*In Vedic astrology, the associations the planets form or variations of how they are placed in a horoscope are referred to as yogas. Yoga literally means union or that which adds, joins or yokes. Astrologically, Yoga refers to planetary combinations or configurations and their special results, which affect the life of an individual. In traditional Indian ephemeris, known as Panchang, Yoga is also a particular division of time, arrived at by adding longitudes of the Sun and the Moon at birth. These are 27 in number, starting from Viskumbha to Vaidhriti, each governed by a different constellation or lunar-mansion, which are also 27 in number. In spiritual field, the word "Yoga" means training, taming and stimulating the body and mind with universal soul. In Ayurveda, the yoga of two or more medicines gives specific results. Yogas are one of the unique features of Vedic astrology. There are hundreds of yogas mentioned in various classical texts. Most of the yogas are formed of more than one planet, but all combinations do not mean a yoga formation. The idea behind these yogas is to equate the planets' strength in a chart, and how & when they will produce their effects in a native's life.*

*This book explains how Vedic astrology is practically relevant for everybody, and how we can use it to improve our awareness and receive intuitive guidance - for happiness! Although the book is titled Astrology for a yogi, it doesn't really require any previous knowledge in either yoga or astrology, as your interest in reading it makes you a beginner yogi already. At the same time, experienced yogis and astrologers will find plenty of depth in the subjects covered, and even professional astrologers might be interested in this unique perspective on yogic astrology. Kashiraja (Massimo Barbagallo) practices meditation, yoga and Vedic astrology following the teachings of Yogananda, Indian yogi and author of Autobiography of a yogi. Kashiraja obtained his PhD in Physics at the University of Cambridge, where he spent almost as much time rowing as working in the lab. Of Italian origin, he immigrated to Los Angeles in 2012 to eat the abundant free citrus fruits. In his spare time he likes to bake cookies.*

We always think why certain combination of planets give good results in one horoscope and bad result in another horoscope. So, the secret lies in ascendant for example ascendant exalted Jupiter can give good results in career but for Gemini ascendant exalted Jupiter might give lot of problems because for libra ascendant it is benefic Gemini ascendant it is strong maraka planet. So, this is the big secret in prediction we need to predict every ascendant combination differently. There are 12 different from Aries to Pisces. Each planet behaves and act differently as they own different houses in horoscope for each ascendant. So, in this book I am describing fruitful spoiled yoga's for all ascendants. Which planet can give raj yoga or benefic results and which planet can give negative results? In Vedic astrology analyzing every ascendant differently is the key to predict the horoscope. This is one of my best presentation and I hope you will love reading it. Welcome to my world of Jyotish and divine knowledge. Regards, Saket Shah

If you are even a little bit interested in Vedic astrology, you must have heard of the term "Raj Yoga". It is a special combination that if exists in a horoscope makes the wealthy, healthy and prosperous. Like Raj Yoga, there are many other special Yogas that are considered important in Vedic astrology. "Yogas" is an aspect that is unique in Vedic astrology. Yogas essentially are special combinations and positions of planets in relation to houses and other planets. Certain planetary positions can lead to some results, whether good or bad. And Vedic astrology has defined some of these very special positions as Yogas. The meaning of the word Yoga is "union" so certainly, the ways planets associate with each other and form combinations is also called Yogas. Most Yogas consist of more than one planet. There are a huge number of Yogas in astrology but some are more important than others, which apparently should be on tips of any perspective astrologer. When a Yoga is formed in a particular house by different houses, it can deem positive or negative results based on the area of life that the associated planets and houses signify. You would rarely see someone who has auspicious Yogas in his or her horoscope.

The notion that astrologers can unfold lives and reveal what waits at the next bend is a thought that comes to all and populist claims have inspired the author to continue series of books that will discuss the various aspects in astrology, putting together the research and findings by various groups and the experience gained during his journey. The purpose of the encyclopedia is an attempt to put a clear understanding of the process of astrology, taking into account the first basic principles and dealing with different techniques. The encyclopedia which would consist of over eighteen books, is intended to be brought out over a period of two years. These would cover the basics in astrology and move on to the predictive techniques, the nadi astrology, tajik, yogas, nakshatras, rectification of birth time, vargas, dashas, mundane prashna, muhurta, remedy and other aspects of interest. The advantage of this would be that both students and those who want to pursue research can progress the understanding of this science in a systematic manner.

the complete set will be of great value to those in India and abroad who want to understand various levels and will give them the flexibility of dwelling into the complex in a coherent manner. With the growing interest to learn this science in various countries, the readers there will find this series of books very useful. This is the first book in the series and is the most important. However these days the stream/ branches of education are so many and varied and to get admission therein is so competitive and difficult that the task of the young students and their parents have become difficult. Hence there is a definite need to have astrological/ psychological counseling for specific educational fields. There are number of astrological yogas, combinations, Arishtas (to be countered) as tools for astrologers; yet the astrologer have to invoke his knowledge and intuition to the maximum to be able to provide the correct and timely counsel. God exists within us on this planet. The 'soul' enters the human form after going through the complete cycle of eighty-four lakh lives and deaths. Human life is determined by the position of planets. Good and bad ideas travel into our minds through waves transmitted by the planets. A woman carries the child in her womb for nine months like the nine planets. Thus the position and stationing of the planets determine the good and bad times in our lives. This arithmetic of favourable and unfavourable positioning of planets, form the basis of 'Horoscope'. Astrology is a science based on very specific calculation. It is not superstition and it is easy to follow. People who cannot consult an astrologer can just read the book, identify their problems, look for remedies and follow them without guidance or consultation. The science of astrology is a gift from God and is acquired by following His diktat.

"This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

Welcome to the revised edition (2022) of Retrograde Venus Part 1. A retrograde planet may not change its functional nature in a horoscope, in most cases. Hence if a benefic planet goes retrograde in a horoscope, it may still give benefic results. Likewise, if a malefic planet goes retrograde in a horoscope, it may still give malefic results. When a planet goes retrograde, it may undergo some changes in its style of working, rather than in its nature of working. Due to such changes in its style of operation, retrograde Venus may produce results, which may be different than those given by forward moving Venus. This book deals with the placements of retrograde Venus in the first three houses of horoscope. Benefic as well as malefic effects of retrograde Venus have been discussed in each one of these houses in different signs, along with relevant examples from horoscopes.

Astrology Yoga: Cosmic Cycles of Transformation is the first comprehensive book on the practice of Yoga using the ancient science of Vedic Astrology, or Jyotish. Written for yoga practitioners with a limited knowledge of astrology, Astrology Yoga explains the dynamic relationship between these two ancient Vedic sciences. You will learn about your yogic Sun sign and Moon sign, the specific karmic issues in your life, the most appropriate yoga practices based on your birth date, and the most beneficial times to do your yoga practices. Astrology and Yoga are explained in connection with the chakras, the nadis (energy channels), the koshas (levels of existence), and Patanjali's Eight Limbs of Yoga. The major yoga practices of asanas, pranayamas, mudras, mantras and meditations are correlated with your astrological makeup so you can discover which techniques are best for you. Mehtab Benton is a life-long practitioner and teacher of Yoga and a certified Vedic astrologer. He has trained hundreds of yoga teachers and given astrological readings to spiritual seekers worldwide. He is the author of Gong Yoga: Healing and Enlightenment through Sound.

Parivartana Yogas are said to be among the most powerful of planetary combinations, having the capacity to link the effects of two astrological houses in a chart. However, aside from what we find explicitly in Mantreswara's Phala Deepika, there's little in the literature – neither in the many classics of Jyotisha, nor in modern books – to help us understand these yogas. In this book, an invaluable reference work for any Vedic astrologer's library, the author describes the effects for each of the 66 combinations of house lord exchange, also known as mutual receptions. A case study of a famous person accompanies each combination.
