

Vimana Aircraft Of Ancient India And Atlantis Lost Science Adventures Unlimited Press

Did the ancients have the technology of flight? In this incredible volume on ancient India, authentic Indian texts such as the Ramayana and the Mahabharata, are used to prove that ancient aircraft were in use more than four thousand years ago. Included in this book is the entire Fourth Century BC manuscript Vimaanika Shastra by the ancient author Maharishi Bharadwaaja, translated into English by the Mysore Sanskrit professor G.R. Josyer. Also included are chapters on Atlantean technology, the incredible Rama Empire of India and the devastating wars that destroyed it. Also an entire chapter on mercury vortex propulsion and mercury gyros, the power source described in the ancient Indian texts. Not to be missed by those interested in ancient civilizations or the UFO enigma. Tons of illustrations! This book takes us beyond Childress's previous books This amazing book on an unusual voyage into the world ancient flying vehicles, ancient legends of flight and the mysterious power system of Atlantis. Taking us from ancient texts in a centuries old library in India (The Royal Baroda Library in Mysore India) to diagrams of mercury vortex engines and power broadcasting crystals of Atlantis, this will fascinate and amaze! Richly illustrated, and packed with evidence that Atlantis not only existed system more sophisticated than ours of today. Topics: The Ramayana and the amazing vimanas of ancient India; Atlantis and its crystal power towers that broadcast energy; Inventor Nikola Tesla's nearly identical system of power transmission; How gyros with electrified gas or liquids anti-gravity effect; Mercury Proton Gyros and mercury vortex propulsion; The Crystal Towers that broadcast energy to the lost continent of Atlantis; How these incredible power stations may still exist today; The Earth as a giant power plant. Attention All Truth Seekers: The urge to know our origin has never been greater and the secrets of humanity's past are ready to be revealed. Peter J. Miele pulls back the veil with this insightful depiction of our extraterrestrial ancestry and the decisive events that have formed our world today! Cutting through all myth, mysticism, confusion and allegory to expose the raw truth Peter has personally traveled to the most remote temples on the Indian continent and around the world to bring you this Ancient Wisdom once thought lost. This book is as much practical as it is spiritual, guiding the reader through a detailed history of humanities bizarre beginnings influenced by a cabal of morally questionable beings from the sixth dimension of the Capricorn constellation. Today even NASA has begun to study the astrophysical knowledge of the Vedas uncovering the universal truths hidden within the text. How is it that a book thought to be several thousands of years old can contain exact scientific data that surpasses the forefront of our own modern age? Who were these strange beings thought to be immortals that appear time and time again throughout the myths and legends of old? Dare to study these mysteries and find out why the truth is far stranger than fiction! Science in 100 Key Breakthroughs presents a series of clear and concise essays that explain the fundamentals of some of the most exciting and important science concepts you really need to know. Paul Parsons profiles the important, ground-breaking, and front-of-mind scientific discoveries that have had a profound influence on our way of life and will grow in importance with our advancing understanding. In 100 sections, this book provides an overview of the history of Western science, from astronomy and physics to geology, biology and psychology and everything in between. Starting with the origins of counting more than 35,000 years ago, Science in 100 Key Breakthroughs tells a rich and fascinating story of discovery, invention, gradual progress and inspired leaps of the imagination. Many key concepts and discoveries are defined and discussed including: The circumference of the Earth, Chaos theory, Algebra, Relativity, Newton's Principia, Brownian motion, Pi, Wave/particle duality, Germ theory, The computer, X-rays, The double helix, Viruses, The human genome. Readable, informative and thought-provoking, this is the ideal introduction to cutting-edge science and the essential overview for anyone who wants to learn more about these often daunting but increasingly essential subjects.

Ancient Indian Science of Aeronautics

My Search for the New India

This is a reprint of the original 1999 edition with minor editorial changes. The Rigveda is the first book of humankind and the most sacred scripture of Hinduism. It also happens to be the most ill-understood book of our times. Despite the extensive study by academic and religious scholars, the Rigveda and many ancient Hindu scriptures remain unclear. In this pathbreaking book, the discovery of the Rigveda as a book of ancient cosmology is described, and related to the seals of ancient Indus Valley Civilization, thereby challenging our perception of humanity. "The Vedas contain the secrets of cosmogenesis. Raja Roy in his remarkable book shows how this is true not only from the yogic vison but according to the latest insights of modern physics. The book takes the reader on a vast panoramic journey through the universe of matter, mind and energy. (Vamadeva Shastr) Director, American Institute of Vedic Studies "Roy presents a new framework for the understanding of the Vedic hymns from the point of view of physics and then he draws parallels with recent theories on the nature of the universe. We celebrate the new paradigm of scholarship." Professor Subhash Kak Oklahoma State University

Lost for centuries, the Kebra Nagast (The Glory of Kings) is a truly majestic unveiling of ancient secrets. These pages were excised by royal decree from the authorized 1611 King James version of the Bible. Originally recorded in the ancient Ethiopian language (Ge'ez) by anonymous scribes, Kingston Publishers now bring you a complete, accurate modern English translation of this long suppressed account. Here is the most startling and fascinating revelation of hidden truths; not only revealing the present location of the Ark of the Covenant, but also explaining fully the Biblical topics which have remained unanswered up to today.

The present volume on Vedic Physics by Keshav Dev Verma is indeed a unique attempt to interpret the ancient Indian literature by defining various symbols, concepts and terminology occurring in Vedic hymns and other texts. While accepting Maharsi Dayananda's view that Vedas are the source of all sciences, the author does examine this statement with a view to test it on the hard rock of truth. Shri Verma has selected the Sankhya-Patanjala system that explains the physical world (Universe) on the basis of Cosmic evolution; the Vaisesika-Nyaya expounds the methodology and elaborates the laws of mechanics. Shri Verma has very systematically tried to interpret the Sankhya aphorisms and concludes that the ultimate ground to which the manifested world can be traced is Prakrti having three attributes-Sattva (existence), energy at rest or Rajas (energy that which is efficient cause) and Tamas (mass or inertia) which resists the Rajas to do work and also resists Sattva from conscious manifestation.

The Handbook of UFO Religions, edited by scholar of new religions Benjamin E. Zeller, offers the most expansive and detailed study of the persistent, popular, and global phenomenon of religious engagements with ideas about extraterrestrial life.

New light on ancient indian heritage

Unsolved Mysteries of the Past

A Traveler's Guide

An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world's oldest major religions, The Hindus elucidates the relationship between recorded history and imaginary worlds. Hinduism does not lend itself easily to a strictly chronological account: many of its central texts cannot be reliably dated even within a century; its central tenets karma, dharma, to name just two arise at particular moments in Indian history and differ in each era, between genders, and caste to caste; and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another. Yet the greatness of Hinduism - its vitality, its earthiness, its vividness - lies precisely in many of those idiosyncratic qualities that continue to inspire debate today. Wendy Doniger is one of the foremost scholars of Hinduism in the world. With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon. Without reversing or misrepresenting the historical hierarchies, she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes; how they debate tensions surrounding religion, violence, and tolerance; and how animals are the key to important shifts in attitudes toward different social classes. The Hindus brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers - many of them far removed from Brahmin authors of Sanskrit texts - have kept Hinduism alive in ways that other scholars have not fully explored. In this unique and authoritative account, debates about Hindu traditions become platforms from which to consider the ironies, and overlooked epiphanies, of history.

The Mahabharata, an ancient and vast Sanskrit poem, is a remarkable collection of epics, legends, romances, theology, and ethical and metaphysical doctrine. The core of this great work is the epic struggle between five heroic brothers, the Pandavas, and their one hundred contentious cousins for rule of the land. This is the first volume in what will ultimately become a multi volume edition encompassing all eighteen books.

David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He looks into the strange life and death of Rudolf Hess, as well as the mystery of James Forrestal and the secret group called MJ-12. He examines Operation Highjump led by Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. He reveals that the Nazis had built secret bases in a variety of places during WWII, including Greenland, the Canary Islands, Tibet and Antarctica. Childress discusses the secret U-boat fleet that patrolled the Atlantic and Antarctic Oceans for decades after the war. He looks into the secret German space program and its flying disks and tubular aircraft; the secret technology involved, including anti-gravity propulsion technology; underground and under ice bases; strange things happening in South America; and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctic with the Americans' and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Solar Warden, Lunex and Project Horizon. Does the US Space Force have a secret space program that maintains huge ships in orbit around the Earth and employs hundreds of astronauts as crew for these vehicles? Includes a 16-page color section.

Revised, expanded new edition of the weird science classic-a compilation of material on Anti-Gravity, Free Energy, Flying Saucer Propulsion, UFOs, Suppressed Technology, NASA Cover-ups and more. Includes: - Photos of Area 51 in Nevada - How to build a flying saucer - Arthur C. Clarke on anti-gravity - Crystals and their role in levitation - Secret government research and development - Nikola Tesla on how anti-gravity airships could draw power from the atmosphere - Bruce Cathie's Anti-Gravity Equation - NASA, the Moon and Anti-Gravity - The mysterious technology used by the ancient Hindus of the Rama Empire - The Rand Corporation's 1956 study on Gravity Control - T. Townsend Brown's electro-gravity experiments - How equations exist for electro-gravity and magneto-gravity - Schematics, photos and illustrations with patents, technical illustrations, photos, & cartoons

Ayurveda, The Universal Healing Art. More Than A Medical System. Developed From The Vedas, India&Rsquo;S Ancient Books Of Wisdom, Ayurveda Combines Physical, Psychological And Spiritual Therapies In An Approach To Health That Is As Relevant To The Modern World As It Was To The Ancient World When It First Became Part Of India&Rsquo;S Collective Consciousness. Here Is A Definitive Handbook Of A Health Care Both Sensible And Sublime, That Is Still Alive And Well Itself&Mdash;The Author Is The First Westerner To Graduate From An Indian Ayurvedic College. Utilizing Herbs And Minerals, Proper Nutrition And Purification And, Above All, Affirmative Ways Of Living, Ayurveda Treats Not Just The Ailment But The Whole Person And Emphasizes Prevention Of Disease To Avoid The Need For Cure. Its Ancient Message Has Helped Spread The New Holistic Thinking In The West, Encouraging Us To Become &Lsq;Stewards Of Life&Rsquo; In Order, Now, To Give Civilization Itself A Chance To Heal.

The most academically credible case for alien visitation. Is the existence of civilisation on earth the result of contact from inhabitants of a planet in the system of the star Sirius prior to 3000BC? There are tribal cultures in present-day Africa whose most sacred and secret and traditions are based on this theory. Central to their cosmology is a body of knowledge concerning the system of the star Sirius that is astounding it in its accuracy of detail, including specific information only recently accessible to modern science. Robert Temple traces the traditions of the Dogon and three related tribes back 5, 000 years to the ancient Mediterranean cultures of Sumer and Egypt. He shows a knowledge dependent on physics and astrophysics, which they claimed was imported to them by visitors from Sirius.

Ancient text on Aeronautics and Astronautics.

Vymaanika Shaastra

50 Years of Suppression

Technology of the Gods

Vimana

Antarctica and the Secret Space Program

Indic Visions

Just like the Nazi UFO's, the Vedic flying machines dwell somewhere in the realms between apocryphal technology and the occult. The work 'Vymaanika Shaastra' has been ascribed to the sage Maharshi Bharadwaja. Maharshi Bharadwaja is known to be a scholar both in science, philosophy, cosmology and warfare. The work on ancient Vedic flying machines was channelled by Pundit Anekal Subbaraya Shastry to a Sanskrit scholar, Sri G Venkatchala Sharma and translated into English by G.R. Josyer. The Vedic flying machines were supposed to be capable of the same flight manoeuvres as Hitler's flying saucers (VRIL Rundflugscheiben). The 102nd Indian Science Congress, held at the Mumbai University in January 2015, organised a session on "ancient sciences through Sanskrit" in which a presentation on Vaim?nika ??stra was included. It was delivered by Anand J. Bodas, a pilot, and Ameya Jadhav, who holds an M.A. in Sanskrit as well as an M.Tech. degree. Bodas, speaking to the news media, has said that the aeroplanes of Vedic times could fly not only from country to country, but also "from planet to planet." "In those days, aeroplanes were huge in size, and could move left, right, as well as backwards, unlike modern planes which only fly forward," he added. NASA was not amused with this Congress... A book the government of India demands be ritually burned.

Success is attainment, without regard to the things attained. Success is essentially the same in all cases; the difference is in the things the successful people want, but not in the success. Success is essentially the same, whether it results in the attainment of health, wealth, development or position; success is attainment, without regard to the things attained. And it is a law in nature that like causes always produce like effects. You will learn many of the hidden secrets of Prof. Wattles and the art and science of success in this book.

An astonishing book that will lead to rewrite the history of mankind. An unexplored world, a journey beyond the boundaries of human history. From over five thousand years India and Pakistan seem to guard jealously a forgotten past, a secret locked inside of the oldest traditions that human history knows. The journey starts from an highly evolved civilization but fall into oblivion, a culture that left to posterity a huge amount of texts transmitted orally and later merged into Hinduism. Traditions that speak of lost civilizations, wars fought between men and gods with highly advanced technologies and machines capable of flying in the air and in space called Vimana. Following the tracks and studies conducted in the '70s by David William Davenport, has set new light on the events that led to the destruction of the city of Mohenjo Daro (Pakistan) and the disappearance of the Harappan civilization tying their story to submerged ruins discovered in the Indian Ocean and dated back to 10,000 years ago.

Science in 100 Key Breakthroughs

The Hindus

Towards Unification of Quantum Mechanics and General Relativity

The Mahabharata, Volume 1

Book 1: The Book of the Beginning

The Anti-Gravity Handbook

Meant for young adult.

Deep in lost history, did high civilizations and advanced knowledge thrive? The ancient Vedic literatures of India describe a worldwide civilization that flourished at a time when modern historians insist that humans like us existed simply as hunter-gatherers. This Vedic civilization, centered in India, employed technologies based on a scientific understanding of the physical elements and forces we know today, as well as more subtle conscious elements. Devamrita Swami, who has spent a lifetime in his own search for Vedic India, takes us on a journey of intellectual discovery through the history of the remarkable Vedic civilization and its knowledge, locked in the ancient literatures of India. His wit and wisdom combine to make our search for Vedic India not only illuminating but entertaining. He tells us not only the truths of Vedic India, but how they are again coming to be. Searching for Vedic India thus takes us not only into the past, but into the future.

The book reveals unearthed discoveries explaining scientific and technical details of vimana shashtra. For the first time in history 3D modelling of Vedic Vimanas are done and their CFD analysis revealing the flying abilities of the Vedic space crafts. Greatest thing is that Famous former DRDO, ISRO Indian Scientists encouragement for the works in the book, also a foreign former NASA scientist special chapter on antigravity is in the book. The re- translations of the vimana shashtra shlokas revealing advanced aerial wars, defence systems, along with eco-friendly manufacturing, propulsion, space travel. A fantastic rendition of modern technology, uncover the 3D printing, and 4D printing possibilities of Vimana 3D models.

A comprehensive and in-depth look at the early 'flying saucer technology' of Nazi Germany and the genesis of early man-made UFOs. From captured German scientists, escaped battalions of German soldiers, secret communities in South America and Antarctica to today's state-of-the-art 'Dreamland' flying machines, the astonishing book blows the lid off the 'Government UFO Conspiracy'. Examined in detail are secret underground airfields and factories; German secret weapons; 'suction' aircraft; the origin of NASA; gyroscopic stabilisers and engines; the secret Marconi aircraft factory in South America, and other secret societies, both ancient and modern, that have kept this craft a secret, and much more.

In an Age of Science

The Ultimate Frontier

How to Get What You Want

Scientific Origin of Hinduism

A Modern Translation of the Kebra Nagast

This is a new, updated edition of the great metaphysical classic, first published in 1963, which began a whole new trend in popular thinking & is even more applicable to humanity than ever. The subject material is solidly grounded in a practical idealism that works in people's lives & leads them to recommend that their friends buy the book. It is by far the most complete explanation of the ancient, worldwide Brotherhood of Saints & how we can all become their equal. The book fully discloses their cosmology & explains their current efforts to uplift mankind & create a real civilization. In a

straightforward manner, the book discloses the ancient cultures of Atlantis & Lemuria, the coordinated efforts of the famous Teachers down through history to bring Truth to us, the travels of Jesus between his thirteenth & thirtieth years, the coming Earth changes which herald a Golden Age, & it offers a profound & moving message of hope for mankind

Indic Visions is the tenth book by the acclaimed scientist and humanist Varadaraja V. Raman. In it he provides a detailed introduction to Indic religions and contemporary interpretations thereof consistent with modern science. In a world of rapid changes, dangerous fundamentalism, parochial chauvinisms, culture wars, and clashing civilizations, this book provides both a soothing balm and potent antidote. By delving more deeply into Indic civilization, Raman shows us the way to transform our emerging global civilization in wholesome and healthy ways consistent with science and the great challenges of the 21st century.

Occasionally reissued with the same ISBN but with slightly differing bibliographical details.

The Incredible Sciences of the Ancients

Searching for Vedic India

According to early Sanskrit texts the ancients had several types of airships called vimanas. Like aircraft of today, vimanas were used to fly through the air from city to city; to conduct aerial surveys of uncharted lands; and as delivery vehicles for awesome weapons. David Hatcher Childress, popular Lost Cities author and star of the History Channel's long-running show Ancient Aliens, takes us on an astounding investigation into tales of ancient flying machines. In his new book, packed with photos and diagrams, he consults ancient texts and modern stories and presents astonishing evidence that aircraft, similar to the ones we use today, were used thousands of years ago in India, Sumeria, China and other countries. This means that these ancient civilizations had advanced metal technology, electricity and the engineering knowledge of flight many thousands of years before our own era of flight technology. Childress discusses ancient UFO sightings, the fascinating lore of ancient flight and the technology allegedly used in the flying machines of the ancients.

The heralding of ambitions and hardening of geopolitical and military stances by China has given rise to few questions: Did China challenge the United States too hard and too soon and, by doing so, seriously jeopardize its chances of achieving its objectives? Can Washington still contain China's ascendancy and retain its current leading status?This book attempts to explore these questions and analyse if China has tried to display its strength to America too soon. It argues that by comparing the comprehensive national power of the two countries, one may be able to answer the above questions.

In 1150 AD, Bhaskaracarya (b. 1114 AD), renowned mathematician and astronomer of Vedic tradition composed Lilavati as the first part of his larger work called Siddhanta Siromani, a comprehensive exposition of arithmetic, algebra, geometry, mensuration, number theory and related topics. Lilavati has been used as a standard textbook for about 800 years. This lucid, scholarly and literary presentation has been translated into several languages of the world. Bhaskaracarya himself never gave any derivations of his formulae. N.H. Phadke (1902-1973) worked hard to construct proofs of several mathematical methods and formulae given in original Lilavati. The present work is an enlargement of his Marathi work and attempts a thorough mathematical explanation of definitions, formulae, short cuts and methodology as intended by Bhaskara. Stitches are followed by literal translations so that the reader can enjoy and appreciate the beauty of accurate and musical presentation in Lilavati. The book is useful to school going children, sophomores, teachers, scholars, historians and those working for cause of mathematics.

Technology of the Gods lays out the mind-bending evidence that long-lost civilizations had attained and even exceeded our "modern" level of advancement. Westerners have been taught that humankind has progressed along a straight-line path from the primitive past to the proficient present, but the hard, fast evidence (literally written in stone!) proves that the ancients had technologies we cannot even replicate today.

Aliens and the Multi-Paradox of Reality

The "Nine Unknown Men" are a fictional secret society founded by the Mauryan Emperor Asoka around 270 BC to preserve and develop knowledge that would be dangerous to humanity if it fell into the wrong hands. The nine men are embodiment of good and face up against nine Kali worshippers, who sow confusion and masquerade as the true sages. The story surrounds a priest called Father Cyprian who is in possession of the books but who wants to destroy them out of Christian piety, and a number of other characters who are interested in learning their contents. The nine books entrusted to the Nine Unknown contain information on (1) Propaganda and Psychological warfare, (2) Physiology, including secrets concerning the "touch of death", (3) Microbiology, (4) Alchemy, (5) Communication, including communication with extraterrestrials, (6) Gravity, and anti-gravity devices (Vimanas, mythological flying machines of ancient India), (7) Cosmology, including hyperspace and time-travel, (8) Light, and a technology capable of modifying the speed of light and (9) Sociology, including rules predicting the rise and fall of empires.
