"This is the most gentle of books, a peaceful pastime. The delicacy of Sara Midda's art is enchanting. Anyone who is a gardener, or who has worked with plants in nature, will respond to what she has put forth so exquisitely," wrote Joan Lee Faust, Garden Editor of The New York Times. Diana Vreeland praised it as "delightful and delicious," Time magazine as "Cause for revel," and Laura Ashley called it "pure inspiration." In scores and scores of

delicate illustrations and tender reflections, the author recalls the English gardens her childhood and the gardens she tends now, to reveal surprises both dainty and daring. The colorings and imaginings make the fancy soar with pleasure, as she creates the most elegant and subtle of books to give and to have, a book to cherish as dearly as a volume of treasured poetry. Computers are at the center of almost everything related to audio. Whether for synthesis in music production, recording in the studio, or mixing in live sound, the computer plays an essential part. Audio effects plug-ins and virtual instruments are implemented as software computer code. Music apps are computer programs run on a mobile device. All these tools are created by programming a computer. Hack Audio: An Introduction to Computer Programming and Digital Signal Processing in MATLAB provides an introduction for musicians and audio engineers interested in computer programming. It is intended for a range of readers including those with years of programming experience and those ready to write their first line of code. In the book, computer programming is used to create audio effects using digital signal processing. By the end of the book, readers implement

covers cards for every occasion with instructions, practical advice, and handy tips.

Sashiko, the traditional Japanese technique of needlework quilting, uses simple running stitch to create beautifully decorative patterns ideal for patchwork, quilting and embroidery. This little book describes everything you need to begin stitching. The co-host of shows on both HGTV and the DIY Network explains how to add personality and fashion sense to your t-shirts through embellishment and customization with a focus on cutting, stitching, embroidering, dying and adding rhinestones and ribbons.
