Prayers for Everyday and Not-so Everyday Moments : Timeless Wisdom from the Teachings of the Hasidic Master, Rebbe Nachman of Breslov

Since before the invention of photography, the female form has been used in art and various forms of entertainment because, after all, scantily clad women attract attention. Sex Sells takes a look at women in photos and on film. The book contains no nudity, but is intended for adults and mature young people. From piquant hand-colored "naughty" pictures to biographies of photographers, strippers, pinup girls and movie stars, this lavishly illustrated work will enlighten, amuse and entertain you.

Providing a critical framework for the consideration of the relationship between modern social anthropology and linguistics, this volume covers topics such as classification, symbolism, and structuralism. The relevance of the works of Saussure, Lévi-Strauss and Chomsky is considered. There are two case-studies: the first outlines a 'social history' of the succession of pidgins that are documented on the West African coast, ending with Pidgin English. The second analyzes the status of three language varieties used in a 'trilingual' community in the Carnian Alps. Originally published in 1971.

New York Times-bestselling author and cultural critic Chuck Klosterman sorts through the past decade and how we got to now. Chuck Klosterman has created an incomparable body of work in books, magazines, newspapers, and on the Web. His writing spans the realms of culture and sports, while also addressing interpersonal issues, social quandaries, and ethical boundaries. Klosterman has written nine previous books, helped found and establish Grantland, served as the New York Times Magazine Ethicist, worked on film and television productions, and contributed profiles and essays to outlets such as GQ, Esquire, Billboard, The A.V. Club, and The Guardian. Chuck Klosterman's tenth book (aka Chuck Klosterman X) collects his most intriguing of those pieces, accompanied by fresh introductions and new footnotes throughout. Klosterman presents many of the articles in their original form, featuring previously unpublished passages and digressions. Subjects include Breaking Bad, Lou Reed, zombies, KISS, Jimmy Page, Stephen Malkmus, steroids, Mountain Dew, Chinese Democracy, The Beatles, Jonathan Franzen, Taylor Swift, Tim Tebow, Kobe Bryant, Usain Bolt, Eddie Van Halen, Charlie Brown, the Cleveland Browns, and many more cultural figures and pop phenomena. This is a tour of the past decade from one of the sharpest and most prolific observers of our unusual times.

As a follow up to the bestselling Killing Kebbles: An Underworld Exposed (2010), the new book from Mandy Wiener, Ministry of Crime: An Underworld Explored, examines how organised crime, gangsters and powerful political figures have been able to capture the law enforcement authorities and agencies. These various organisations have been eviscerated, hollowed out and left ineffective. They have been infiltrated and compromised and, as a result, prominent underworld figures have been able to flourish in South Africa, setting up elaborate networks of crime with the assistance of many cops. The criminal justice system has been left exposed and it is crucial that the South African public knows about the capture that has occurred on different levels. Publisher.

Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather.

Set between Normandy and Arizona, In the Gold of Time is a seductive tale of silences and dark, half-revealed secrets, and a haunting elegy for innocence lost in a lost world. A young father holidays by the sea near Dieppe with his reproachfully perfect wife and their twin daughters. Returning from the local shop, he meets an eccentric old lady, Alice Berthier, who lives with he mute sister, Clemence. Their mysterious house is full of old photographs and strange objects--sacred ceremonial masks once belonging to the Hopi, a tribe of Native Americans from Arizona. Haunted by memories of a tragic past, Alice takes comfort in her new companion, and he, in turn, is drawn into her mysterious world. As his family recedes into the background, her stirring tales of the Hopi and the Arizona desert become the only salve to his despondent soul

Humble beans are the true MVPs of the kitchen. They have a long shelf life, are packed with protein, and best of all, they taste great in a wide variety of applications. This collection of 20 foolproof recipes gives beans their due, putting them center stage in recipes such as Ultracreamy Hummus (you've never had homemade hummus this velvety-smooth) and White Bean and Tuna Salad (two pantry-friendly ingredients come together for a dish that's greater than the sum of its parts). We share the secrets to making light and crispy Falafel as well as irresistible soups and sides. Whether you're looking for breakfast inspiration (our recipe for Scrambled Eggs with Pinto Beans and Cotija Cheese delivers tender eggs with a mildly spicy kick), internationally inspired mains such as Palak Dal (Spinach Dal with Cumin and Mustard Seeds) and Tuscan Shrimp and Beans, or hearty vegetarian dishes such as Black Bean Burgers and Meatless "Meat" Sauce with Chickpeas and Mushrooms, this collection gives you 20 great reasons to put beans on the menu.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

When Bruno Sacco walked through the doors on his first day at Mercedes-Benz on 13 January 1958 it is highly unlikely that his Daimler-Benz colleagues could ever imagine that this nervous young man would not only revolutionize design but would change the way design and innovation connected with brand tradition forever. Bruno Sacco is one of the most influential automotive designers of the late twentieth century; many models launched during his era now characterize the Mercedes-Benz brand. When Nik Greene asked Bruno Sacco to assist with this book, he replied humbly 'No-one designs a car alone, and more to the point, I never, for one minute, wanted to. From the moment I became Head of Design, I put down my pens and became a manager of minds.' With over 330 photographs and illustrations, this book includes an overview of the early days of functional vehicle design; the influence of safety on design evolution; protagonists of Daimler-Benz design from Hermann Ahrens to Paul Bracq; design philosophy and innovation under Bruno Sacco; the Sacco-designed cars and, finally, the Bruno Sacco legacy.

Enna is a girl who doesn't believe in herself and often utters the phrase "I can't do that!" One night in a dream she sees all the possible future versions of herself, discovering that she can be any of those versions with time, knowledge and dedication. She develops a growth mindset throughout her journey and instead of saying "I can't do that," she learns to say "I can't do that YET!".

First published in 1920, this book is a translation-the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of On the Divine Names and The Mystical Theology, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as "pseudo-Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers.

Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a quality limited to an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study.

Each year, Americans consume hundreds of food products that contain truly dangerous compounds, including heavy metals, pesticides, and other harmful additives--with the blessing of the FDA. Why is this happening and why haven't you heard about it? In Unsafe at Any Meal, Dr. Renee Dufault, former food investigator for the Food and Drug Administration, provides the startling answers. While at the FDA, Dr. Dufault discovered that mercury--a highly toxic metal--was contaminating the plumbing systems of many food manufacturing plants. Upon further examination, she discovered that the same mercury was also evident in a number of processed foods commonly sold in supermarkets. When Dr. Dufault revealed these disturbing findings to her superiors, she was told to stop her investigation. Her continued efforts to raise the issue always met with a dead end, so she chose to take an early retirement from the FDA. Dr. Dufault then devoted her energy to making the public aware of the insidious dangers that contaminate our food. In 2010, she founded an organization of scientists to study the scope of this problem and has published numerous research articles on the topic with little fanfare. To expose what still seems to be a well-kept secret by the FDA, she has written Unsafe at Any Meal to provide consumers with the information they need to know. The book begins with the author's story leading up to the creation of this work. It then describes the various toxic substances that are most commonly found in our food supply, and explains how they affect your genes, health, and the surrounding environment. After examining the Standard American Diet, which is sorely lacking in disease-preventing nutrients, it discusses the country's trend toward consuming a skyrocketing amount of ingredients that can contain heavy metals. It further shows how exposure to these heavy metals can contribute to conditions such as ADHD or autism. Also included is a helpful guide to reading food labels, recognizing misleading marketing tactics, and knowing what to look for--and what to look out for--in the aisles of your grocery store. Over fifty years ago, Rachel Carson's book Silent Spring exposed the dangers of DDT in our food supply. Unfortunately, it seems that the problem of food contamination has actually become worse. Backed by research and first-hand experience, Dr. Dufault reveals how the FDA has failed us, and outlines how you can protect yourself and your family by knowing what to avoid and by filling your kitchen with food that is clear of toxins.

Lamborghini Countach

This volume of original stories is all for furry feline friends. A unique collection of fantastical cat tales.

Explanations of the mechanisms and kinetics of martensitic transformations and behavior of martensitic materials (such as shape memory alloys and high performance steels) form the backbone of this collection of reviews honoring materials science pioneer Morris Cohen of MIT. Among the topics: thermod

When launched at the Geneva motor show in 1971, the Lamborghini Countach was like a vision of the future, with its incredibly radical styling by Bertone's Marcello Gandini. Through various evolutionary stages, the Countach remained in production from 1973 to 1990 and during that time 1,997 examples were manufactured, making it exceedingly rare as well as highly desirable. Subsequently the magnificent Countach has risen to almost mythical status among collectors and enthusiasts. Now, as the model approaches its 50th anniversary, two passionate and deeply knowledgeable Countach co-owners have written an authoritative new book -- the first English-language study of the car for 30 years -- to celebrate this fabled Italian supercar in all its glory. The Countach's spectacular design and unique engineering are explored in depth, including analysis of its Bizzarrini-designed V12 engine with forward-mounted gearbox (giving 'south-north' orientation), intricate spaceframe chassis and aerodynamics. Painstaking development of the original LP500 prototype into the final LP400 production version is covered in detail, with insights into the work of key figures Paolo Stanzani, Giampaolo Dallara, Bob Wallace and Massimo Parenti. Production evolution is explained, from LP400 to LP400S and LP500S, then the definitive 5000 Quattrovalvole (QV) versions with four-valve cylinder heads, culminating in the '881/2' and '25th Anniversary' models. For today's owners and aspiring owners, matters of maintenance and restoration are investigated, with plenty of personal perspective. Speaking from the heart: Thillainathan Pathmanathan describes a 30-year journey towards Countach ownership, including visits to the Sant'Agata factory and encounters with significant people in the Countach story. Tonino Lamborghini, son of founder Ferruccio Lamborghini, provides a special chapter dispelling common myths, misconceptions and mistakes about the cars and the company. Comprehensive presentation of data includes the best available information on the thorny subject of chassis numbering and production figures. Beautifully designed and illustrated, this book will be treasured not

only by Lamborghini fans but anyone who adores sports cars, especially of the exotic Italian variety.
