Journal of Visual Impairment & Blindness

A condensed, student-friendly version of Tietz Textbook of Clinical Chemistry, this text uses a laboratory perspective to provide you with the chemistry fundamentals you need to work in a real-world, clinical lab. Accurate chemical structures are included to explain the key chemical features of relevant molecules. Offering complete, accurate coverage of key topics in the field, it's everything that you expect from the Tietz name! More than 500 illustrations and easy-to-read tables help you understand and remember key concepts. Key words, learning objectives, and other student-friendly features reinforce important material. Chapter review questions are included in an appendix to test your knowledge. A two-color design makes it easier to read and easy to find important topics. In-depth, reader-friendly content is appropriate for MT/CLS and MLT/CLT students and may also be used by laboratory practitioners, pathology residents, and others. A new chapter on newborn screening discusses the basic principles, screening recommendations, inborn errors, methods, and interpretation of results. A comprehensive glossary provides easy-to-find definitions of key terms. An Evolve website provides regular updates of content, answers to review questions, and web links to related sites for further research and study.

The ARRL Ham Radio License Manual

From Laboratory to Point-of-Care Testing

An up-beat, take-charge daily health care manual for the diabetic Dr. Julian's book pulls no punches about the seriousness of diabetes; he has been blind for fifteen years due to his disease and he draws on his own experience to offer hard-won day-to-day advice. He discusses insulin and other medications and stresses the importance of self-home blood-glucose monitoring, exercise, and good nutrition. He is honest about possible long-term complications to the diabetic eye, kidney, and vascular systems, and problems such as male pattern baldness and erectile dysfunction. Above all, he believes in positive thinking to help the diabetic live well. There are a resource guide, bibliography, and selected readings.

If you're an active ham radio operator, you probably have a story about your first radio contact. Many hams remember that experience even more than their first license examination.
