The world is a big place full of interesting things. And The Grand Tour has seen some of them. That's why few people are better placed to lead you around this vast planet of ours than Jeremy Clarkson, Richard Hammond and James May. As long as you don't mind getting hot and lost. Welcome, everyone, to The Grand Tour Guide to The World.

A maintenance & repair manual for the DIY mechanic.

Designed by Mercedes's head of design Bruno Sacco, the W124 range immediately became the benchmark by which medium-sized car models were judged in the late 1980s due to its engineering excellence and high build quality. There was a model to suit every would-be-buyer, from the taxi driver through the family motorist and on to those who were willing and able to pay for luxury and performance. This book covers: design, development and manufacture of all models of W124 including estates, cabriolets and the stylish coupe range; engines and performance; special editions and AMG models and, finally, buying and owning a W124 today. Superbly illustrated with 264 colour

photographs.

Vauxhall Vectra Service and Repair Manual Vauxhall/Opel Vectra (Oct 05- Oct 08) 55 to 58 Haynes Manuals
First published in 1981, this book has long been recognized as the 'bible of Scalextric', providing a complete catalogue of the cars and equipment produced. Now, for this seventh edition, the book has undergone a transformation, with a complete redesign and masses of new information about cars, sets and accessories produced around the world. As well as extra detail about earlier periods, there is full coverage of all the new Scalextric products launched in the four years that have elapsed since the previous edition. Now containing nearly 1,000 photographs, this book has become an extraordinarily detailed summary of everything in the world of Scalextric, written by an author who has been captivated by the subject for nearly 50 years.
