The perfect reality is just a thought away, but it comes at a chilling price. In a near future world, a social network by the name of MINDS gifts its users with the unique ability to

communicate directly by thoughts and recreate reality by their deepest fantasies and desires. In the MINDS network, desires are actualized in a spilt of a second and unwanted elements erased from reality. The advanced algorithms of MINDS enable the user to

Clearly, the "normal" way of life is the opposite of genuine

sustainability now, and sharing this wisdom with the young ones. There's never been a better time to hit the books and feed our minds — before the lights go out. Nothing can change until ideas change. My first book, *What Is Sustainable,*

## Where To Download What Are People For

persuasive case is made for removing our ageist blinders and seeing old age as a developmental stage of life.

This book is a detailed depiction of the "cuts" that people incur or will incur over the course of their lives, and how those "cuts" subsequently shape

## Where To Download What Are People For

their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred).

Unfortunately, people will inevitably incur hurts and pains in life, which most are beyond their own control. One simply cannot control what happens to them at the hands of another.

## Where To Download What Are People For

People hurt other people. It's not so much the hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the

## Where To Download What Are People For

art of disguising the pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in

## Where To Download What Are People For

need of healing. The purpose of this book is to aid in identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard.

Oftentimes, people need healing to recover from some trauma or tragedy

## Where To Download What Are People For

that they've endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately forsaking the need and opportunity to heal. It's the lack of healing that causes people to hurt others or live unhappy lives.

# Where To Download What Are People For

This book was written to aid people with identifying their hurt, their need for healing, and ultimately helping them to heal and subsequently live their best lives.
