IELTS statistics for 2012 proves that both male and female candidates score about 0.5 less for writing than for other modules. Why does it happen? First, many students are not used to letters, graph analyses or essays in English. They need to study the structure, cohesion markers and style parameters. Second, most people lack the knowledge of less common vocabulary and grammar structures. Third, even those who train hard do not understand examiners' criteria well enough. Even IELTS coaches, who train students specifically for this exam, seldom understand in detail each criterion. Personally, I studied and analysed IELTS band descriptors, but it was only after two seminars with IELTS Principal Examiner that I actually grasped their meaning. Those who want to feel deeper IELTS criteria can take advantage of an excellent course: This ebook that explains in detail various strategies and requirements.

If you're someone who wants to achieve a 7, 8 or 9 for the IELTS writing section, then you're about to see exactly how an IELTS professional writes high scoring answers! This ebook provides sample answers that are exactly what the examiners look for. Did you know that many sample IELTS writing answers on the internet today do not match the expectations of an IELTS examiner? So it's important that if you are in the search for model answers then you consider answers that are accurate examples that align with the official IELTS scoring criteria. Imagine being able to understand how high scoring answers are structured in IELTS Writing Task 1? How about learning how grammar and vocabulary are used? You can, just by downloading this book! Inside this book you'll get: - High scoring model answers - The IELTS writing question types (clearly explained) - Suggested answer structure (which you can follow and use yourself)
