatment of people with Down syndrome and their struggle for basic human rights. Ultimately, *The Unfinished Child* is an unforgettable and inspiring tale about the mysterious and complex bonds of family, friendship, and motherhood. In this moving sequel to her national bestseller *A Year by the Sea*, Joan Anderson explores the challenges of rebuilding and renewing a marriage with her trademark candor, compassion, and insight. in many tens of thousands of readers. Her brave decision to take a year for herself from her marriage, her frank assessment of herself at midlife, and her openness in sharing her fears as well as her triumphs won her admirers and inspired women throughout the country to reconsider their options. In this new book, Anderson does for many what she did for women at midlife. Using the same very personal approach, she shares her own rocky path to renewing a marriage gone stale, satisfying the demand from readers and reviewers to learn what comes next. When Joan and her husband Robin decided to repair and renew their marriage after her eye-opening year of self-discovery, the outcome was far from certain. He had suddenly decided to retire and move to God himself and embark on his own journey of midlife reinvention. After the initial shock of incorporating another person back into Joan's daily life and her treasured cottage, they begin the process of "recycling"—using the original materials of their marriage to create a new partnership. Rereading the letters that she had written from Uganda in the early years of their marriage, she is reminded about the nervousness and joy with which she began their life together. Her sudden incapacitation with a broken ankle reveals an unexpected resourceful and tender side in her husband. A grimly comic strained dinner party with three other couples reveals to both Joan and Robin some emotional pitfalls (and horrors) that can befall married couples. In her year of solitude by the sea, Anderson learned that "there is no greater calling than to make a new

In *An Unfinished Marriage*, she charts the new journey she and her husband have begun together, seasoned by their years of marriage and awakened to the possibilities of their future together. The *UnFinished Book* is Kristen's search for answers found in mysteries beyond the veil. From pew, row seven, left-hand side, fifty years later Jesus reveals to her what she saw the day she met Him. Her candid pen writes a witness that carries the reader into the heavenly realms. It's obvious she has wrestled with truths and hope is no longer a distant dream. The Second Vatican Council, which ended thirty-five years ago, promised so much: a vision of a reformed Church aware of its social, theological and ecumenical responsibilities; a truly conciliar Church with collegial structures. However, this vision seems to have evaporated and many of the promised reforms have been truncated or not happened at all. The Vatican remains intensely bureaucratic. Theologians are silenced and the effect of clerical scandal seems to have led Church leaders to see the deposit of faith as something static. Once again the Church believes it has a monopoly on the truth and millions of people feel marginalized and excluded. original and wide-ranging book, Dostoevsky scholar Robin Feuer Miller approaches the author's major works from a variety of angles and offers a new set of keys to understanding Dostoevsky's world. Taking Dostoevsky's own conversion as her point of departure, Miller explores themes of conversion and healing in his fiction, where spiritual and artistic transfigurations abound. She also addresses questions of literary influence, intertextuality, and the potency of what the author termed "ideas in the air." For readers new to Dostoevsky's writings as well as those deeply familiar with them, Miller offers lucid insights into his works and into their continuing power to engage readers in our own times.

The system won't do it for us. But we have each other. In *The Imperfect and Unfinished Math Teacher: A Journey to Reclaim Our Professional Growth*, master storyteller Chase Orton offers a vulnerable and courageous grassroots guide that leads K-12 math teachers

through a journey to cultivate a more equitable, inclusive, and cohesive culture of professionalism for themselves...what he calls professional flourishing. The book builds from two bold premises. First, that as educators, we are all naturally imperfect and unfinished, and growth should be our constant goal. Second, that the last 40 years of top-down PD efforts in mathematics have rarely supplied teachers with what they need to equitably grow their practice and foster classrooms that are likewise empowered, inclusive, and cohesive. With gentle humanity, this book inspires teachers to break down silos, observe each others' classrooms, interrogate their own biases, and put students at the center of everything they do in the math classroom. This book: Weaves raw and authentic stories—both personal and those from other educators—into a relatable and validating narrative Offers interactive opportunities to self-reflect, build relationships, seek new vantage on our teaching by observing others' classrooms and students, and share and listen to other's stories and experiences Asks teachers to give and accept grace as they work collaboratively to better themselves and the system from within, so that they can truly serve each of their students authentically and equitably Implementing the beliefs and actions in this book will position teachers to become more active partners in each other's professional growth so that they can navigate the obstacles in their professional landscape with renewed focus and a greater sense of individual and collective efficacy. It equips teachers—and by extension, their students—to chart their own course and author their own equitable and joyful mathematical and professional stories.

“An elegant, impassioned demand that America see gender-based violence as a cultural and structural problem that hurts everyone, not just victims and survivors... It's at times downright virtuosic in the threads it weaves together.”—NPR From the woman who gave the landmark testimony against Clarence Thomas as a sexual menace, a new manifesto about the origins and course of gender violence in our society; a combination of memoir, personal accounts, law, and social analysis, and a powerful call to arms from one of our most prominent and poised survivors. In 1991, Anita Hill began something that's still unfinished work. The issues of gender violence, touching on sex, race, age, and power, are as urgent today as they were when she first testified. Believing is a story of America's three decades long reckoning with gender violence, one that offers insights into its roots, and paths to creating dialogue and substantive change. It is a call to action that offers guidance based on what this brave, committed fighter has learned from a lifetime of advocacy and her search for solutions to a problem that is still tearing America apart. We once thought gender-based violence--from casual harassment to rape and murder--was an individual problem that affected a few; we now know it's cultural and endemic, and happens to our acquaintances, colleagues, friends and family members, and it can be physical, emotional and verbal. Women of color experience sexual harassment at higher rates than White women. Street harassment is ubiquitous and can escalate to violence. Transgender and nonbinary people are particularly vulnerable. Anita Hill draws on her years as a teacher, legal scholar, and advocate, and on the experiences of the thousands of individuals who

have told her their stories, to trace the pipeline of behavior that follows individuals from place to place: from home to school to work and back home. In measured, clear, blunt terms, she demonstrates the impact it has on every aspect of our lives, including our physical and mental wellbeing, housing stability, political participation, economy and community safety, and how our descriptive language undermines progress toward solutions. And she is uncompromising in her demands that our laws and our leaders must address the issue concretely and immediately.

Brilliantly written by a prize-winning historian, *The Unfinished Journey, Eighth Edition*, considers both the paradoxes and the possibilities of postwar America. William H. Chafe portrays the significant cultural and political themes that have colored our country's past and present, including issues of race, class, gender, foreign policy, and economic and social reform. He examines such subjects as the Vietnam War, the civil rights movement, the origins and the end of the Cold War, the culture of the 1970s, the rise of the New Right, the events of September 11th and their aftermath, and various presidencies.

Edited by Christine Sylvester, a leading scholar in the field, it is

a five-volume collection which brings together the best and most influential cutting-edge and canonical feminist IR scholarship. Feminist International Relations can be seen as a project by feminists to influence international relations—both as a set of practices (e.g. war, diplomacy, terrorism, aid, and trade) and as a set of theories (such as realism, liberal institutionalism, and constructivism). Adopting a combined thematic and chronological structure, the collection brings together the work of indisputable luminaries in this project, as well as vital research from new generations of scholars. Volumes I and II ('Muses') cover the years before 1985 and collects key works that influenced early feminist IR thinking. Work from women's studies, philosophy, history, sociology, and the history of science is included here. Volume III ('1985–96') brings together the most important earliest recognizably feminist IR writings from that period. The fourth volume in the collection ('Wider Influences') gathers the best of newer writings from cognate fields and from the rise of cultural theory, postcolonial studies, and gay and lesbian studies. The final volume ('1997–2009') focuses on scholarship produced from the mid-1990s to the present day, material that is characterized by a broadening of themes, geographical interests, and theories. With comprehensive introductions to each volume, newly written by the editor, which
