Web Design All In One For Dummies

Speak to the
world with
your very own
custom
website!

Creating a Web
Site is the

Read Online Web Design All In One For Dummies

kids' guide to
learning basic
website
design! From
planning to
perfecting,
this book
walks you
through the
entire process
of building
your own

Read Online Web Design All In One For Dummies.

website, with
easy-to-read
instructions
and plenty of
pictures every
step of the
way. Good
planning saves
you a ton of
work, so
you'll begin
by getting

Read Online Web Design All In One For Dummies

your ideas out
of your head
and onto
paper. Next,
you'll find a
template that
already has
the basic
features you
want, so you
can start
working on the

Read Online Web Design All In One For Dummies

fun stuff
right away.
You'll learn
all the HTML
and CSS you
need to make
your site look
and act the
way you want
it to, and
you'll learn
how to add

Read Online Web Design All In One For Dummies

video, images,
widgets, and
more to make
the design
your very own!
Before you
know it,
you'll have
your own
custom-built
website
showcasing

Read Online Web Design All In One For Dummies

your talents
and interests
for the world.
If you want
your own
website, why
settle for a
basic template
that makes
your page look
like everyone
else's? You

Read Online Web Design All In One For Dummies

don't need to build it from scratch—with a few simple lines of code, you can transform a basic template into the site of your dreams. This book shows you

Read Online Web Design All In One For Dummies

how to have
fun from page
one as you:
Figure out
just what kind
of site you
want to build
Create a mood
board to bring
your ideas
into reality
Choose your

Read Online Web Design All In One For Dummies

favorite
template and
customize it
with CSS and
HTML Add
widgets,
pictures,
video, and
more to make
your site your
very own Easy

accessible to the widest possible audience, and when it's time to call in a pro like author Sue Jenkins. It's just what you need to start and manage a great site.

Thoroughly rewritten for today's web environment, this bestselling book

Read Online Web Design All In One For Dummies

offers a fresh look at
a fundamental topic
of web site
development:
navigation design.

Amid all the
changes to the Web
in the past decade,
and all the hype
about Web 2.0 and
various "rich"
interactive
technologies, the

Read Online Web Design All In One For Dummies

basic problems of creating a good web navigation system remain. Designing Web Navigation demonstrates that good navigation is not about technology-it's about the ways people find information, and how you guide them. Ideal for

Read Online Web Design All In One For Dummies

beginning to
intermediate web
designers,
managers, other
non-designers, and
web development
pros looking for
another perspective,
Designing Web
Navigation offers
basic design
principles,
development

Read Online Web Design All In One For Dummies

techniques and practical advice, with real-world examples and essential concepts seamlessly folded in. How does your web site serve your business objectives? How does it meet a user's needs? You'll learn that navigation

Read Online Web Design All In One For Dummies

design touches most other aspects of web site development. This book: Provides the foundations of web navigation and offers a framework for navigation design Paints a broad picture of web navigation and basic human information

Read Online Web Design All In One For Dummies

behavior

Demonstrates how navigation reflects brand and affects site credibility Helps you understand the problem you're trying to solve before you set out to design Thoroughly reviews the mechanisms and different types of
