Of all the African nations, Ethiopia is most prone to misconceptions. The 1985 famine and the cracked barren earth of the Danakil Depression are not images quickly forgotten. This fully updated guide refocuses the lens to reveal an ancient country that continues to surpass all expectations: from the ancient Judaic cultures of the fertile highlands to the colourful animist people of the South Omo Valley, from the Afro-pine moorland of the Bale Mountains National Park to the thundering Blue Nile Falls. Taking you far off the beaten track, the author presents more of this expansive beautiful land, believed to be the cradle of humankind. Bradt's Ethiopia provides the most comprehensive coverage of any English-language guidebook on the market. Not only does it include towns and villages well off the beaten track, but it goes into greater depth than its competitors, with more detail on the history, culture and sights, and more opinionated and entertaining reviews of hotels and restaurants. In addition, it features detailed information on wildlife, national parks and trekking routes found in no other book.

While the world taps its feet, Ethiopia breakdances with its

shoulders. This is an uplifting, inspirational country which confounds expectations. It's no featureless desert but a land of majestic landscapes surrounding a vast, fertile plateau. The rock-hewn churches in its medieval capital, Lalibela, are regarded by many as the eighth wonder of the world. Its people are welcoming, proud and besotted by their own culture and history. Bradt's Ethiopia is the most thorough guide available to this country rich in culture, history and dramatic scenery, and has been highly praised by both travel press and readers.

'Thorough and reassuring, it provides all the practical and background information to make readers leap from their armchairs and visit this vast, magical country' The Daily Telegraph (UK)
