*With the powerful, rhythmic sounds of Aboriginal English and Kokatha language woven through the narrative, Mazin Grace is the inspirational story of a feisty girl who refuses to be told who she is, determined to uncover the truth for herself. Growing up on the Mission isn't easy for clever Grace Oldman. When her classmates tease her for not having a father, she doesn't know what to say. Pappa Neddy says her dad is the Lord God in Heaven, but that doesn't help when the Mission kids call her a bastard. As Grace slowly pieces together clues that might lead to answers, she struggles to find a place in a community that rejects her for reasons she doesn't understand. In this novel, author Dylan Coleman fictionalizes her mother's childhood at the Koonibba Lutheran Mission in South Australia in the 1940s and 1950s.*

There are close to 8.5 million RVs on the U.S. highways and roads today, and if you are a man in your fifties, there is a good chance you have owned or are about to own a recreational vehicle. Winnebago Nation is a light-hearted look at the culture and industry behind the yearning to spend the night in oneOs car. For the young, the roadtrip is a coming-of-age ceremony; for those later in life, it is the realization of a lifelong desire to be spontaneous, nomadic, and free. James B. Twitchell recounts the RVOs origins and evolution over the twentieth century: its rise, fall, and rebirth as a cultural icon; its growing mechanical complexity as it evolved from an estate wagon to a converted bus to a mobile home; and its role in bolstering and challenging conceptions of American identity. Mechanical yet dreamy, independent yet needful, solitary yet clubby, adventurous yet homebound, life in a mobile home is a distillation of the American character and an important embodiment of American exceptionalism (Richie Rich and Hobo Hank spend time in essentially the same rig at the same campground, albeit for different reasons and in different levels of comfort). The frontier may be tapped out, but we still yearn for the exploratory life. Twitchell concludes with his thoughts on the future of RV communities and the possibility of mobile cities becoming a real part of the American landscape.

Shapo on the Law of Products Liability

In Winnebago Nation, popular critic James B. Twitchell takes a light-hearted look at the culture and industry behind the yearning to spend the night in one's car. For the young the roadtrip is a coming-of-age ceremony; for those later in life it is the realization of a lifelong desire to be spontaneous, nomadic, and free. Informed by his own experiences on the road, Twitchell recounts the RV's origins and evolution over the twentieth century: its rise, fall, and rebirth as a cultural icon; its growing mechanical complexity as it evolved from an estate wagon to a converted bus to a mobile home; and its role in bolstering and challenging conceptions of American identity. Mechanical yet dreamy, independent yet needful, solitary yet clubby, adventurous yet homebound, life in a mobile home is a distillation of the American character and an important embodiment of American exceptionalism, (Richie Rich and Hobo Hank spend time in essentially the same rig at the same campground, albeit for different reasons and in different levels of comfort.) The frontier may be tapped out but we still yearn for the exploratory life. Twitchell concludes with his thoughts on the future of RV communities and possibility of mobile cities becoming a real part of the American landscape.
