This book mobilises the theory of uneven and combined development to uncover the geopolitical economic drivers of China ’ s rise. The purpose is to explain the formation and trajectory of its economic ‘ accumulation system ’ — which remains a confounding hybrid of statist and neoliberal forms of capitalism — as the outcome of China ’ s geopolitical engagement of the USA during the late stages of the Cold War, and its participation in manufacturing global production networks (GPNs). Fear of geopolitical catastrophe drove China to open its economy, while GPNs enabled China to generate substantial export surpluses which could be recycled through state-owned banks as cheap credit and subsidies to large, vertically integrated and politically-controlled state-owned enterprises. In this way, a synergy emerged between the ‘ neoliberal ’ and ‘ Keynesian-Fordist ’ sectors of the economy, while the national-territorial state retained its form and expanded its functions. The book chronicles how this reliance on export surpluses, however, rendered China extremely vulnerable to external shocks — prompting a dramatic monetary and fiscal stimulus response to the crisis of 2008, even while sustaining the illusion of economic ‘ decoupling ’ from the global economy. Finally, it examines the growing role of the state in the current crisis-ridden economic model, as well as China ’ s current geoeconomic and geopolitical expansionism in areas such as the Belt and Road Initiative and the militarisation of the East and South China Seas.

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: ... I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!! Please come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.

NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine manor house, from the world of street fighters to the world of champions, The Fair Fight is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn ’ t expect much for herself beyond abuse. While her sister ’ s beauty affords a certain degree of comfort, Ruth ’ s harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, The Fair Fight is a raucous, intoxicating tale of courage, reinvention, and fighting one ’ s way to the top.

When Lady Wilberforce decides to leave him, her daughters Amelia, Cecelia, and Cordelia, must make a choice. Should they support their mother in a new life of honest labour or stay behind among the idle rich, giving sponge baths to their eternally-dying stepfather?

On the Road to Shiraz: the Heart of Iran

Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

Color for Impact deserves to be within reach of every editor and desktop publisher’s computer. It encourages newcomers to think about colour in new ways and reminds experienced designers that colour can be a two-edged sword: it can as easily obscure a message as drive it home. In either case, by focusing on the message and the communication, rather than what Jan White calls the "decorative" aspects of colour, Color for Impact will help you to take advantage of the reduced costs and increased availability of colour at all levels. Contents: Getting the Best Out of Colour; Ten Commandments on Using Colour; Where to Use Colour; How Much Colour to Use; Copying Colour in Black-and-White; Making the Most of Colour; Which Colour to Choose; Combining Colours with Colours; Colour and Panels; Colour and Pictures; Colour and Type; How Words, Shape, Space, and Colour Produce Impact; Technicalities About Colour.

After WWII Americans were anxious to re-stoke the economy after a long "make-do with what you have" dry spell. By the 1950s new highways were being built, new trucking companies were being formed and old ones revived. Americans were buying newly-styled cars and the latest technologies once again. Semi-trucks helped pave the way for this huge growth spurt in America with dependable trucks built by Mack, GMC, Chevrolet, Ford, Dodge, International, White Freightliner, Peterbilt, Kenworth, Diamond T, Reo, Autocar, Brockway, Sterling and others, many using the increasingly popular diesel engines made by Buda, Hercules, Waukesha, and Cummins, which helped their heavy loads haul quicker. Ron Adams portrays this booming era with over 300 superb photos of trucks hauling cement, fuel, and a variety of goods to enthusiastic Americans.
