Study Guide to DSM-IV-TR® demonstrates the fundamental features of DSM-IV-TR disorders through brief clinical vignettes, and questions and answers.

These vignettes help beginning students and experienced clinicians visualize a disorder in the context of a multidimensional patient who is characterized by more than just the fulfillment of individual diagnostic criteria. Study Guide to DSM-IV-TR® • Describes common problems in diagnosis•

Provides guidelines for resolving issues of diagnostic uncertainty• Summarizes the core concepts of the diagnostic group discussed in each chapter•

Presents interesting case examples that provide "diagnostic prototypes" of the individual disorders included in DSM-IV-TR• Includes self-assessment

questions that allow the reader to test their understanding of DSM-IV-TR Several new sections have been added • Boundary Between Normality and

Abnormality• Dimensional vs. Categorical Classification Study Guide to DSM-IV-TR® is an indispensable companion designed to help students, residents,

and clinicians conceptualize how DSM-IV-TR can be used in everyday practice.

The Dog Control Officer II Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in

the areas that will likely be covered on your upcoming exam, including but not limited to; Care and handling of dogs and small animals; Preparing written material; Supervision; and more. Psychiatrists and residents are faced with the important -- but what may feel overwhelming -- task of refreshing their knowledge of the whole of psychiatric practice, typically while remaining engaged in full-time clinical activity. Psychiatrists will find the logical structure, substantive questions, and thorough explanations provided by the Study Guide for the Psychiatry Board Examination to be as reassuring as they are educational. Although readers are advised to consult a range of resources in preparation for the examination, this guide is indispensable. It is the first and only guide to reflect the revisions contained in DSM-5®, and it will ably assume a primary role in the study and review process. The guide is designed for maximum usefulness, with specific features and attributes to support knowledge recall and successful examination performance. \* The authors are from a cross-section of accomplished students, fellows, and junior and senior faculty, all of whom have faced or will face the board examination and who understand its importance to the profession.\* Topics were determined by the American Board of Psychiatry and Neurology Certification Examination in Psychiatry 2015 Content Blueprint.\* The approximately 400 questions were formulated from information extracted from widely available American Psychiatric Publishing textbooks and accurately reflect the accepted psychiatric knowledge base.\* Each multiple choice question is followed by an explanation of why the correct answer is correct and the others are incorrect, and every question and explanation is referenced, directing the reader to the primary material for more in-depth learning and study.\* The volume was designed as a study guide for both the initial psychiatry board examination and the recertification examination. The process of working through the study guide will allow the reader to identify areas of strength and weakness, initiate further study, and test and retest knowledge, ultimately preparing for the examination's rigors. Only the Study Guide for the Psychiatry Board Examination offers support for the new, DSM-5® -- compatible examination, and that alone renders it essential.

Use this practical study guide to get more out of Grove & Gray ' s Understanding Nursing Research, 8th Edition! With chapters corresponding to the textbook, this workbook provides exercises that build your knowledge and boost your critical appraisal skills. It offers hands-on practice in applying nursing research to evidence-based practice while reinforcing the steps of the research process. Like the textbook, this edition includes a stronger emphasis on critical appraisal — with an appendix of three published research studies referenced in exercises throughout the book. Time-tested and innovative exercises reinforce key concepts with fill-in-the-blank, matching, and multiple-choice questions, with exercises including Terms and Definitions, Linking Ideas, Web-Based Information and Resources, and Conducting Critical Appraisals to Build an Evidence-Based Practice. Critical Appraisal activities provide opportunities to apply your research knowledge to evaluate the quantitative, qualitative, and mixed methods studies located in the appendices. Appraisal Guidelines provide step-by-step guidance in critically appraising published research literature. Quick-reference printed tabs in the print edition make it easy to locate the Answer Key and each of the book's three published studies in the appendices. Answer Key is provided for the exercises in each chapter, allowing you to check your understanding and learn from your mistakes. NEW! Well Control for Completions and Interventions explores the standards that ensure safe and efficient production flow, well integrity and well control for oil rigs, focusing on the post-Macondo environment where tighter regulations and new standards are in place worldwide. Too many training facilities currently focus only on the drilling side of the well's cycle when teaching well control, hence the need for this informative guide on the topic. This long-awaited manual for engineers and managers involved in the well completion and intervention side of a well's life covers the fundamentals of design, equipment and completion fluids. In addition, the book covers more important and distinguishing components, such as well barriers and integrity envelopes, well kill methods specific to well completion, and other forms of operations that involve completion, like pumping and stimulation (including hydraulic fracturing and shale), coiled tubing, wireline, and subsea intervention. Provides a training guide focused on well completion and intervention Includes coverage of subsea and fracturing operations Presents proper well kill procedures Allows readers to quickly get up-to-speed on today's regulations post-Macondo for well integrity, barrier management and other critical operation components

Do you feel like you have to settle for a life of duty? Many women feel pressure to strive to be the women they "ought" to be, often living with the sense that they've failed. Sadly, too many messages for Christian women do nothing but add to the pressure: "Do these ten things, and you will be a godly woman." The effect has not been good on the feminine soul. But her heart is still there. Every woman was once a little girl. And every little girl holds in her heart her most precious dreams. She longs to be swept up into a romance, to play an irreplaceable role in a great adventure, to be the beauty of the story. Those desires are far more than child's play. They are the secret to the feminine heart. Staci Eldredge wrote Captivating to share that your heart matters more than anything else in all creation. Throughout this study guide, you will: Learn how to guard the most important thing about you...your heart. Find courage to walk away from the ways we live out of fear. Let God tenderly open our wounds to set us free. Fight the right enemy, which is not men. And it's not women. Possess a beauty that is worth pursuing. Our wounds reveal what we are meant to bring to the world. The desires you had as a little girl and the longings you still feel are telling you of the life God created you to live. Really. He offers to come now, as the Hero of your story--to rescue your heart and release you to live as a fully alive and feminine woman. A woman who is truly captivating. Sessions include: The Heart of a Woman Fallen Eve The Wound and the Healer A Special Hatred Beauty to Unveil Your Irreplaceable Role Designed for use with the Captivating Updated Video Study available on DVD or streaming video, sold separately.

Building upon the highly successful 1st edition, this book is a comprehensive review designed to prepare pediatric residents, fellows, and pediatricians for the General Pediatrics Certifying Examination, and for the American Board of Pediatrics Maintenance of Certification. Pediatric Board Study Guide: A Last Minute Review, 2nd edition, covers all aspects of

pediatric medicine; each chapter has been updated according to the most recent content specifications provided by the ABP. The 2nd edition provides more illustrations, diagrams, radiology images, and clinical case scenarios to further assist readers in reviewing pediatric subspecialties. New chapter topics include nutrition, sports medicine, patient safety, quality improvement, ethics, and pharmacology. Finally, the book closes with a "Last Minute Review" of high-yield cases arranged in the same sequence as the chapters, providing readers with a concise study guide of critical cases and conditions. Pediatric residents and fellows preparing for the board examination, pediatricians, and pediatric subspecialists preparing for certification maintenance will find Pediatric Board Study Guide: A Last Minute Review, 2nd edition easy to use and comprehensive, making it the ideal resource and study tool.

"To this day we have not the slightest idea what it was Jesus twice scribbled in the sand. By and large the commentaries have asked the wrong question through the ages. They labor over the content, over what he might have written. They ask what, without ever realizing the real question is why? It was not the content that mattered but why he did it.

Unexpected. Irritating. Creative." Singer, songwriter and diligent student of Scripture, Michael Card is well known for the depth of his lyrics and the artistry of his music. But far more significant than the songs he has penned is the source of his inspiration--the creativity embodied in Jesus Christ, the incarnate Word of God. In his book Scribbling in the Sand Card explores the biblical foundations of true Christian creativity. Whether we think of ourselves as creative or not, all of us are created in the image of our Creator God, and thus creativity is a vital expression of our discipleship. This companion study guide provides eight sessions to help individuals and groups interact with the themes of Michael Card's book. With discussion questions, inductive Bible studies and creative exercises, each session provides opportunities for reflection, discovery and application. The user-friendly format makes this guide ideal for small groups, Sunday school classes or anyone who wants to enter into a life of Christian creativity.
