This money saving package includes Lewis' 7th edition Medical-Surgical Nursing - 2-Volume Textbook, Virtual Clinical Excursions, and FREE Study Guide.

Dynamic and engaging, Virtual Clinical Excursions is a workbook and CD-ROM package that guides users through a virtual hospital featuring highly complex and diverse patients. Complementing core textbook reading assignments in Phipps: Medical-Surgical Nursing: Health and Illness Perspectives, 7th Edition, lessons in the workbook provide a perfect opportunity for users to practice what they are learning in the text in a realistic clinical environment. Covers everything from general medical-surgical nursing concepts related to adult patients through pathophysiologic mechanisms to the nursing management of a full range of medical-surgical problems. Explores each disease and disorder in detail - discussing its etiologic and pathophysiologic basis, clinical manifestations, collaborative care, and nursing management. Includes a guided tutorial which shows students how to work with a patient in a virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · sometimes administer medication · and more. Emphasizes the importance of patient care - from nursing assessment, diagnosis, planning, and implementation to evaluation. Requires students to document client-nurse interactions - retrieving clinical data, maintaining quality and continuity of care, tracking client outcomes, and meeting current practice standards. Produced in conjunction with the Virtual Clinical Excursions CD-ROM authors: Jay Shiro Tashiro, PhD, RN; Ellen Sullins, PhD; Gina Long, RN, DNSc

Clinical Management for Positive Outcomes

A streamlined approach covers the fundamentals of maternity nursing! Maternity Nursing, 8th Edition focuses on the care of women during the childbearing years. Designed to meet the needs of today 's students, the book offers a clear, readable style and a concise, focused presentation. It integrates an understanding of family, culture, and health promotion into the continuum of care, and coverage of community-based care emphasizes nursing care in many different settings. Not only does Maternity Nursing focus on childbearing issues and concerns, including care of the newborn, but it also addresses wellness promotion and the management of common women 's health problems. The Evolve companion website includes useful study tools, including medical animations, video clips, a care plan builder, and NCLEX® exam-style review questions. A companion Evolve website includes student resources such as NCLEX® exam-style review questions, audio chapter summaries, a care plan builder, nursing skills, interactive case studies, video clips and animations, anatomy reviews, and an audio glossary with Spanish pronunciations. Unique! Nursing Alerts highlight critical information in providing care. Unique! Emergency boxes provide step-by-step procedures for pediatric and maternity emergencies. Unique! Cultural Considerations boxes discuss customs and beliefs of different cultures that may affect care for patients and families. Unique! Community Activity boxes provide maternal and newborn exercises to enhance care in local community settings. Unique! Nursing Process boxes identify information on major diseases and conditions. Patient Instructions for Self-Management boxes highlight the information nurses need to communicate to patients and families. Critical Thinking exercises are based on case studies of real-life situations. Coverage of nursing care management uses a framework of the five steps of the nursing process as well as a focus on collaborative care. Nursing care plans include specific guidelines and rationales for interventions.

Virtual clinical excursions (VCE) is a workbook/CD-ROM package that accompanies many Elsevier nursing textbooks. The workbook guides users through Pacific View Regional Hospital, a virtual hospital setting, where one can learn communication, documentation, assessment, and safe medication administration. VCE offers a hands-on learning experience to help nurses improve both clinical judgement and critical thinking skills while interacting with a number of virtual patients.

"This book set unites fundamental research on the history, current directions, and implications of gaming at individual and organizational levels, exploring all facets of game design and application and describing how this emerging discipline informs and is informed by society and culture"--Provided by publisher.

One of the most complete nursing education learning systems available, Virtual Clinical Excursions 4.0 (VCE) is an interactive print and online workbook that guides you through a virtual hospital where the patients are real and their conditions are constantly changing. Each lesson features a core reading assignment from Introduction to Maternity and Pediatric Nursing, 8th Edition along with activities based on "visiting" the patients in the hospital. By immersing you in a realistic, yet safe, nursing environment, VCE simulates the average clinical rotation by allowing you to conduct a complete assessment of a patient and set priorities for care, collect information, analyze and interpret data, prepare and administer medications, and reach conclusions about complex problems. This unique virtual setting is the best way to learn about the complexities of patient care by giving you the perfect environment to practice what you've learned. Duration for access to this product, which may be at the discretion of your institution, is up to 36 months. Elsevier reserves the right to restrict or remove access due to changes in product portfolio or other market conditions. Updated drug reference includes a comprehensive set of the latest drug monographs to help you make the best clinical judgments to complete each case. Online workbook lessons guide you throughout the patient scenarios to collect information, make decisions, and set priorities. Vital signs tool within each patient's room allows you to check the patient's status at critical moments, and promotes safe practice. Nurse-client interaction videos depict conversations and situations involving nurses, patients, family members, and hospital staff to help you discern between communications that are ideal and those that need improvement. Unique records that house data from the virtual patient's hospital stay allows you to record new findings to see how the data for different attributes has changed over time. Laboratory guide provides standard value ranges for all laboratory values offered within the virtual patient hospital, so you can confirm and compare standard lab values against your patients' test results. Physical examination experience with unique images and assessment findings advance your understanding of each patient's system assessments. Patient medication administration enhances your ability to think critically about safe medication practices

and follow safe medication standards. Allows for easy and quick access to various patient charts, including Physician's Orders, Laboratory Reports, Patient Education, Nursing Admission, and many more. Kardex nursing information regarding patients' acute care provides quick access to vital information such as physician's orders, laboratory reports, patient education, nursing admission, and more, offering a richly detailed portrait of the patient. NEW! Updated content from Introduction to Maternity and Pediatric Nursing, 8th Edition addressed through patient care activities in the VCE workbook, providing you with active learning of the latest evidence-based care.

Virtual Clinical Excursions Pacific View Regional Hospital is a groundbreaking workbook/CD-ROM package that brings learning to life in a "virtual" hospital setting. This guided learning experience features textbook reading assignments that correspond with the CD-ROM and workbook activities. The workbook acts as a map, guiding students through the virtual hospital as they care for patients, helping them make connections between what they experience through the CD-ROM and what they've learned in their textbook. Each virtual hospital visit allows the student to access realistic information resources essential to patient care, resulting in a true-to-life, hands-on learning experience. Real-world problems place users in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. The highly-engaging format encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. Lessons in the workbook complement the content in the textbook and guide the student through the virtual hospital. Includes over 250 NCLEX-RN examination-style questions based on the VCE patients that offer built-in testing of clinical knowledge. Augments knowledge of physical assessment by allowing the student to examine and document vital signs, as well as assess information related to the head and neck, chest, back and spine, upper extremities, abdomen, pelvic, and lower extremities. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care, including: charts, medical administration records, electronic patient records, video clips of nurse-client interactions, and other related materials. Offers students the opportunity to monitor and care for one or more patients during three 45-minute periods of care within a 12-hour shift. Clinical Alerts highlight changes in the patient's condition within these 45-minute periods. A Time Icon appears under each lesson, indicating how much time it will take the student to complete the activity. Includes 6 unique new patients/cases, each with complex conditions for students to care for and monitor within the virtual hospital. A new Medication Room that introduces students to a wide variety of drug storage areas, such as a Unit Dosage Cabinet, Automated Dispensing System, IV Storage, and a Refrigerator. A medication administration feature enables users to select, prepare, and administer medications, reinforcing the precepts of safe medication in a harm-free environment. Over 50 common medication errors imbedded within the software to boost clinical realism and prepare students for current practice. Greater faculty support with the addition of the Fac Pac, a new instructors' website, and a radically expanded testing component. A drug guide provides complete drug monographs for all medications used within the program.

A market-leading must-have and part of the LPN Threads series, *Success in Practical/Vocational Nursing, From Student to Leader, 8th Edition* provides you with everything you need to succeed in both nursing school and in a career in LPN/LVN nursing. With a strong emphasis on leadership, this clear, comprehensive new edition discusses the higher-level roles and responsibilities of an LPN/LVN leader, the skills necessary to become a successful LPN/LVN, and the future of the field. It is filled with opportunities for you to test your understanding as you read, as well as practice NCLEX review questions at the end of each chapter to prepare you for the NCLEX-PN® Examination. Collaborative Care boxes highlight challenges that occur in emerging community and continuing care workforce settings, and give you examples of leadership and management opportunities for LPN/LVNs in any health care setting you may find yourself. Critical Thinking boxes include activities that could be used in a flipped classroom experience, and provide you with critical thinking and problem solving opportunities throughout the chapter to enhance your understanding. Try This boxes provide students and instructors with clinical simulations or activities related to topics discussed in the text that can be utilized in simulation or role-play scenarios in class. Professional Pointers boxes give advice on nursing best practices in the professional arena during and after nursing school. Get Ready for the NCLEX® Examination! section at the end of the text contains key points, additional learning activities, and review questions for the NCLEX® Examination (including alternate format items in every chapter). Presents tips on taking the NCLEX-PN examination and information on applications, interviews, and the job search, including electronic resumes. Full-color design, cover, photos, and illustrations make this text visually appealing, pedagogically useful and easy to read. Numbered objectives open each chapter and provide a framework for content. Key points at the end of each chapter summarize chapter highlights and serve as an excellent review tool. Key terms with phonetic pronunciations are at the beginning of each chapter and in full color at first mention in the text, and assist you in improving and supplementing your terminology and language skills before you enter clinical practice. References and Suggested Readings lists are arranged by chapter at the end of the book to provide you with resources for further understanding of text concepts. NEW! Community Resources chapter covers tools and resources that you can find within your community to help you with learning, personal, and family needs that could interfere with success in school. NEW! Work Force Trends chapter discusses the most current issues, challenges, and concerns with the LPN/LVN workforce. NEW! Storytelling narratives at the beginning of each chapter use true stories to enhance learning and demonstrate the relevancy of key topics.

Known for its comprehensive coverage, readability, and visual presentation, this textbook provides the most extensive coverage of all content areas including maternity and newborn care. Written at a 7th grade reading level, this edition features increased emphasis on delegation and safety to help prepare students to function effectively in today's practice settings.

Take a guided tour through Canyon View Regional Medical Center with Virtual Clinical Excursions 2.0. This interactive learning aid combines a CD-ROM with a workbook and the parent textbook to provide the perfect learning experience. The student is able to learn and develop patient care skills in a virtual hospital environment. It includes such features as patient medical charts, medical administration records, and video streaming of nurse patient interactions. These resources provide the student the opportunity to assess and analyze patient information, establish a nursing diagnosis, set priorities, implement care, and evaluate the outcomes.

Principles and Practice of Psychiatric Nursing, 8th Edition provides comprehensive coverage of psychiatric nursing. Beginning with fundamental coverage of all key psychiatric nursing principles, it goes on to address the complete continuum of care - including mental health promotion and illness prevention, crisis intervention, and psychiatric rehabilitation and recovery. The book then applies psychiatric nursing principles to specific clinical disorders based on adaptive-maladaptive coping responses, the six-step nursing process, and DSM-IV-TR and NANDA diagnoses. Subsequent chapters describe various modalities of treatment (psychopharmacology, somatic therapies, cognitive and behavioral therapies, managing aggressive behavior, and more), hospital-based and community-based care, and treatment of special populations. The Stuart Stress Adaptation Model provides a consistent nursing-oriented framework for understanding health and wellness. Evidence-based algorithms are presented in lieu of the less relevant critical pathways found in other texts. The latest American Nurses Association's Standards of Care prepare students for the realities of evidenced-based care in nursing practice. A vibrant, full-color design enhances and enriches students' understanding of essential concepts. Short vignettes in a patient's and family's own words give readers a different perspective of the caregiving process. Case studies present in-depth clinical scenarios that show each step of the nursing process, demonstrating realistic applications of the nursing process. Critical thinking questions interspersed throughout the text encourage independent clinical reasoning. Numerous boxes and tables throughout the book highlight important issues and current topics related to chapter content in visual, easy-to-digest segments. Citing the Evidence boxes provide summaries of recent clinical research, with new boxes added to the Evolve website each month. Nursing Treatment Plan Summaries present care plans, including patient goals with nursing interventions and rationales, to guide nursing care related to the treatment of major disorders. Patient Education Plans and Family Education Plans include key information nurses need to communicate to the patient and family members. Sample Therapeutic

Dialogues for nurse-patient interactions demonstrate the difference between therapeutic and nontherapeutic communication. Clinical chapters have been carefully revised and updated to include the latest research and appropriate nursing and medical diagnoses relevant to each disorder. A strengthened family focus and more in-depth discussion of outpatient care reflect current trends in psychiatric nursing. NIC and NOC are introduced in the nursing process chapter (chapter 12) and incorporated as appropriate into disorders chapters. Chapter Focus Points at the end of each chapter provide a comprehensive review of important information. Key terms are defined in the glossary and listed with page references at the end of the chapter in which they appear. A comprehensive list of behavioral rating scales is offered as an appendix for easy reference. A companion CD-ROM offers animations, interactive exercises, review questions for the NCLEX examination, and an audio glossary for additional study and review. A companion CD-ROM offers animations, interactive exercises, review questions for the NCLEX examination, and an audio glossary for additional study and review. New chapters explore the latest trends and relevant topics, including: Families as Resources, Caregivers, and Collaborators (Chapter 11); Family Interventions (Chapter 33) Community-Based Psychiatric Nursing Care (Chapter 35); and Psychological Care of Patients with Life Threatening Illness (Chapter 40).
