Irene is as mean as she is beautiful, so Scottie makes a point to keep her distance. When the accident sends Irene's car to the shop for weeks' worth of repairs and the girls are forced to carpool, their rocky start only gets bumpier. But when an opportunity arises for Scottie to get back at her toxic ex—and climb her school's social ladder—she bribes Irene into an elaborate fake-dating scheme that threatens to reveal some very real feelings. From author Kelly Quindlen comes a new laugh-out-loud romp through the ups and downs of teen romance, perfect for fans of Becky Albertalli.

The popular indie rock performer describes her battle against the hereditary mental illness that decimated her mother's health and prompted the author to engage in a self-destructive downward spiral of drugs and promiscuity before discovering her musical talent and the will to overcome her challenges.

A harrowing, remarkable poetry memoir about one girl's struggle with anxiety disorder. This is a true story of growing up, breaking down, and coming to grips with a psychological disorder. When Samantha Schutz first left home for college, she was excited by the possibilities -- freedom from parents, freedom from a boyfriend who was reckless with her affections, freedom from the person she was supposed to be. At first, she revelled in the independence. . . but as pressures increased, she began to suffer anxiety attacks that would leave her mentally shaken and physically incapacitated. Thus began a hard road of discovery and coping, powerfully rendered in this poetry memoir.

NEW YORK TIMES BESTSELLER • A Good Morning America Book Club Pick The author of the New York Times bestselling phenomenon Crazy Rich Asians takes you from Capri to NYC, where Lucie Tang Churchill finds herself torn between two men—and two very different cultures. On her very first morning on the jewel-like island of Capri, Lucie Churchill sets eyes on George Zao and she instantly can't stand him. She can't stand it when he gallantly offers to trade hotel rooms with her so that she can have a view of the Tyrrhenian Sea, she can't stand that he knows more about Casa Malaparte than she does, and she really can't stand it when he kisses her in the darkness of the ancient ruins of a Roman villa and they are caught by her snobbish, disapproving cousin Charlotte. The daughter of an American-born Chinese mother and a blue-blooded New York father, Lucie has always sublimated the Asian side of herself in favor of the white side, and she adamantly denies having feelings for George. But several years later, when George unexpectedly appears in East Hampton, where Lucie is weekendng with her new fiancé, Lucie finds herself drawn to George again. Soon, Lucie is spinning a web of deceit that involves her family, her fiancé, the co-op board of her Fifth Avenue apartment building, and, ultimately, herself as she tries mightily to deny George entry into her world—and her heart. Moving between summer playgrounds of privilege, peppered with decadent food and extravagant fashion, Sex and Vanity is a truly modern love story, a daring homage to A Room with a View, and a brilliantly funny comedy of manners set between two cultures.

A lyrical novel, spanning four decades in New York City, about a couple torn apart and the lengths to which they will go to be reunited. Vince Passaro's first novel, 2002's Violence, Nudity, Adult Content, was a provocative book that explored the darkest human emotions and the traumas of mental illness, sexual assault, and murder. Now, nearly twenty years later, Passaro is back with his follow-up, Crazy Sorrow, a novel that is equally explosive and more grand in scope. The story opens in the shadow of the new World Trade Center, on July 4, 1976, when students George and Anna meet on the weed- and wine-fueled night of the nation's Bicentennial celebration. George, haunted by his upbringing, instantly falls for the sensual, magnetic Anna. Soon, they couple up, dropping acid, swapping music, exploring the city and each other. Yet their romance is short-lived, and they go their own ways. Passaro chronicles the next four decades, following George and Anna through their various relationships, their sex lives both youthful and mature, their failed marriages, and the travails of parenthood and their careers. Yet as the years go by one thing remains constant: the former lovers wonder what happened to each other. Finally, miraculously, they reconnect as the new century is beginning, only to discover that history itself will have a say in whether they can stay together. Crazy Sorrow is an ambitious examination of the forces that draw people together and drive them apart—yet it also expands beyond the points of view of its characters to capture the movement of time and to reveal a living, breathing New York that is both constantly changing and always familiar. Crazy Sorrow stands as Passaro's powerful love letter to his characters and to the city that has shaped them.

New book from internationally recognised clinical psychologist, and founder of Compassion Focused Therapy, Prof Paul Gilbert. In this book, Gilbert draws on a wide range of areas - including evolutionary theory, psychology and social science - to explore our potential for craziness, and how compassion can be the antidote.

“Exquisite. Full of wry humor, tenderness, and compassion.” —Jeannette Walls, New York Times bestselling author A hilarious and heartbreaking memoir about an outlandish mother and son on an odyssey of self-discovery, and the rag-tag community that rallied to help them as the mother entered the final phase of her life. Dan Mathews knew that his witty, bawdy, unhinged mother, Perry, was unable to maintain her fierce independence at seventy-eight—so he flew her across the country to Virginia to live with him in an 1870 townhouse badly in need of repairs. But to Dan, a screwdriver is a cocktail not a tool, and he was soon overwhelmed with two fixer-uppers: the house and his mother. Unbowed, Dan and Perry built a rollicking life together fueled by costume parties, road trips, after-hours gatherings, and an unshakeable sense of humor as they faced down hurricanes, blizzards, and Perry's steady decline. They got by with the help of an ever-expanding circle of sidekicks—Dan's boyfriends (past and present), ex-cons, sailors, strippers, deaf hillbillies, evangelicals, and grumpy cats—while flipping the parent-child relationship on its head. But it wasn't until a kicking-and-screaming trip to the emergency room that Dan discovered the cause of his mother's unpredictable, often caustic behavior: Perry had lived her entire adult life as an undiagnosed schizophrenic. Irreverent and emotionally powerful, Like Crazy is a darkly comic tale about the perils and rewards of taking in a fragile parent without derailing your life in the process. A rare story about mental illness with an uplifting conclusion, it shows the remarkable growth that takes place when a wild child settles down to care for the wild woman who raised him.

Crazy Rich Asians is the outrageously funny debut novel about three super-rich, pedigreed Chinese families and the gossip, backbiting, and scheming that occurs when the heir to one of the most massive fortunes in Asia brings home his ABC (American-born Chinese) girlfriend to the wedding of the season. When Rachel Chu agrees to spend the summer in Singapore with her boyfriend, Nicholas Young, she envisions a humble family home, long drives to explore the island, and quality time with the man she might one day marry. What she doesn't know is that Nick's family home happens to look like a palace, that she'll ride in more private planes than cars, and that with one of Asia's most eligible bachelors on her arm, Rachel might as well have a target on her back. Initiated into a world of dynastic splendor beyond imagination, Rachel meets Astrid, the It Girl of Singapore society; Eddie, whose family practically lives in the pages of the Hong Kong socialite magazines; and Eleanor, Nick's formidable mother, a woman who has very strong feelings about who her son should--and should not--marry. Uproarious, addictive, and filled with jaw-dropping opulence, Crazy Rich Asians is an insider's look at the Asian JetSet; a perfect depiction of the clash between old money and new money; between Overseas Chinese and Mainland Chinese; and a fabulous novel about what it means to be young, in love, and gloriously, crazily rich.

When did America become obsessed with racial differences? After decades of progress healing real-world prejudices and anger, we suddenly live in an America where we're expected to view every single thing through the lens of race. Children are taught the politics of racial resentment and fear in schools. Films, novels, and even comic books are judged by the color of their protagonists—and their adherence to the latest “woke” messaging. Corporate America has universally adopted the slogan “Black Lives Matter” in every piece of marketing, those words serving as a talisman to protect them from Twitter mobs and outraged activists. And the 1619 Project and similar pieces of academic propaganda seek to redefine and undermine the very notion of America as a unified and great nation. Meanwhile, organized BLM advances a radical and dangerous political agenda which, if enacted, would mean the end of the American experiment as we know it. The nation faces a pivotal moment: will we reject the Race Crazies, or let them destroy us?

Cher Debusshere hates being the black sheep of her posh, well-to-do family almost as much as she hates driving which is exactly what she's forced to do when her flight home for her perfect sister's wedding is grounded. It is well known that American culture is a dominant force at home and abroad; our exportation of everything from movies to junk food is a well-documented phenomenon. But is it possible America's most troubling impact on the globalizing world has yet to be accounted for? In Crazy Like Us, Ethan Watters reveals that the most devastating consequence of the spread of American culture has not been our golden arches or our bomb craters but our bulldozing of the human psyche itself: We are in the process of homogenizing the way the world goes mad. America has been the world leader in generating new mental health treatments and modern theories of the human psyche. We export our psychopharmaceuticals packaged with the certainty that our biomedical knowledge will relieve the suffering and stigma of mental illness. We categorize disorders, thereby defining mental illness and health, and then parade these seemingly scientific certainties in front of the world. The blowback from these efforts is just now coming to light: It turns out that we have not only been changing the way the world talks about and treats mental illness -- we have been changing the mental illnesses themselves. For millennia, local beliefs in different cultures have shaped the experience of mental illness into endless varieties. Crazy Like Us documents how American interventions have discounted and worked to change those indigenous beliefs, often at a dizzying rate. Over the last decades, mental illnesses popularized in America have been spreading across the globe with the speed of contagious diseases. Watters travels from China to Tanzania to bring home the unsettling conclusion that the virus is us: As we introduce Americanized ways of treating mental illnesses, we are in fact spreading the diseases. In post-tsunami Sri Lanka, Watters reports on the Western trauma counselors who, in their rush to help, inadvertently trampled local expressions of grief, suffering, and healing. In Hong Kong, he retraces the last steps of the teenager whose death sparked an epidemic of the American version of anorexia nervosa. Watters reveals the truth about a multi-million-dollar campaign by one of the world's biggest drug companies to change the Japanese experience of depression -- literally marketing the disease along with the drug. But this book is not just about the damage we've caused in faraway places. Looking at our impact on the psyches of people in other cultures is a gut check, a way of forcing ourselves to take a fresh look at our own beliefs about mental health and healing. When we examine our assumptions from a farther shore, we begin to understand how our own culture constantly shapes and sometimes creates the mental illnesses of our time. By setting aside our role as the world's therapist, we may come to accept that we have as much to

learn from other cultures' beliefs about the mind as we have to teach.
