**Collected interviews featuring the  
Nebula Award-winning author and his

criticism, comic books, race, and sexuality. For nearly three decades, Samuel R. Delany's science fiction has transported millions of readers to the fringes of time, technology, and outer space. Now Delany surveys the realms of his own experience as a writer, critic, theorist, and gay Black man in this collection of written interviews, a type of guided essay. Because the written interview avoids the "mutual presence positioned at the semantic core" of traditional interview, Delany explains, "a kind of cut remains between the participants—a fissure in which the truths there may be more malleable, less rigid." Within that fissure Delany pursues the breadth and depth of his ideas on language and theory, the politics of literary composition, the experience of marginality, and the philosophical, commercial, and personal

**contexts of writing today. Gathered from sources as diverse as Diacritics and The Comics Journal, these interviews reveal the broad range of Delany's thought and interests. "Delany has a unique place in late twentieth century letters. A lifelong inhabitant of the margins, both social and literary, he has used his marginalized status as a lens to focus his astute observations of American literature and society. From these interviews his voice emerges, provocative, precise, and engaging."**  
**—Kathleen Spencer, University of Nebraska "Samuel R. Delany never shies away from contestable positions or provocative opinions. In his fiction, Delany can write like quicksilver, and in lectures or panel discussions, he is easily SF's most articulate spokesperson in academia. . . . There is much here that is not covered in Delany's critical**

or autobiographical writings, and much that anyone seriously interested in SF—or many of Delany’s other favorite topics—ought to consider.” —Locus

“Delany is fascinating whether discussing SF, comics, or his experiences as a Black American, and this collection . . . is as entertaining as it is informative.” —Science Fiction Chronicle

“Yevgeny Zamyatin? Stanislaw Lem? Forget it! Delany is both, with a lot of Borges and Bruno Schultz thrown in.” —Village Voice

The contributions in this volume focus on the ways in which silence and music relate, contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour. The book maps out this little-explored aspect of the sonic arena with the intention of defining the breadth of scope and to

**introduce interdisciplinary paths of exploration as a way forward for future discourse. Topics addressed include the idea of 'silent music' in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross; the apparently paradoxical contemplation of silence through the medium of music by Messiaen and the relationship between silence and faith; the aesthetics of Susan Sontag applied to Cage's idea of silence; silence as a different means of understanding musical texture; ways of thinking about silences in music produced during therapy sessions as a form of communication; music and silence in film, including the idea that music can function as silence; and the function of silence in early chant. Perhaps the most all-pervasive theme of the book is that of silence and nothingness, music and spirituality: a**

**theme that has appeared in writings on John Cage but not, in a broader sense, in scholarly writing. The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis, encompassing not just Western art traditions, but the relationship between music, silence, the human psyche and sociological trends - ultimately, providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being. Silence, Music, Silent Music will appeal to those working in the fields of musicology, psychology of religion, gender studies, aesthetics and philosophy.**

It is a bold story about bold men, about rough Irish mariners who in the beginning of their adventure sail for money but later find themselves fighting for a new nation's struggle for liberty, becoming true American patriots along the way. - 1778 - Ryan, a 25 year old smuggler and thief, is the master of the Black Prince, one of the fastest ships on the water. seize his ship one day and toss his men into Dublin's notorious Black Dog. Ryan escapes capture, breaks his men out of jail and together they retake their ship by force. But now the Irishmen have committed piracy and they will all hang if caught. They cannot return to smuggling so Ryan sails to France to offer his services to Franklin, the American ambassador to the French Court who, Ryan has heard, is quietly assembling a private navy to fight the British in their own home waters. Franklin's reluctant decision to unleash Ryan and his Irishmen will bring unforeseen consequences and have a significant impact on the outcome of the war...

Haley Emerson is a survivor. After enduring a childhood filled with the pain of a family thrown in turmoil by her alcoholic, womanizing father, Haley leaves Tennessee to establish a career on Wall Street, where greed and pragmatism are a way of life. But for Haley, the two evils serve as a refuge from her dysfunctional family. Haley views her success at a New York brokerage firm as a sign that she is finally free of her past and convinces herself that she will never be reckless and selfish like her father. Before long, however, she finds herself quelling her persistent inner demons with alcohol and doing anything and everything she needs to succeed even if it means others

suffer as a result. When she returns home for Christmas where she plans, as always, to secretly measure her success in New York she is once again forced to face the chronicle of her family's failures, fortunes, and self-inflicted madness. But when the consequences of her unscrupulous behavior on Wall Street come back to haunt her, Haley soon discovers just how tight a grip her family still has on her. The Emerson Gospel is the poignant tale of one woman's journey to freedom and a life worth living as she slowly discovers the power of unconditional love. Unlearning and re-inventing the theoretical frameworks of Intercultural and Asian Studies is

central to this book as it is to Chen Kuan-Hsing's evocative *Asia as Method*; this book's inspirational source. Chen insists that studies of Asia move beyond their paralysing fixation on the West as either a positive or negative referent and that they develop their own standpoints, reference points and research agendas. *Asia as Method in Education Studies*, is therefore, a provocative and suggestive exploration of educational ideas imported from the West. Chen's challenge provokes the writers in this collection to consider the implications of colonial and imperialist forces for education systems, policies and practices as

well as for educational research itself. The writers offer examples of what it means to rethink and re-examine education in Asia beyond both the Western imperialist eye and the post-colonial 'politics of resentment'. Asia as Method in Education Studies combines the diverse research of scholars from various countries of Asia as they consider, for example: Struggles to Construct New Research Imaginations in Response to Chen's Challenges East-West Dialogue: Three Cases in Chinese Educational Research "Asia as [a] method" of Complexity and Dialogue Generalizing the Self? This is the first book to study the cultural impact of the Armistice of 11 November 1918. It contains 14 new essays from scholars working in literature, music, art history and military history. The Armistice brought hopes for a better future, as well as sadness, disappointment and rage. Many people in all the combatant nations asked hard questions about the

purpose of the war.

These questions are explored in complex and nuanced ways in the literature, music and art of the period. This book revisits the silence of the Armistice and asks how its effect was to echo into the following decades. The essays are genuinely interdisciplinary and are written in a clear, accessible style.

My friend, Ivan Ashkenazi, was from a Jewish family who struggled his entire

life. This novel speaks about his great friendship and bonding with Indian culture. He and his family were long-time appreciators of India and Indians. Their long-standing loyalty and beliefs remained unchanged even when circumstances were not suitable. Any migration never dithered towards our Nation but how that worked? This is a partly true story of two friends. Once their initial basic and theoretical training in

engineering was over,  
they were given special  
trades where they had to

Ronald Wilfred Jansen visited Anne Frank's home addresses in Frankfurt am Main, Aachen and Amsterdam; her hiding place the Secret Annex; and the Westerbork, Auschwitz-Birkenau and Bergen-Belsen concentration camps where Anne Frank was imprisoned. His book describes her history and the objects that today still remind us of the environment in which she lived. His motivation for writing this book is that it was one of the last opportunities he would have to contact the people who knew Anne; these people revealed some new facts about her and her world. Other contemporaries of Anne Frank also contributed fascinating information about her surroundings. By tracing her footsteps, he gained a more complete picture of Anne Frank and her environment.

Rural Botswana is the backdrop for *When Rain Clouds Gather*, the first novel published by one of Africa's leading woman writers in English, Bessie Head (1937–1986). Inspired by her own traumatic life experiences as an outcast in Apartheid South African society and as a refugee living at the Bamangwato Development Association Farm in Botswana, Head's tough and telling classic work is set in the poverty-stricken village of Golema Mmidi, a haven to exiles. A South African political refugee and an Englishman join forces to revolutionize the villagers' traditional farming methods, but their task is fraught with hazards as the pressures of tradition, opposition from the local chief, and the unrelenting climate threaten to divide and devastate the fragile community. Head's layered, compelling story confronts the
