Mercedes Lackey's magical Elemental Masters series recasts familiar fairy tales in a richly-imagined alternate Victorian world For seventeen years, Marina Roeswood had lived in an old, rambling farmhouse in rural Cornwall in the care of close friends of her wealthy, aristocratic parents. As the ward of bohemian artists in Victorian England, she had grown to be a free thinker in an environment of fertile creativity and cultural sophistication. But the real core of her education was far outside societal norms. For she and her foster parents were Elemental Masters of magic, and learning to control her growing powers was Marina ' s primary focus. But though Marina ' s life seemed idyllic, her existence was riddled with mysteries. Why, for example, had she never seen her parents, or been to Oakhurst, her family ' s ancestral manor? And why hadn ' t her real parents, also Elemental Masters, trained her themselves? That there was a secret about all this she had known from the time she had begun to question the world around her. Yet try as she might, she could get no clues out of her guardians. But Marina would have answers to her questions all too soon. For with the sudden death of her birth parents, Marina met her new guardian—her father ' s eldest sister Arachne. Aunt Arachne exuded a dark magical aura unlike anything Marina had encountered, a stifling evil that seemed to threaten Marina ' s very spirit. Slowly Marina realized that her aunt was the embodiment of the danger her parents had been hiding her from in the backwoods of Cornwall. But could Marina unravel the secrets of her life in time to save herself from the evil that had been seeking her for nearly eighteen years?

*The wildly entertaining story of progressive rock, the music that ruled the 1970s charts—and has divided listeners ever since. **The Show That Never Ends** is the definitive story of the extraordinary rise and fall of progressive (“prog”) rock. Epitomized by such classic, chart-topping bands as Yes, Genesis, Pink Floyd, Jethro Tull, and Emerson Lake & Palmer, along with such successors as Rush, Marillion, Asia, Styx, and Porcupine Tree, prog sold hundreds of millions of records. It brought into the mainstream concept albums, spaced-out cover art, crazy time signatures, multitrack recording, and stagecraft so bombastic it was spoofed in the classic movie *This Is Spinal Tap*. With a vast knowledge of what Rolling Stone has called “the deliciously decadent genre that the punks failed to kill,” access to key people who made the music, and the passion of a true enthusiast, Washington Post national reporter David Weigel tells the story of prog in all its pomp, creativity, and excess. Weigel explains exactly what was “progressive” about prog rock and how its complexity and experimentalism arose from such precursors as the Beach Boys’ *Pet Sounds* and the Beatles’ *Sgt. Pepper*. He traces prog’s popularity from the massive success of Procol Harum’s “Whiter Shade of Pale” and the Moody Blues’ “Nights in White Satin” in 1967. He reveals how prog’s best-selling, epochal albums were made, including *The Dark Side of the Moon*, *Thick as a Brick*, and *Tubular Bells*. And he explores the rise of new instruments into the prog mix, such as the synthesizer, flute, mellotron, and—famously—the double-neck guitar. **The Show That Never Ends** is filled with the candid reminiscences of prog’s celebrated musicians. It also features memorable portraits of the vital contributions of producers, empresarios, and technicians such as Richard Branson, Brian Eno, Ahmet Ertegun, and Bob Moog. Ultimately, Weigel defends prog from the enormous derision it has received for a generation, and he reveals the new critical respect and popularity it has achieved in its contemporary resurgence.*

Already a celebrated performance artist, vocalist, poet, playwright, and visionary, Carl Hancock Rux now presents a brilliant debut novel--a profound and lyrical portrait of urban life that will take its place among the classics of American literature. Racine is a reserved young man, but his passion for music lights him up inside. He's just returned from Paris where he'd been invited by a friend to produce music, make recordings, and earn a living. The plan didn't quite pan out, and now he's back in New York, where fate, providence, or just plain chance leads him to a once-glorious brownstone turned into a squat by a few eccentric loners. There's Manny, who wears sarongs and glitter but has no trouble attracting beautiful women, and Couchette, a gorgeous second-generation dancer whose mother has gone to Bali to live and bear a child with a man who built her a house in the midst of a rice paddy. What binds the characters is a deep sense of loss. Each is--like the city they live in--wounded and seeking healing and connection with and through the other housemates. Rux's poetic fiction blurs the lines between characters' dreams, memory, and reality. Asphalt--the name representing the essence of the city and the hard, layered, yet vulnerable sensibility of its inhabitants--is part post-modern parable, part urban mythology, and altogether relevant to

contemporary reality. Asphalt is daring and unforgettable, marking the arrival of an original and astounding new voice in American literature.

In *Far Company*, we hear Cindy Hunter Morgan thinking about the many ways we carry the natural world inside of us as a kind of embedded cartography. Many of these poems commune not only with lost ancestors but also past poets. We hear conversations with Emily Dickinson, James Wright, Walt Whitman, and W. S. Merwin. These poets, who are part of Hunter Morgan's poetic lineage, are beloved figures in the far company she keeps, but the poems she writes are distinctly hers. Poet Larissa Szporluk remarked, "The poems in this collection are quiet and deceptively simple. My first response was to be amazed by a seeming innocence in delivery—straightforward, picturesque, and compassionate—that then matured like a crystal into something precious and masterful. We are left with the whole forest having met all the trees one by one. There is so much respect in this collection—respect for natural processes that include intergenerational relationships, shared territories, and myths." The poems in *Far Company* reveal a mind and a heart negotiating both self and world with compassion and invention. They are cinematic in the way they navigate loss, memory, dislocation, hope, and love—abstractions evoked in deeply specific and nuanced ways. There is the drone that flies over Hunter Morgan's grandparents' farm before the house burns and the stag-handled knife in a pocket, its single blade "folded inside like a secret" on a train in Greece. But this collection is full of quieter cinema, too—a grandfather bending to cinch the girth of a horse, days "green / with snap peas and wild tendrils," and "raindrops beading like sweat / on the lips of snapdragons." The root of this book is Hunter Morgan's love for family and her love for the land her family has shared. These poems map a journey to many places, inward and outward, and engage with the natural world and the built world, moving between both of those environments in ways that acknowledge the complexities of such crossings. Often melancholic but never sentimental, this collection belongs with any reader who seeks out literature in the organic world.
