

Untethered Shifter Night Book 1

A New York City family's remarkable story of how they gave up their urban life, packed up their family of seven--the youngest, a six-year-old with Down syndrome--and braved the difficult conditions of the Atlantic Ocean as they sailed more than 2,500 miles from New York to and around the Caribbean. They thought of all the reasons why risking

everything for a year at sea was a bad idea: They could go broke, get injured, be stranded at sea--maybe even die. More than likely, the only thing they would accomplish would be to embarrass themselves. Besides, only rich people sailed the world, right? Not a NYC theater family with five kids who would serve as the ship's entire crew. After all the deliberations, one thing was clear: their children would either be an excuse or a reason. They chose to set sail. Their journey proved to be a life-changing experience as

they grew closer as a family and explored the world in a new way. They traveled to twenty-three islands, spanning eleven countries and territories, and got a hands-on global education while meeting new people and appreciating a variety of cultures. They experienced the beauty and fragility of the earth as well as the vastness and power of the sea. Working together as a family and a sailboat crew meant learning how to tackle hard challenges together, helping each other improve their skills, and exercising patience

when difficult conditions emerged. Seven at Sea tells the story of a family learning to live together, simply and in harmony with the natural world. In doing so, they learned that giving up control can sometimes lead to amazing adventures. More importantly, they discovered how little they actually needed to be abundantly happy.

A treasury of meditations for living from your heart—from a top teacher at the #1 online meditation service InsightTimer. In our noisy, noisy world, it can seem nearly impossible to

find ways to turn off our busy minds, which so often flood us with worry and unending lists of tasks. So how do you find your way off the negativity treadmill? When you feel overwhelmed and afraid, how can you return to a place of groundedness and connection? “When we turn toward our hearts, we arrive like a bolt of lightning in the present moment, and all our arguments against ourselves and life go quiet,” teaches Sarah Blondin. “No matter where you are, no matter what you are doing, you can touch

this place in yourself to feel free and alive.” With poetic brilliance and skillful instruction, this renowned teacher brings you a treasury of meditations and spiritual teachings to help you detach from your busy mind and tune into your feeling heart. As the students of her popular online trainings can attest, these simple and powerful practices can instantly bring you into a deeper connection with yourself and others. And you can go back to these meditations whenever you feel overwhelmed, disconnected, or afraid. Read

WITNESS IN HIDING After exposing an illegal adoption ring, newly named "Kara Grant" is promised safety in Witness Protection. But someone has found her—and wants her dead. If only she could trust the handsome

firefighter who catches her fleeing from a suspicious fire. Jake Steele seems to think she's guilty of burning her own home. But how can she tell him who she really is and what she's been through without bringing danger to the widowed single father's door? Yet with the criminals quickly closing in, taking such a risk might be her only chance at survival. Because the price she'll pay for her silence could be her life.

By his early thirties, Paul Allen was a world-famous billionaire-and that was just the

beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to

share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty,

humor, and insight, Allen tells the story of a life of ideas made real.

UPDATED FOR 2020 WITH A NEW PREFACE BY NATE SILVER "One of the more momentous books of the decade." –The New York Times Book Review

Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work, Silver examines the

world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the "prediction paradox": The more humility we have about our ability to make predictions, the more successful we can be in planning for the

future. In keeping with his own aim to seek truth from data, Silver visits the most successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an

absolute sense that matters but how good it is relative to the competition. In other cases, prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from the noise. With everything from the health of the global

The damaged machinery, unforgiving environment, or plain-old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills—and a relentless, dogged refusal to quit—he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him?

damaged tissue is repaired, and our memories are stored. When we don't get enough sleep, we are tired, less positive, less motivated, less focused, and more likely to feel depressed. We may even experience more intense cravings for high-fat, sugar-rich foods. And yet, despite the myriad advantages of getting a good night's sleep, countless people suffer from chronic insomnia. If you're one of them, this book can help. In this guide, a trained mindfulness expert teams up with a behavioral sleep specialist to offer evidence-based meditations and an innovative four-week protocol to address the emotional stresses and anxieties that lie at the root of sleep issues. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success is not in our innate intelligence, but in our collective brains—the ability of human groups to socially interconnect and learn from one another over generations. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. desperate. Ever since her husband ran off with another woman, her business has been in the toilet. Who wants to take advice on love from someone who couldn't keep her own husband happy? No one, that's who. At least, no one in their right mind. On the verge of bankruptcy, a very gorgeous, nut-job of a guy walks through her door. He claims not to be human. Yeah right! Her first instinct is to kick him out. Then he hands her a suitcase full of money.

him. But Park left him woefully unprepared for the wolf pack politics and etiquette. Rival packs? A seating order at the dinner table? A mysterious figure named the Shepherd? The worst is that Park didn't tell his family one key thing about Cooper. Cooper feels two steps behind, and reticent Park is no help. There are plenty of pack members eager to open up about Park and why Cooper is wrong for him. Their stories make Cooper wonder if he's holding Park back. But there's no time to get into it...as lethal tranquilizer darts start to fly, Cooper needs to solve the mystery of the alpha's death and fight for

enough, it's to find a mate ... a sweet, human mate ... since shifter females are in such short supply. Winston wishes it was his turn to find a partner because he's done with all the screwing around. Done with all the meaningless one-night-stands. He might head into town when it's his turn, but he's staying far away from temptation. He'll wait until his name comes up on the mating list and then he'll settle down. His good intentions are blown to hell when he meets Ana, a timid female struggling with an event from her past. Who is this beautiful creature? This broken, sad shadow of herself.

Winston promises to help her. Hell, they'll help each other. He might have vowed celibacy but he's not dead. Not by a long damn shot. This way, he can spend time with a beautiful female without any expectations and in return, he'll help her get over her fears. Problem is though, friends should not be this attracted to one another. They definitely shouldn't be this intrigued by each other. Keeping his hands off of Ana is becoming an impossibility. Will he be able to let her go when the time comes? Thing is, he's not so sure anymore. Mini-cliffhanger! No cheating with a guaranteed HEA. The Story Contains

As she starts digging, she meets Ethan's estranged brother, Rafe, who agrees to work with Merci to find his brother's killer. She soon discovers Ethan had been hiding things from her, mainly that he was a Shifter and had a whole life in a supernatural world she knew nothing about. A Shifter himself, Rafe introduces Merci to magic she never knew existed. As they work together to uncover hidden connections between Ethan's murder and a series of strange dead bodies, they find themselves in

History of the Sixties

How a simple creative act spreads a message of love and acceptance around the world Emily's idea started small. Many beautiful ideas do. She folded, doodled, and snipped. But also, like many ideas, Emily's small idea grew. When a little girl decides to create a paper chain of dolls, her idea catches on. Then it spreads far and wide as children around the world begin to create and share their own. This is the story of how that girl's simple creative act spreads the message of love and acceptance around the world. For readers ages 4-8. Includes a make-your-own page to help you get started on your own paper doll chains. Every hundred years, tradition dictates that all eligible females in Sweetwater assemble for the choosing

ceremony. Two vampire kings have separate territories within the surrounding countryside. Both are eager to pick their future brides. What a waste of her freaking time. Tanya is among the many women at the choosing ceremony. As far as she's concerned it's an outdated, sexist event and if it wasn't mandatory she so wouldn't be here. It's not important that the two males are ridiculously rich and handsome. Deep down she knows a plain Jane like her will never be picked by one of the kings anyway. Many of the women in the town square are stunningly beautiful and model thin. Most seem enthusiastic about being a queen even if it means being mated to a blood sucker, which suits her just fine. Imagine her surprise though when King Brant sets his sights firmly on her. Once a vampire king has

decided, there's no going back. But her home is in Sweetwater. Being forced to live amongst the vampire species...big gulp...forced to mate with a vampire...is not what she had in mind for herself. Maybe she can convince him to let her go, to pick again. If not, she'll have to find a way to escape his - very muscled and rather delicious - clutches.

The 10th anniversary edition of A New Earth with a new preface by Eckhart Tolle. With his bestselling spiritual guide The Power of Now, Eckhart Tolle inspired millions of readers to discover the freedom and joy of a life lived “in the now.” In A New Earth, Tolle expands on these powerful ideas to show how transcending our ego-based state of consciousness is not only essential to personal happiness,

but also the key to ending conflict and suffering throughout the world. Tolle describes how our attachment to the ego creates the dysfunction that leads to anger, jealousy, and unhappiness, and shows readers how to awaken to a new state of consciousness and follow the path to a truly fulfilling existence. Illuminating, enlightening, and uplifting, *A New Earth* is a profoundly spiritual manifesto for a better way of life—and for building a better world. This is the final installment of this bestselling dragon shifter series... Tide isn't interested in taking part in the hunt. He doesn't like the concept. It isn't for him. One thing he does enjoy is the stag run. He plans on finding himself a tasty human female to hole up with for the night. What he doesn't expect is to find her stranded on the side of the

Standalone Vampire Novel Have you ever wanted

to date a vampire? Human women required. Must be enthusiastic about interactions with vampires. Must be willing to undergo a stringent medical exam. Must be prepared to sign a contractual agreement which would include a non-disclosure clause. Limited positions available...Jenna has a few skeletons in her closet. One of which is tall, dark and gorgeous. He also happens to be a vampire with a grudge against her. She's made mistakes and has done things she's not proud of. The time has come to take charge of her life. The opportunity to do just that comes along in the form of an acceptance into the infamous vampire

program. Would she like to date a vampire? Hell yes! But not just any vampire, her vampire. That is, if he'll ever forgive her. With such a dark past, she worries whether she'll ever be able to confront him and in so doing, bare her soul to him. It would kill her to see the disgust and contempt in his eyes when he finds out...her heart clenches and her eyes mist at the thought. Gideon is almost brought to his knees, when he realizes, that Jenna is one of the females that's taking part in the dating program. His Jenna. No! Not his. Not anymore. What the hell is she doing here? With all he knows about her, there's no way that she was able to meet all the minimum

criteria required for acceptance. Not a damned chance! He's not interested in her...or any human female for that matter. That said, he also refuses to just stand by and watch her get seduced by one of the victorious ten, elite males. His only option is to find a way to expose her as the deceptive female that she is. The story contains strong sexual themes/language and is not intended for readers under the age of 18. Although this is a standalone novel, it would be best enjoyed as a part of the series. No cliffhanger!

If you were given the chance to write your own future, and direct your own destiny, how would

your life change? In this book, the author shares her insights - as a classically trained theatrical actress, screenwriter and filmmaker - to allow everyone the opportunity to write, produce, and direct the movie of their lives.

"According to legend, when the world was young, the goddess Issaura appeared among men. Those who treated her with kindness received the gift of the gods--the ability to transform into an animal form. This was a great honor but one that separated this race from other humans. Before Issaura departed the mortal realm, she promised to return if her people were ever at the point of destruction.

"Now a threat is rising from a land across the mists of the ocean, a threat that will push this race to the brink of extinction. Responding to the call to war, seventeen-year-old Lluava heads off to find her destiny, one that will carve her name in history." The Kingdom of Elysia consists of two races: the dominant race of humans and the native race of Theriomorphs who can shift into animal form. Although law dictates equal treatment, they neither like nor trust each other. Now brutal and ruthless Raiders are approaching; there is only one chance to defeat them. An army must be raised and trained. An army where each human will be

paired with a Theriomorph partner. An army that must fight as one to defeat their common enemy. Women are not warriors. However, Lluava is not like other women - human or Theriomorph. Her animal form is a magnificent beast whose power and fury she must learn to control. Although Lluava endures intense physical training and strives to overcome the doubts of the male recruits, she faces an unexpected adversary in the commanding general who seeks to break both her spirit and her body. At the paring ceremony, Lluava is humbled when presented with a unique and ancient weapon. Yet she becomes distraught

and angry when her human partner is revealed. If they fail to trust each other, the consequences will be devastating. Death and destruction are on the horizon and time is running out. The Incarn Saga is a young adult fantasy series inspired by ancient myths, filled with fast-paced action and adventure, and enriched by an understanding of animal behavior that defines the shape-shifting Theriomorphs.
