Annotation Colorado's Thirteeners is a comprehensive hiking and climbing guide to Colorado's 59 major peaks between 13,800 and 13,999 feet in elevation -- some of the most beautiful in the state. This book describes just 100 walks out of the many thousands possible in the Alps, with carefully chosen mountain huts providing the focus for each walk. With a geographical span that ranges from the Maritime Alps of southern France to the Julians of Slovenia, the routes include Italy's Gran Paradiso, various regions of Austria, the Bernese Oberland and the bizarre towers of the Dolomites of South Tirol. Three new routes and huts in this new edition provide a better balance to the collection. Each day-walk and its associated mountain hut has been especially selected to show the amazing diversity of this wonderful mountain chain. There are walks to suit every taste: gentle and undemanding, long and tough, and everything in between. While most can be tackled in a day, some may require an overnight stay in the hut, and some suggestions are made for multi-day tours.

Winter Walks in the Lake District is a collection of enjoyable walks and easy winter climbs designed to make the most of the winter conditions that regularly descend on

the Lake District. Local author Stephen Goodwin has selected his favourite cold-weather outings, which all share the magic and exhilaration that snow or even a hoar frost brings to the Lakeland fells. The routes include accessible jaunts up Gowbarrow, High Rigg and Latrigg, Keswick's 'house mountain' - an ideal spot to survey the snow cover on the bigger tops to the south; ascents of Helvellyn from the east and west, via classic and lesser-known ridgelines, or graded climbs on Brown Cove Crags and Nethermost Pike; high-level horseshoes above Haweswater and Langdale; and, of course, ascents of the classics - Scafell Pike, Blencathra, Great End - although not necessarily by the most travelled routes. Alongside advice on winter conditions and kit, each of the routes in this book features detailed introductions and directions, Ordnance Survey 1:25,000-scale maps, photo topos for the graded winter climbs where appropriate, and local information such as the best pubs and cafes.
