**inch...this work is likely to become a standart work very quickly and is to be recommended to all schools where recorder studies are undertaken inch. (Oliver James, Contact Magazine) A novel and comprehensive approach to transferring from the C to F instrument. 430 music examples include folk and national songs (some in two parts), country dance tunes and excerpts from the standard treble repertoire of •Bach, Barsanti, Corelli, Handel, Telemann, etc. An outstanding feature of the book has proved to be Brian Bonsor's brilliantly simple but highly effective practice circles and recognition squares designed to give, in only a few minutes, concentrated practice on the more usual leaps to and from each new note and instant recognition of random notes. Quickly emulating the outstanding success of the descant tutors, these books are very popular even with those who normally use tutors other than the Enjoy the Recorder series.**

Master Nicholas of Amsterdam was a prominent master of arts in Germany during the first half of the fifteenth century. He composed various commentaries on Aristotle's works. One of these commentaries is on the logica vetus, the old logic, viz. on Porphyry's Isagoge and on Aristotle's Categories and On Interpretation. This commentary is edited and introduced here. Nicholas is a 'modernus' - as opposed to the 'antiqui', who were realists - which means that he is a conceptualist belonging to the university tradition that accepted John Buridan (ca. 1300-1360 or 1361) and Marsilius of Inghen (ca. 1340-1396) as its masters. In medieval philosophy, a parallel between thinking and reality is generally upheld. Nicholas makes a sharp distinction between the two; this may be interpreted as a step towards a separation between the two realms, as is common in philosophy in later centuries. Other characteristics of Nicholas are that he defends the position that science has its place in a proposition, and does not simply follow reality. Furthermore, he emphasizes the part played by individual things. Fifteenth-century philosophy has hardly been studied, mainly because that century has long been considered unoriginal. Nicholas of Amsterdam certainly deserves the historian's interest in order to evaluate how medieval philosophy prepared the way for modern philosophy. Commentary on the Old Logic. Ormai giunta al suo terzo libro (dopo due grandi successi come Vivere in 5 con 5 euro al giorno e Cucinare guadagnando in soldi e in salute), Stefania Rossini conferma la sua scelta a favore della «decrescita felice». Un'altra vita, sobria e in armonia con i ritmi della Madre Terra, è davvero possibile, senza dover stravolgere la propria esistenza con rinunce frustranti. La storia di Stefania e della sua famiglia sono l'esempio di come attraverso il circolo virtuoso dell'autoproduzione, del riutilizzo e dello scambio, si possa risparmiare denaro e guadagnare tempo, che è forse il bene più prezioso di cui disponiamo. Grazie ai suggerimenti contenuti in questo libro, ciascuno potrà subito iniziare a far pulizia e a mettere ordine nella propria casa e nella propria giornata. Nel processo di «decrescita», l'organizzazione è tutto! In particolare imparerete:

- ad avere un pasto sempre pronto quando rincasate tardi dal lavoro, senza che questo rappresenti uno speciale impegno;
- a bandire la noia dalle merende dei vostri piccoli, grazie a nuove succulente ricette, dolci e salate;
- a nutrirvi in modo più gustoso e comunque salutare (cibi fermentati);
- a conoscere e usare in cucina i «superalimenti» (alghe, bacche di Goji Berries) e ad autoprodurre «vitamine» (i germogli);
- a curare e mantenere giovane il vostro corpo, autoproducendo creme e cosmetici con prodotti naturali ed economici;
- a ottenere piante per il vostro orto (in terra o in cassetta!), a costo zero;
- a razionalizzare tempi e prodotti per le pulizie di casa;
- a rivoluzionare la vostra idea di vacanza... e soprattutto i costi!
