"Part of Our Lives challenges the conventional idea that public libraries are valuable mostly because they are essential to democracy. Instead, this book uses the voices of generations of public library users to argue that Americans have loved their libraries for the useful information they make accessible; the public spaces they provide; and the commonplace reading materials they supply that help users make sense of the world

around them."--

Take New York by storm and steer clear of serious relationships. That's the plan. That's the goal. It's easy too, now that my software company is making headlines. Nothing is getting in the way of that--not even my sexy personal trainer. I don't care how beautiful and intriguing she is. Mel Dawson keeps talking me into doing things, like watching the sunset and slowing down to enjoy life. When she trains me, and I watch her body, I'm constantly fantasizing about exploring every inch of it all night long, claiming her mouth every time she gives me a sassy reply. I don't even know who I am when I'm with her. I'm suddenly a completely different man. But, I like this version of myself better. Mel's smart, determined, and keeps me guessing. She's everything I need and want, but I've been burned before. I'm used to taking chances in the boardroom, just not in my personal life. How much am I willing to risk for a chance to make her mine?

In this work, Muhsin Mahdi—widely regarded as the preeminent scholar of Islamic political thought—distills more than four decades of research to

offer an authoritative analysis of the work of Alfarabi, the founder of Islamic political philosophy. Mahdi, who also brought to light writings of Alfarabi that had long been presumed lost or were not even known, presents this great thinker as his contemporaries would have seen him: as a philosopher who sought to lay the foundations for a new understanding of revealed religion and its relation to the tradition of political philosophy. Beginning with a survey of Islamic philosophy and a discussion of its historical background, Mahdi considers the interrelated spheres of philosophy, political thought, theology, and jurisprudence of the time. He then turns to Alfarabi's concept of "the virtuous city," and concludes with an in-depth analysis of the trilogy, Philosophy of Plato and Aristotle. This philosophical engagement with the writings of and about Alfarabi will be essential reading for anyone interested in medieval political philosophy.

Life's not a fairytale for women like me, divorced and creeping up on middle age...until a hot younger man finds my lost shoes. Crashing weddings is so not my thing. I'd much rather stay home and watch HGTV . . . and ignore the fact that my life is messier than those fixer-upper houses. Because my jerk ex left, and the only thing keeping a roof over my sons' heads is my crappy telemarketing job. But then I get a challenge from the Bad Luck Club, the group I joined to turn my luck around: Do something that breaks the rules. One ill-advised confession to my best friend later, I'm strapping on a pair of heels and crashing the wedding of two of the owners of Buchanan Brewery. The last thing I expect is to meet someone, let alone the sexy younger bartender who calls me out and finds my lost shoes, something straight out of Cinderella. And the very last thing I expect is to

fall for him. It feels like I'm in a dream come true, a fairy tale, but the crap part about dreams is that they have to end. Or do they?

They swear they only kidnapped me for my own protection, and after a terrifying attack by one of their enemies, I'm starting to believe them. By going back to the Italian humanist tradition and aspects of earlier Greek and Latin thought, Ernesto Grassi develops a conception of rhetoric as the basis of philosophy. Grassi explores the sense in which the first principles of rational thought come from the metaphorical power of the word. He finds the basis for his conception in the last great thinker of the Italian humanist tradition, Giambattista Vico (1668-1744). He concentrates on Vico's understanding of imagination and the sense of human ingenuity contained

in metaphor. For Grassi, rhetorical activity is the essence and inner life of thought when connected to the metaphorical power of the word. Originally published in English in 1980, *Rhetoric as Philosophy* has been out of print for some time. In his foreword to this reprint edition, Burke scholar Timothy W. Crusius laments the lack of concentrated attention to Grassi because "what he had to say about rhetoric is at least as significant as, for example, what Kenneth Burke taught us".

"Emilia Ferreiro is one of the great thinkers in the Americas on the issues surrounding literacy. Three of her most important

lectures are presented in this book. Her views have changed the systems of education in her own country, Mexico, and have had a radical impact on education in Brazil, where she is the recipient of the country's highest distinction. Her ideas have ideological and political implications for policies regarding publishing (including the publishing of textbooks), access to books and the development of readers all over the world."

"Although poor countries have not overcome illiteracy, rich countries are finding that a basic education does not guarantee fully functional readers. While some of us are fluent in the language of hypertext, e-mail and the virtual pages of non-existent books, there are others who have not mastered newspapers or books." "If democracy is incompatible with an illiterate citizenry, full democracy requires an ability to read that goes beyond the deciphering of words. This ability is the right of children who will grow up as free citizens in a world where linguistic and cultural diversity are as important as biodiversity."--BOOK JACKET.

How can we bring people together? Sociologist and best-selling author Eric Klinenberg introduces a transformative and powerfully uplifting new idea for health, happiness, safety and healing our divided, unequal society. 'This wonderful book shows us how democracies thrive' Steven Levitsky & Daniel Ziblatt, authors of How Democracies Die Too often we take for granted and neglect our libraries, parks, markets, schools, playgrounds, gardens and communal spaces, but decades of research now shows that these places can have an extraordinary effect on our personal and collective wellbeing. Why? Because wherever people cross paths and linger, wherever we gather informally, strike up a conversation and get to know one another, relationships blossom and communities emerge - and where communities

are strong, people are safer and healthier, crime drops and commerce thrives, and peace, tolerance and stability take root. Through uplifting human stories and an illuminating tour through the science of social connection, Palaces for the People shows that properly designing and maintaining this ‘social infrastructure’ might be our single best strategy for a more equal and united society.

One aim of this series is to dispel the intimidation readers feel when faced with the work of difficult and challenging thinkers. Moses ben Maimon, also known as Maimonides (1138-1204), represents the high point of Jewish rationalism in the middle ages. He played a pivotal role in the transition of philosophy from the Islamic East to the Christian West. His greatest philosophical work, *The Guide of the Perplexed*, had a decisive impact on all subsequent Jewish thought and is still the subject of intense scholarly debate. An enigmatic figure, Maimonides continues to defy simple attempts at classification. The twelve essays in this volume offer a lucid and comprehensive treatment of his life and thought. They cover the sources on which Maimonides drew, his contributions to philosophy, theology, jurisprudence, and Bible commentary, as well as his esoteric writing style and influence on later thinkers. Stephan Kuttner, the historian of canon law, gave the Wimmer Memorial Lecture at Saint Vincent in 1956. His talk, *Harmony From Dissonance: An Interpretation of Medieval Canon Law*, was published four years later. At the time of his lecture, and certainly at the time of his death, on August 12, 1996, in Berkeley, he was internationally recognized as one of the world's greatest authorities on canon and civil law. Kuttner, a native of Bonn, Germany, received his law degree from Berlin University in 1931. He worked as a research fellow at the Vatican Library and taught at the Lateran University in Rome after fleeing Nazi Germany for Italy. He

was a professor at Catholic University of America, Washington, D.C., which has a chair named in his honor. He held the T. Lawrason Riggs Chair of Catholic Studies at Yale, then became the first director of the Robbins Collection in Roman and Canon Law at the University of California, Berkeley School of Law. He taught there for 18 years (1970-1988), and continued as professor emeritus until his death. The Institute of Research and Study in Medieval Canon Law was established in Washington, D.C. Its headquarters were transferred to Yale in 1964, and later to Berkeley in 1970. The Institute was relocated to the University of Munich in 1991. Yale now hosts the Kuttner Institute Library. The Institute was named after Kuttner in 1996, who served as the its board president from 1955 to 1991; as chairman of the board from 1991 until 1996; and as editor, then editor emeritus of the Bulletin of Medieval Canon Law and as chief editor of the Monumenta Iuris Canonici.

Hot SEAL, Independence Day

From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism. Influenced first by Islamic theological speculation and the great philosophers of classical antiquity, and then in the late medieval period by Christian Scholasticism, Jewish philosophers and scientists reflected on the nature of language about God, the scope and limits of human understanding, the eternity or createdness of the world, prophecy and divine providence, the possibility of human freedom, and the relationship between divine and human law. Though many viewed philosophy as a dangerous threat, others incorporated it into their understanding of what it is to be a Jew. This Companion presents all the major Jewish thinkers of the period, the philosophical and non-philosophical contexts of their thought, and the interactions between Jewish and non-Jewish philosophers. It is a comprehensive introduction to a vital period of Jewish intellectual history.
