This is the first book-length study in English on Vittorio Sereni (1913-83), a major figure in Italian 20th-century poetry. It argues that a key innovation of Sereni's poetry is the way in which it reworks the boundaries of poetic space to construct a lyric 'I' radically repositioned in the textual universe with respect to its predecessors.

Giovannino Guareschi (1908-1968) was an Italian journalist, humorist, and cartoonist best known for his short stories based on the fictional Catholic priest Don Camillo. In this study, Alan R. Perry explores the Don Camillo stories from the perspective of Christian hermeneutics, a unique approach and the best critical key to unlocking the richness of both the author and his tales. The stories of Don Camillo, the cantankerous but beloved priest, and his sidekick, Communist mayor Peppone, continue to entertain viewers and readers. Their Cold

War adventures, mishaps, arguments, and reconciliations have a timeless quality, and their actions reflect endearing values that prevail even today. The stories delight, to be sure, but the best of them also force us to stop and think about how Guareschi so powerfully conveyed the Christian message of faith, hope, and love. To appreciate the true genius of Guareschi, Perry argues that we must delve deeper into the latent spiritual meaning that many of his stories contain. In reflecting popular understandings of the faith, the Don Camillo tales allow us to appreciate a sacred awareness of the world, an understanding communicated through objects, gestures, expressions, and actual religious rites. The first full-length scholarly examination of the Don Camillo stories to appear, this book offers a solid appreciation of Italian cultural values and discusses the ways in which those values were contested in the first decades of the Cold War. English, *La Villa* is a rare source of Renaissance landscape theory. Written by Bartolomeo Taegio, a Milanese jurist and man of letters, after his banishment (possibly for murder, Thomas E. Beck speculates), the text takes the form of a dialogue between two gentlemen, one a proponent of the country, the other of the city. While it is not a gardening treatise, *La Villa* reflects an aesthetic appreciation of the land in the Renaissance, reveals the symbolic and metaphorical significance of sixteenth-century gardens for their owners, and articulates a specific philosophy about the interaction of nature and culture in the garden. This edition of the original Italian text and Beck's English translation is augmented with notes in which Beck identifies numerous references to literary sources in *La Villa* and more than 28 people and places mentioned in the dialogue. The introduction illuminates Taegio's life and intellectual activity, his obligations to his sources, the cultural context and the place of *La Villa* in Renaissance villa literature. It also demonstrates the enduring relevance of *La Villa* for architecture and landscape architecture. *La Villa* makes a valuable contribution to the body of literature about place-making, precisely because it treats the villa as an idea and not as a building type.
