Haunted by the burden of his family's traitorous past, woozy with pot, cheap wine and sex, and disturbed by a frighteningly real encounter with some family ghosts, Walter van Brunt is about to have a collision with history. It will lead Walter to search for his lost father. And it will send the story into the past of the Hudson River Valley, from the late 1960's back to the anticommunist riots of the 1940's to the late seventeenth century, where the long-hidden secrets of three families--the aristocratic van Warts, the Native-American Mohonks, and Walter's own ancestors, the van

Brunts--will be revealed.

The year is 2050. The Order of World Society governs the globe, the weather, the currency, and all facets of people's lives. The Peace for All Agenda is anything but peaceful. Scientist Gayle Conyers' life in this new societal structure is orderly, routine, focused, safe. Then it isn't. A renowned scientist forces her to work on a secret project that goes against her ethics and the Order. A protester warns her about the Order's web of deception and the approaching end of days. Gayle soon finds herself with a foot in two worlds: A scientific realm that intends to alter humanity for all time, and a spiritual one, where she's enmeshed in stories of prophecy, destruction, and the Apocalypse. Gayle remains skeptical. Until the event that stuns the world, one that causes her to face the realization that this may, indeed, be the beginning of the end.

*From Michael Cunningham, the Pulitzer Prize-winning author of *The Hours*, comes this widely praised novel of two boyhood friends: Jonathan, lonely, introspective, and unsure of himself; and Bobby, hip, dark, and inarticulate. In New York after college, Bobby moves in with Jonathan and his roommate, Clare, a veteran of the*

city's erotic wars. Bobby and Clare fall in love, scuttling the plans of Jonathan, who is gay, to father Clare's child. Then, when Clare and Bobby have a baby, the three move to a small house upstate to raise "their" child together and, with an odd friend, Alice, create a new kind of family. A Home at the End of the World masterfully depicts the charged, fragile relationships of urban life today.

through a battered red door under a railway bridge, the last thing they expected to find was another world. There lay the strange, dark realm of Levaal, whose tyrant lord Vous has ascended to godhood. The great wall which has divided the land has been brought down, setting loose a horde of demonic Tormentors. In their sky prisons, the dragons are stirring, set to defy their slumbering creator and steal humanity's world. Shilen, a dragon cloaked in human form, has convinced Eric and Aziel, Vous's daughter, to help free the dragons from their sky-prison, or Earth will be destroyed. She promises great power, and safety for all Eric's favoured people, but Shilen has an ulterior motive, for the dragons wish to control humankind completely. The End of the World As We Know It

Our fear of the world ending, like our fear of the dark, is ancient, deep-seated and perennial. It crosses boundaries of space and time, recurs in all human communities and finds expression in every aspect of cultural production - from pre-historic cave paintings to high-tech computer games. This volume examines historical and imaginary scenarios of apocalypse, the depiction of its likely triggers, and imagined landscapes in the aftermath of global destruction. Its discussion moves effortlessly from classic novels including Aldous Huxley's Brave New World, George Orwell's Nineteen Eighty-Four and Margaret Atwood's Oryx and Crake, to blockbuster films such as Blade Runner, Armageddon and Invasion of the Body Snatchers. Lisboa also takes into account religious doctrine, scientific research and the visual arts to create a penetrating, multi-disciplinary study that provides profound insight into one of Western culture's most

fascinating and enduring preoccupations. Caz has been living in the department store since the day the Blue Star came and killed everyone who breathed in its toxic snow. She can't do so much as look outside. But life in the store is getting dangerous and so Caz decides to take her chances in the world outside, with only Will for company. What will she find in the bleak landscape? And is there even anything to find?

The Pillars of the Earth

In this fast-paced survival story set in Hawaii, electronics fail worldwide, the islands become completely isolated, and a strange starscape fills the sky. Leilani and her father embark on a nightmare odyssey from Oahu to their home on the Big Island. Leilani's epilepsy holds a clue to the disaster, if only they can survive as the islands revert to earlier ways. A powerful story enriched by fascinating elements of Hawaiian ecology, culture, and warfare, this captivating and dramatic debut from Austin Aslan is the first of two novels. The author has a master's degree in tropical conservation biology from the University of Hawaii at Hilo. Praise for *Islands at the End of the World*: "A riveting tale of belonging, family, overcoming perceived limitations, and finding a home."--School Library

Journal, Starred "Aslan's debut honors Hawaii's unique cultural strengths--family ties and love of home, amplified by geography and history--while remaining true to a genre that affirms the mysterious grandeur of the universe waiting to be discovered."--Kirkus Reviews, Starred "Aslan's debut is a riveting tale of belonging, family, overcoming perceived limitations, and finding a home."--School Library Journal, Starred

In this "often riotous, ultimately moving Cat's Cradle for our time," a Texas couple prepares for the apocalypse (Kirkus Reviews). In Austin, Milton and Rica are expecting their first child. It's four days and counting. Not for the baby. But for the end of the world. Evidence: Haydon Brock, a godless television star has suddenly traded his Hollywood fame for salvation. A prophetic hermit crab is embarking on an unfathomable cross-country quest. Planes are dropping from the sky. And the president and first lady disappear. No omen is too inexplicable to Milton. He's learned for a fact that our planet is one vast asylum for the incurably insane. And its cosmic

guardians are about to close down the whole damn thing. Then Milton receives one more premonition: to seek out Haydon now holed up somewhere in Marfa. To what end Milton hasn't a clue. To find out, Milton, Rica, and their best friend head west across an increasingly cataclysmic landscape of inter-dimensional time travelers, Jesus clones, sleep-deprived monks, ghosts, and angels in an epic and manic quest to outrun the last days on Earth. Combining humor, philosophical inquiry and an unforgettable cast of characters, "this sharp-witted satire" (Booklist) "is a future classic, and people will be reading [it] decades from now. I know I will" (Charles Yu, How to Live Safely in a Science Fictional Universe).

Groundhog Day meets Ling Ma's Severance in this "brilliant" (PopSugar) and "exhilarating" (The Millions) comedic novel about two young women trying to save their friendship as the world collapses around them. Bertie and Kate have been best friends since high school. Bertie is a semi-failed cartoonist, working for a prominent Silicon Valley tech firm. Her job depresses her, but not

as much as the fact that Kate has recently decided to move from San Francisco to Los Angeles. When Bertie's attempts to make Kate stay fail, she suggests the next best thing: a trip to Paris that will hopefully distract the duo from their upcoming separation. The vacation is also a sort of last hurrah, coming during the ceasefire in a series of escalating world conflicts. One night in Paris, they meet a strange man in a bar who offers them a private tour of the Louvre. The women find themselves alone in the museum, where nothing is quite as it seems. Caught up in a day that keeps repeating itself, Bertie and Kate are eventually separated, and Bertie is faced with a mystery that threatens to derail everything. In order to make her way back to Kate, Bertie has to figure out how much control she has over her future—and her past—and how to survive in an apocalypse when the world keeps refusing to end. From the imagination of legendary animator and two-time Oscar nominee Don Hertzfeldt comes a hilarious fever-dream vision of the apocalypse, now available in wide release for the first

time since the rare original edition sold out. Created during sleepless nights while he worked on his animated films, The End of the World was illustrated entirely on Post-It notes over the course of several years, slowly taking shape from all the deleted scenes, bad dreams, and abandoned ideas that were too strange to make it to the big screen, including essential early material that was later developed into the animated classic World of Tomorrow. Hertzfeldt's visually striking work transcends its unusual nature and taps into the deeply human, universal themes of mortality, identity, memory, loss, and parenthood . . . with the occasional monstrous biting eel descending from the sky.

A man fights to protect his family in this postapocalyptic survival novel—the first in the New World series. Young Gordon Van Zandt valued duty and loyalty to country above all, so after 9/11, he dropped out of college and joined the Marine Corps. This idealism vanished one fateful day in a war-torn city in Iraq. Ten years later, he is still struggling with the ghosts of his past when a new reality is thrust upon him and his family: North America, Europe and the Far East have all suffered a devastating Super-EMP attack, which causes catastrophic damage to the nation’s power grid and essential infrastructures. Everything from cell phones to cars to computers cease to function, putting society at a standstill. With civilization in chaos, Gordon must fight for the limited and fast dwindling resources. He knows survival requires action and cooperation with his neighbors, but as the days wear on, so does all sense of civility within his community—and so he must make some of the most difficult decisions of his life in order to ensure his family’s safety.

A memoir and cultural history the World’s End, a West London area once home to bohemian artists and punk rock and now an

outpost of neoliberalism. Charlie Gere's account of growing up in the World's End area of West London during the Cold War combines local history, cultural history, memoir, and a strong sense of the apocalyptic. Once a rundown part of Chelsea at the wrong end of the King's Road, the World's End has long been a place for bohemian writers and artists, including Turner, Whistler, Beckett, Bacon, and Bacon's muse Henrietta Moraes, all of whom evinced an appropriate apocalyptic sensibility. After World War II, in which the area suffered severe bombing, it became a center of the counterculture that emerged from what Jeff Nuttall called "Bomb Culture," formed by the threat of nuclear annihilation. The famous boutique Granny Takes a Trip opened there in 1966, joined later on by Hung On You, Puss Weber's Flying Dragon Tea Room, and the commune Gandalf's Garden. The area also featured trepanning aristocrats and pet lions, among other eccentricities. In the 1970s, the World's End was the center of punk rock. Gere's parents arrived as part of a wave of gentrification, and Gere, born and brought up there, witnessed its social and cultural evolution. As an adolescent, he was traumatized by the prospect of nuclear war.

He has lived long enough to see the World's End now bearing the marks of out-of-control neoliberalism and its grotesque accompanying inequality. But this too shall pass as worlds end.

This is no ordinary novel. An encyclopedia of memory—from A to Z—The End of the World Book deftly intertwines fiction, memoir, and cultural history, reimagining the story of the world and one man's life as they both hurtle toward a frightening future. Alistair McCartney's alphabetical guide to the apocalypse layers images like a prose poem, building from Aristotle to da Vinci, hip-hop to lederhosen, plagues to zippers, while barreling from antiquity to the present. In this profound book about mortality, McCartney composes an irreverent archive of philosophical obsessions and homoerotic fixations, demonstrating the difficulty of separating what is real from what is imagined. 2019 was the last great year for the world economy. For generations, everything has been getting faster, better, and cheaper. Finally, we reached the point that almost anything you could ever want could be sent to your home within days - even hours - of when you decided you wanted it. America made that happen, but now America has lost interest in keeping it going. Globe-spanning supply chains are only possible with the protection of the U.S. Navy. The American dollar underpins internationalized energy and financial markets. Complex, innovative industries were created to satisfy American consumers. American security policy forced warring nations to lay down their arms. Billions of people have been fed and educated as the American-led trade system spread across the globe. All of this was artificial. All this was temporary. All this is ending. In *The End of the World is Just the Beginning*, author and geopolitical strategist Peter Zeihan maps out the next world: a world where countries or regions will have no choice but to make their own goods, grow their own food, secure their own energy, fight their own battles, and do it all with populations that are both shrinking and aging. #1 New York Times Bestseller In 1989, Ken Follett astonished the literary world with *The Pillars of the Earth*, a sweeping epic novel set in twelfth-century England centered on the building of a cathedral and many of the hundreds of lives it affected. *World Without End* is its equally irresistible sequel—set two hundred years after *The Pillars of the Earth* and three hundred years after the Kingsbridge prequel, *The Evening and the Morning*. *World Without End* takes place in the same town of Kingsbridge, two centuries after the townspeople finished building the exquisite Gothic cathedral that was at the heart of *The Pillars of the Earth*. The cathedral and the priory are again at the center of a web of love and hate, greed and pride, ambition and revenge, but this sequel stands on its own. This time the men and women of an extraordinary cast of characters find themselves at a crossroads of new ideas—about medicine, commerce, architecture, and justice. In a world where proponents of the old ways fiercely battle those with progressive minds, the intrigue and tension quickly reach a boiling point against the devastating

backdrop of the greatest natural disaster ever to strike the human race—the Black Death. Three years in the writing and nearly eighteen years since its predecessor, World Without End is a "well-researched, beautifully detailed portrait of the late Middle Ages" (The Washington Post) that once again shows that Ken Follett is a masterful author writing at the top of his craft.

When his father dies, and he is reduced at a stroke from prosperity to penury, Euxenus decides to leave Athens and seek his fortune elsewhere. As a philosopher and intellectual of some note, he has no difficulty getting a job as tutor to a young prince in the wealthy but utterly provincial court of King Philip of Macedon. The young prince is called Alexander, and the rest is history. Or is it? Alexander conquered Greece, Egypt and the Persian Empire in the course of eight years, amassing a huge army along the way, and leaving behind him the foundations of countless new cities named after him. He proclaimed himself a deity, and died at the age of 33. In ALEXANDER AT THE WORLD'S END, Tom Holt tells the story of two remarkable men, one of whom conquered empires and one of whom struggled to overcome the drainage problems of a small
