Plague prevention in Manchuria became an urgent matter both of public health and of politics in the 1920s and 1930s. If the virulent pneumonic plague could not be quarantined and suppressed, all North China and even nearby countries might be endangered. If China could not deal with the plague, Japan, Russia, and indeed the whole outside world might be justified in moving into Manchuria to do the job, and China's already limited sovereignty there could be further weakened.

For the fourth installment in Rankin s beauty book series, the prolific photographer teams up with Hunger Magazine's very own Beauty-Editor-At-Large, Andrew Gallimore. His previous high-profile collaborations for the series have included Alex Box, Ayami Nishimura and Caroline Saulnier. Having first worked together on Jitrois s AW08 campaign, Rankin and Andrew have been friends for six years, joining forces on a number of landmark editorial projects and commercial shoots. The pair s most recent project, Andrew Gallimore by Rankin, not only documents their creative partnership thus far but features new, never-before-seen material shot exclusively for the stunning art book. Featuring a range of compelling portraiture, Andrew Gallimore by Rankin sees the pair chart British history through make-up, give their own vibrant take on death masks and embrace blood, guts and gore. As the UK s first ambassador for Dior, Andrew has never been one to shy away from experimentation while, since founding Dazed & Confused in 1992, Rankin has captured almost every walk of life with his lens. This unique set of images illustrates that, both individually and as a pair, Rankin and Andrew are game changers at the top of their fields who never cease to impress and amaze."

Sempalatinsk Polygon, 1965. The Soviets run the Chagan Test, their first experiment in underground nuclear detonation. It's a cover. Deep beneath the earth, in a bunker, they are bio-engineering soldiers to adapt to the extreme conditions of a thermonuclear war. But their human subjects get out of control, and the project's survivors are transferred to a new base hidden at the site of the proposed Chernobyl nuclear plant. Professor Petrov is one such survivor. Marked by the horrors he has witnessed, and obsessed with Boni, a dangerous Muse he has created in the lab, the scientist slides into an abyss of alcoholism and madness. Meanwhile, in the zone outside Chernobyl, strange sightings and horrific murders fuel a twenty-year manhunt, culminating in a surprising and dramatic showdown. In 1916, Pietro Aquasanta, an Italian rifleman, returns to his childhood home of the Trentino mountain range to find that it's no longer the realm of wonder and adventure he remembers, but has become a place of death and despair, where the elements are as great a threat as the enemy. No weapon of war was more feared than the White Death, thundering avalanches deliberately caused by cannon fire which consumed everything in their path

Have you ever dreamed of a weight loss program where you can eat as much as you want of all those things that you crave and still lose excess body fat? This dream program is now yours. This is an ad libitum program where you lose fat because of what you eat and not because of what you limit. You will discover through personal experience that there is no need to reduce calories or limit food groups to eliminate excess body fat. You will also obtain targeted fat loss since more fat will be lost from the waistline than from other parts of the body. Even more important, you will learn to think, feel and act in a different way around food. No magical remedies are promised and no miracle pills are promoted. Only through a sensible program and disciplined attitude will you be able to permanently rid yourself of excess fat. The book is divided into four parts. The first part explains why traditional diets are useless for long term weight loss, and how they may even worsen the problem. The second part presents a general outline of proven ways to permanently lose excess fat. The third part introduces a program which will not only help you nourish your body and lose excess fat; it will also reshape you to express your maximum genetic potential. The last part answers frequent questions made by my patients in relationship to this program. The philosophy of this program is the following: It is not what you eat in excess but what you are lacking in your daily menu that ruins your perfect metabolic balance and favors accumulation of excess body fat.

Krazy Kat's most surreal adventures were the famed "Tiger Tea" sequence where Krazy Kat imbibed of the psychedelia-inducing substance. The life and times of the Great British Pudding, both savoury and sweet - with 80 recipes re-created for the 21st century home cook Jamie Oliver says of Pride and Pudding 'A truly wonderful thing of beauty, a very tasty masterpiece!' BLESSED BE HE THAT INVENTED PUDDING The great British

pudding, versatile and wonderful in all its guises, has been a source of nourishment and delight since the days of the Roman occupation, and probably even before then. By faithfully recreating recipes from historical cookery texts and updating them for today's kitchens and ingredients, Regula Ysewijn has revived over 80 beautiful puddings for the modern home cook. There are ancient savoury dishes such as the Scottish haggis or humble beef pudding, traditional sweet and savoury pies, pastries, jellies, ices, flummeries, junkets, jam roly-poly and, of course, the iconic Christmas pudding. Regula tells the story of each one, sharing the original recipe alongside her own version, while paying homage to the cooks, writers and moments in history that helped shape them. When plague broke out in Manchuria in 1910 as a result of transmission from marmots to humans, it struck a region struggling with the introduction of Western medicine, as well as with the interactions of three different national powers: Chinese, Japanese, and Russian. In this fascinating case history, William Summers relates how this plague killed as many as 60,000 people in less than a year, and uses the analysis to examine the actions and interactions of the multinational doctors, politicians, and ordinary residents who responded to it. Summers covers the complex political and economic background of early twentieth-century Manchuria and then moves on to the plague itself, addressing the various contested stories of the plague's origins, development, and ecological ties. Ultimately, Summers shows how, because of Manchuria's importance to the world powers of its day, the plague brought together resources, knowledge, and people in ways that enacted in miniature the triumphs and challenges of transnational medical projects such as the World Health Organization.

A dramatic historical narrative of the man who stole the secret of tea from China In 1848, the British East India Company, having lost its monopoly on the tea trade, engaged Robert Fortune, a Scottish gardener, botanist, and plant hunter, to make a clandestine trip into the interior of China—territory forbidden to foreigners—to steal the closely guarded secrets of tea horticulture and manufacturing. For All the Tea in China is the remarkable account of Fortune's journeys into China—a thrilling narrative that combines history, geography, botany, natural science, and old-fashioned adventure. Disguised in Mandarin robes, Fortune ventured deep into the country, confronting pirates, hostile climate, and his own untrustworthy men as he made his way to the epicenter of tea production, the remote Wu Yi Shan hills. One of the most daring acts of corporate espionage in history, Fortune's pursuit of China's ancient secret makes for a classic nineteenth-century adventure tale, one in which the fate of empires hinges on the feats of one extraordinary man.

The chatty bastard won't stop talking and calling him "bro." Meanwhile, elsewhere in El Paso, Father Karras is a pastor who has determined he is a Knight of the Apocalypse, descended to Earth against the will of a too-forgiving God. Holding a sawed-off shotgun named Salvation, he sets out to do his work. At the Mr. Happy Food & Drink, the paths of these two men are meant to cross. There WILL be blood. A Caliber Comics release.
